

Tariffs are a Benefit Second Only to God

By Andrew Wallace

This is not an exaggeration, it is the absolute well-hidden truth. Tariffs are second only to God in what they can do for the People. Tariffs are the proven solutions for major problems.

Tariffs are to the Parasitic Super-Rich Ruling Class (PSRRC) what a Christian Cross is to the Devil, because it stops their theft and the impoverishment of the people.

Tariffs benefit the people in countless ways. Our Founders were Masters of History, and knew this well. Let me relate a few of these benefits.

Mexico can either stop their illegal invaders and Fentanyl, or suffer major weekly increases in tariffs.

Fentanyl is killing thousands of Americans, and the Invaders bringing it in are destroying our healthcare system, bankrupting our social programs, and taking jobs from poor citizens (kiss your Social Security and Medicare Programs goodbye). Invaders don't speak English, have no education, have no marketable skills, and can only survive on our welfare or crime against our People. The only thing they bring to us are diseases. Everybody knows this! It is unlawful and unconstitutional to support Invaders with tax dollars. It is Constitutional Treason to give aid and support to Invaders.

When we have the economic collapse, there will be a bounty on Invaders. Does anyone doubt this?

China, or any country producing precursors for Fentanyl, can cease, or suffer major weekly increases in tariffs.

China and the PSRRC are ENEMIES OF THE WORLD. They cooperated in the development of the Covid Bio-Weapon that killed millions. Then the PSRRC and their minions forced the people to get faux vaccine shots that killed more millions, and is an ongoing attempt at depopulation while making them more wealthy. China and other governments must not be allowed to own land, corporations or buildings in the United States. Foreign students should not be allowed to replace Americans in our universities.

Tariffs put on imports would be sufficient to offset the advantages of cheap foreign labor, allowing middle-class Americans to earn a living wage.

Our middle-class was wiped out when the PSRRC moved manufacturing off-shore to take advantage of low slave wages. This can be stopped by putting tariffs on foreign goods sufficient to offset that cost advantage. American workers can then produce those same products competitively for Americans at a living wage. Both domestic and foreign products would sell at higher prices than before tariffs, but now Americans would have the extra money to buy them.

Tariffs can replace the income tax.

But, most importantly, the income tax could be terminated. Tariffs financed our country until 1913 without an income tax. 1913 is the year when the PSRRC really got their power with the creation of their private Federal Reserve Bank, Tax-Free Foundations, and the Income tax. America was not founded to enrich the PSRRC by impoverishing our people with no-win wars for profit, while murdering millions and destroying entire countries around the world.

Tariffs will force the return of manufacturing to the United States.

Tariffs are guaranteed to return manufacturing to the United States, as President Trump demonstrated to the horror of the PSRRC, which has major investments in foreign manufacturing.

Tariffs will make most lower manufacturing and labor costs in foreign countries be unprofitable for American companies.

Tariffs used by President Donald Trump were the primary reason that he was hated, vilified and framed by the PSRRC and their Communist minions in 'woke' corporations, government, media, academia, et al. If President Trump could have continued his agenda, he would have ended the income tax, no-win wars for profit of the PSRRC, and returned manufacturing and prosperity to the United States. Brainwashed wimps graduating from college may not understand President Trump, for he speaks the plain language of men and those in "Flyover Country", and we understand him perfectly.

Tariffs, by replacing the income tax, will stop the financing of no-win wars for profit of the Parasitic Super-Rich Ruling Class (PSRRC) using taxpayer money. Without income taxes, the war in Ukraine would be impossible. Tariffs will be there to save the lives of millions of people and prevent the destruction of entire countries for profit.

Putin is not my hero, but he is a Saint compared to the murderous SOB's running our government. It is impossible to finance no-win wars (using taxpayer money that the PSRRC will skim and launder) without an income tax and an unconstitutional Federal Reserve Bank. Our Constitution requires gold and silver money, which would make inflation almost impossible, and why our crooked government uses Fiat Dollars. In simple terms, the PSRRC has modified our government into a machine to suck prosperity out of the people.

Tariffs would be a windfall for the people, but we would still have major problems.

A majority of our federal establishment is unconstitutional. It has blatantly usurped state powers in violation of "Enumerated Powers" in the Constitution.

Therefore, a majority of federal government is unconstitutional. As an example, the following departments are unconstitutional: Labor, Agriculture, Health and Human Services, Education, Energy, Transportation, and Housing and Urban Development.

All of these departments are fake and fraudulent with no lawful authority whatsoever. This unconstitutional concentration of power is designed to expedite theft, money laundering, and power.

Any governor who doesn't exercise his Constitutional power to kick these unlawful federal departments out of his state is owned and controlled by the Parasitic Super-Rich Ruling Class!!!!

Regular readers know that I break down complex subjects into one or more articles. My primary purpose in writing is to give Patriots information they can use. I make no attempt to inform Lenin's "Useful Idiots" of anything, because they will not be receptive to such insights until they are starving.

God Bless Our Constitutional Republic
