

Systematically America, Part 2

Erasing

By Lex Greene

February 28, 2023

In my previous piece "[Systematically Erasing America](#)," I explained how evil, insidious, and destructive the longstanding practice of changing the definitions of words is, to both the foundations of freedom and liberty, and even the rewriting of Holy Scripture in an overt attempt to mislead well-intentioned citizens and believers.

Since the mass distribution of that piece, the content at a link provided has been altered, making it appear as though the information provided was inaccurate. [In this piece](#), I explained how definitions of words were being intentionally amended and how direct internet access to original online definitions were being eliminated.

Specifically, I referenced the replacement of the 1828 Webster's Dictionary by an evangelical group and I used the word "citizen" to demonstrate the extent and purpose of the alterations, linking to the word in the newly published Webster's Dictionary.

When I placed the link to the word "citizen" in the new amended Webster's Dictionary, the following words were indeed omitted; *"a freeman of a city, as distinguished from a foreigner, or one NOT entitled to its franchises."*

Today, [this sentence now appears at the same link provided](#).

Within a couple days of releasing my previous piece, the new site was updated to add the above statement that was missing at the time I originally linked it in the column. It appears there now.

However, this event sent me on a deeper search resulting in the following information. Again, as of this writing, ***“a freeman of a city, as distinguished from a foreigner, or one NOT entitled to its franchises”*** remains missing in the online dictionaries used most often by American citizens.

DICTIONARY.COM

MERRIAM-WEBSTER.COM

DICTIONARY-CAMBRIDGE.ORG

Most importantly, it is also missing from [BLACKS LAW DICTIONARY](#). This is a dictionary most often used to settle disputes in every court in the USA. *(This time I took screen shots to prove that the phrase is missing as of this writing.)*

How important is this issue?

By simply changing the definition of words in reference dictionaries, our government and their paid “scholars” have undermined the Constitution and Bill of Rights to the point that neither actually exists in practice today.

In the case of the word “citizen,” by eliminating the most critical part of the definition, the part that distinguishes “legal citizens” from “non-citizens” – – who are mere “inhabitants” allowed to reside in the USA “illegally,” are now viewed by our legal system as equal to “legal citizens” entitled to all of the Rights secured for “legal citizens” alone.

This is why today, “illegal aliens” actually have more Rights and more access to taxpayer-funded benefits than any legal American citizen does. It’s on this basis that [democrats are](#)

[ushing to pass legislation to “legalize” voting Rights for “illegal aliens”](#) before the 2024 election cycle.

But far worse is the reality that the highest political office in our land is no longer reserved ONLY for “Natural Born Citizens,” as required by [Article II](#).

As of the 2008 elections, anyone from anywhere on earth, without so much as an authentic U.S. Birth Certificate, can occupy the Oval Office and serve as Commander-in-Chief of our entire national security agencies and U.S. Military. *(This explains how our entire national security operations have been turned against legal American citizens since 2008, (aka “Right-wing Extremists” and “insurrectionists”).*

The courts have refused to hear any evidence of Constitutional ineligibility for office or issue a Supreme Court decision on the true meaning of [Natural Born Citizen](#). So, non-Natural Born Citizens (and soon non-citizens) can occupy the office, and they (can) have flooded our country with somewhere between 30-60 million “illegal aliens” that are now considered “equal citizens” of the USA with all the same Rights once held by legal American citizens alone.

In short, the altering of definitions has made it possible for our federal government to replace legitimate legal citizens of the USA with “illegal invaders” of the USA, and even let them hold the highest offices in our land.

Some states, like California, have gone so far as to allow “illegal aliens” to occupy law enforcement and judicial offices, wherein those with no legal right to be here at all, now sit in judgement of legal American citizens.

Barack Hussein Obama has never been able to provide an authentic U.S. Birth Certificate, because he was not born in the USA, nor was his Father ever a legal citizen of the USA. Obama was born in Kenya to a citizen of Kenya. Since 2008, other “constitutionally ineligible” people from both political

parties have run for President and Vice President. Republican Nikki Haley is “constitutionally ineligible” by the proper definition of [Natural Born Citizen](#).

But under the amended definitions in use today, everyone on earth is eligible.

That’s how critically important this issue is...

So, when thinking and complaining about how our country is being, or has already been stolen right out from under 300-million legal Americans, all paid for by American taxpayers, remember how easy it was to do, by simply creating new definitions to old words, and erasing all access to the real meaning of words in place at the time of our Founding.

Good luck fixing this at this late stage of utter destruction! Goodbye America! Our country was stolen by lawyers, scholars, and experts. By the way, our nation was bankrupted by the same!

As of today, our Constitution and Bill of Rights are NO LONGER in force or effect! Let that sink in! Our country has been carefully prepared to become a member of the “Great Reset” global commune, while Americans were asleep at the helm.

“Noah Webster’s (original) 1828 American Dictionary of the English Language was produced during the years when the American home, church and school were established upon a Biblical and patriotic basis. Webster made important contributions to an American educational system which kept the nation on a Christian Constitutional course for many years.”

[Noah Webster’s 1828 dictionary Ellen G White estate](#)

“If the citizens of the U. States should not be free and

*happy, the fault will be entirely their own.” –President
George Washington*
