

Stay In This Fight: Texas Law Prohibits Big Tech From Banning Free Speech

By Bradlee Dean

February 22, 2023

“Freedom of speech is the great bulwark of liberty: and it is the terror of traitors and oppressors, and a barrier against them...” –Benjamin Franklin

Just recently, I took the time to share with our viewers and our listeners in helping them to understand the implications concerning illegal censorship and its consequences (Psalm 94:20).

This is a message that we have been promulgating since the beginning of the “plandemic” (Ezekiel 33:3-4).

As a matter of fact, many of the 1 million people in this country that have reportedly died from the experimental jab to date, and this because that much of the dangers concerning these experimental jabs, were illegally censored by the government.

[[Rumble Video](#)]

[The government found demanding big tech to illegally censor opposition to covid narrative](#)

This is the very reason that George Washington stated, and this for our admonition: “If freedom of speech is taken away,

then dumb and silent we may be led, like sheep to the slaughter.” This is exactly what just happened, and is happening, while the government continues its efforts to further illegally censor free speech in this and other countries.

Hopefully, the people are going to put a stop to the illegalities of the government that has been illegally censoring them.

[The Texas Tribune](#) reported:

“The Supreme Court in May placed an injunction on the law while a legal challenge against it went through the court system. The 5th Circuit Court of Appeals’ ruling Friday likely means the case, which could have wide implications on online speech, will go before the high court again.

The law passed during a special session last year and bans social media platforms with more than 50 million monthly users – like Facebook, Twitter and YouTube – from removing a user or their posts over a “viewpoint.” It also requires them to publicly report information about content removal and account suspensions.

The law is part of a broader movement against a perceived anti-conservative bias from major tech companies. That charge grew when Twitter permanently banned former President Donald Trump for inciting violence and purged over 70,000 accounts linked to dangerous conspiracy groups after the deadly Jan. 6, 2021, insurrection at the U.S. Capitol.

Social media company executives have denied removing content or blocking users based on their viewpoints, though they do have policies prohibiting explicitly graphic content, bullying, hate speech and dangerous misinformation.”

In conclusion: The “bullying,” of which they are claiming, is making reference to biblical and constitutional law that

exposes their subversive objective in upending the U.S. Constitution (Luke 12:2). All the while, they are accusing others of what it is that they are guilty of doing (Revelation 12:10).

The same goes for their version of hate speech, which by the way all crime is motivated by hate. To them, hate is telling the truth.

The dangerous information that they claim to protect all of us from is uncovering them for the conspiracies and illegal alliances (Isaiah 28:18) that they have, time and time again, been guilty of committing and are a part of those who do the same things (Jeremiah 11:9)!
