

Ted Cruz joins Trump to defeat Hillary

The Donald Trump campaign has announced that Ted Cruz has “buried the hatchet,” and will call for unity behind Trump to defeat Hillary Clinton when Cruz speaks at the GOP Convention. (Here is the link to the announcement by the Trump campaign) I have enormous respect for Ted Cruz, as an American patriot, as a man, a sincere Christian, and an absolutely brilliant attorney who has taken on and won before the Supreme Court seven (7) precedent setting cases preserving the Constitutional rights of all Americans. (Read his book, “A Time For Truth” for these cases, and so much more about him.)

Cruz was my first choice for President for all of the above reasons. If he is now supporting the election of the GOP nominee, Donald Trump. It is further reason to believe what a good man he is, to put the good of country ahead of his own presidential ambitions, and forgive the bruising and undeserved personal attacks aimed at him in the primary election, first by Marco Rubio, then by Trump.

Now that the choice is between Trump and Hillary Clinton, the Beast of Benghazi, all Americans, including all Cruz supporters should – indeed must – support the GOP nominee, Trump, like Ted Cruz is doing, in order to defeat Hillary Clinton.

Hillary Clinton is as crooked as her husband, but with the blood of Benghazi on her hands, an indelible stain which cannot be washed off by more lies. As Secretary of State, she was an utter incompetent failure in foreign policy, from the initial embarrassingly inept if not farcical “Re-Set” of relations with Russia, to Libya and ultimately Benghazi. (If you need more proof regarding the Benghazi Scandal, see or read “13 Hours,” in which four Americans died at the hands of

Muslim jihadist terrorists while Hillary, and Obama, did nothing to get help to them for 13-hours.)

Domestically, Hillary's endangerment of national security in her E-Mail Scandal, and the lies attendant thereto, proved in her "indictment without an Indictment" by the FBI, is evidence that she is even more arrogant in the exercise of power, and even farther "Left" as a self-declared politically-correct, "progressive-liberal" (i.e., neo-socialist) than Barack Hussein Obama.

That is saying something as Obama is the most "Liberal" President in history. He has brought America closer to a European-style socialist state than ever before, epitomized by his creation of "socialized medicine" through the job-destroying "Obamacare" government takeover of health care. He is also the most destructive of our tri-partite government based on "separation of powers," as well as the most destructive of Constitutional freedom through his "imperial presidency," ruling by Executive Order on culture-changing policies. Those Executive Orders effectively change and make law on immigration enforcement or lack thereof. He has effectively usurper the authority of Congress to make law rather than enforcing the laws Congress creates as head of the Executive Branch.

In truth, we Americans are not just facing difficult problems that need solving in this election. We are facing an existential threat from enemies foreign and domestic:

Domestic enemies mean to transform America from a free Constitutional republic based on free enterprise, and individual freedom, to socialism and serfdom. The domestic enemies include the contemporary progressive-liberal, politically-correct Democrat Party transformed by Obama, Hillary, Affirmative Action exploiter and fake Native American Elizabeth "Pocahontas" Warren, Black Lies Matter, and the various malicious America-hating socialist-communist parties

who are using BLM and the New Black Panther Party today as they once used the old Black Panther Party as black “shock troops” in the ’60’s.

Evidence of the the Black Lies Matter demonstrators are being used, knowingly and willingly, or stupidly as dupes by communist manipulators, is the fact that the printed placards used at Black Lies Matter protests are not even their own, but are provided – as is printed on the bottom of the placards – is the noxious “RCP,” i.e., Revolutionary Communist Party, which, like Dracula, rises periodically from the political grave when it finds black anti-Americans malicious enough, or stupid enough, to join with that excrescent communist rump organization as what Lenin called “useful idiots.”

Foreign enemies, i.e., Muslim jihadist terrorists inspired by the Quar’an, the Hadith, ISIS or other Islamic extremists, mean to transform America into an Islamic theocracy based on Sharia Law. They are working to transform America in this way by terrorism abroad – as well as increasingly here – combined with using Muslims living in America to exploit domestically the very Constitutional freedoms of the Bill of Rights they mean to destroy and replace with Sharia Law, as freely admitted by such Muslim supporters of Obama, Hillary, and the Democrat Party as the Council of American Islamic Relations (CAIR).

Indeed, CAIR, an unindicted co-conspirator in the Holy Land Scandal involving Muslim “charitable” donations being used fund terrorist Islamists, confidently predicts that America will be an Islamic republic under Sharia Law within “100 years.” They say, however, that they will accomplish this “peacefully.” How? Through the high-birthrate of Muslim women, Muslim immigration, importation of Muslims as so-called “refugees” without effective vetting, and increasing demands to Islamize or Muslimize American law and culture to incrementally demand more and more accommodations to Muslim preferences, including acceptance of Sharia Law and courts,

through exploitation of the Bill of Rights and Civil Rights laws intended originally to protect black African Americans.

Either way, triumph of socialism by domestic enemies, or triumph of Sharia Law by foreign enemies, is a triumph of tyranny, destroying American freedom and the free, Constitutional republic the Founding Fathers bequeathed to us.

Americans, therefore, must unite to defeat Hillary Clinton, the Benghazi Bungler, who has moved in her campaign even further toward a socialist America, promising to continue and expand the immigration, Muslim “refugee” importation, failed economic and abhorrent freedom-destroying policies of Barack Hussein Obama in fulfillment five days before his election in 2008 to “fundamentally transform America.”

As Cruz has stated about “burying the hatchet,” unifying to defeat Hillary Benghazi, and what he will say must be done when he speaks at the Republican Convention at the invitation of Trump:

“I’m going to urge Americans to get back to the Constitution to change the path we’re on: eight failed years of the Obama-Clinton economy; eight failed years of a presidency disregarding the Constitution and Bill of Rights,” he told reporters. “Eight failed years of a commander in chief not protecting Americans and keeping us safe from radical Islamic terrorism. It’s time for that to end.”

Amen.

FOR GOD AND COUNTRY FOREVER; SURRENDER TO TYRANNY–NEVER!
