

Ted Cruz not on NJ ballot – will hearing today finally expose his con game?

In December 2008, attorney Leo Donofrio filed a challenge in New Jersey to keep a pair of con men off the ballot for presidential preference: John McCain, Barry Soetoro aka Obama. Leo was not denied because of standing. Not to rehash years of litigation, but Leo ended up petitioning the U.S. Supreme Court who hid behind their dirty black robes. The 'high' court refused to hear one of the most important legal issues of our time: presidential eligibility.

Shenanigans by clerks at the U.S. Supreme Court should have prompted an investigation by Congress, but of course, that never happened. Justice Clarence Thomas disgraced himself when he stated during a congressional subcommittee hearing regarding presidential eligibility: "We're evading that one." Everyone, including Thomas, all laughed. Ha, ha.

Over 90 lawsuits were brought to stop the criminal impostor in the White House from running for president because Barry Soetoro aka Obama and other known aliases is clearly not a natural born citizen. Despite the massive amount of legal research based on court cases and historical documents defining natural born citizen, buffoons in the media, print and electronic, as well as boob tube experts, talk show biggies and the corrupt machines called the RNC and DNC continue to distort the truth by declaring only one parent must be a U.S. citizen. Wrong. BOTH parents must be U.S. citizens at the time the child is born.

Not one of those lawsuits was ever decided on the merits of the law. All were dismissed for political expediency. At this time there's no proof Ted Cruz is even a naturalized U.S.

Citizen so I ask again: Just what country does he claim citizenship under?

Several lawsuits and requests for hearings to stop Ted Cruz have already been thrown out on technical grounds or simply because of the 'we are not going to deal with this' syndrome by lower judges or election officials.

Montgomery Blair Sibley was a close friend and attorney for Deborah Jeane Palfrey aka the DC Madame silenced by suicide. In January 2012, Montgomery announced he was running for president as a write in candidate; see history here. His goal was to try one more time to keep the lying Marxist in the White House off the ballot. The powers that be who control our elections made sure that never happened.

Now in April 2016, we have come full circle back to the State of New Jersey and a write in candidate for president by the name of Victor Williams who has quite a resumé:

"Victor Williams is a clinical assistant professor in the Lawyering Skills Program. He teaches Law and Economics and Lawyering Skills. Victor earned three law degrees: an LL.M. (specializing in Law and Economics) from George Mason University School of Law in 2005; an LL.M. from Columbia University's School of Law in 1994; and a J.D. from the University of California's Hastings College of the Law in 1990. While in law school, he was an articles editor of the Hastings Constitutional Law Quarterly. Victor also served as a student editor of American Review of International Arbitration while completing his graduate law study at Columbia.

"Victor served as a federal judicial law clerk with U.S. District Court Judge W. B. Hand from 1990-1992. Victor also worked as a federal judicial extern for U.S. Court of Appeals Judge G.B. Tjoflat of the Eleventh Circuit and for U.S. Court of Appeals Judge Joseph Sneed of the Ninth Circuit. Additionally, he interned with the U.S. Securities and

Exchange Commission, working on enforcement issues at the SEC's regional office in Los Angeles. Prior to affiliating with The Columbus School of Law, Victor Williams held a tenured appointment as an associate professor of Law with the City University of New York's John Jay College of Criminal Justice. At CUNY, he taught a variety of law and policy courses at both the undergraduate and graduate levels.

"His academic writings include articles and essays published by the law journals of Michigan, William & Mary, Columbia, George Mason, Kentucky, Marquette, Seton Hall and Loyola. His practice-oriented articles and essays have been published by the Banking Law Journal, Commercial Law Journal, Administrative Law Journal, American Journal of Comparative Law, Trial, Judicature and Federal Lawyer. Additionally, Victor has published commentaries and op-eds in The American Lawyer, Christian Science Monitor, National Law Journal, Connecticut Law Tribune, Jurist.org, Legal Times, New Jersey Law Journal, Fulton County Daily Report, Miami Business Daily, and the Recorder. Victor's present research interests include law and economics, the federal appointment process, ethics, administrative law, constitutional law and intellectual property."

Williams is challenging Cruz's eligibility:

Why Ted "Canadian" Ted Cruz Is NOT Eligible to Run for President (except maybe for Prez of Goldman Sachs)

"Rafael Edward Cruz was born in Calgary, Alberta, Canada. But there was no need to for journalists to search for the birth certificate – Lawyer Cruz has admitted that he is a natural-born Canadian. Few would doubt the raw intelligence of Ted Cruz. He is renowned as a Princeton man, a Harvard-trained lawyer, and U.S. Supreme Court advocate who preaches a textualist, strict-constructionist message. Nor should his raw ambition (that over-leaps itself) be denied. Behind closed doors, Mr. Cruz finagled a series of huge (undisclosed) loans

from Goldman Sachs to fuel that ambition. But these facts only go to prove the nature of the ballot con that is being perpetrated by Ted Cruz.

“Indeed, Mr. Cruz knew (and knows) that he is not a “natural born” American citizen. His statements made to obtain ballot access for each state’s primary (including those states where Williams is bringing challenges as a competitor candidate), were (are) nothing less than fraudulent. Some may find it kinder just to call his actions part of a “good old” fashioned Alberta long-con, eh...Ted Cruz fails this “Jus Soli” (law of the soil) test. The requirement of “Jus Soli” citizenship was, and is, antithetical to any statutory conferring of citizenship on children born abroad of American parents. And Mr. Cruz knows that he fails the test yet he continues with his fraudulent campaign.”

I encourage readers to go to the link above and read Williams’ full analysis which is the basis for his ballot challenge. Cruz filed and signed the required documentation on the drop dead date to appear on the ballot, but he’s not on the ballot yet.

Williams discovered he could be a write in candidate in nine states. Right now it’s New Jersey:

Ted Cruz Risks Immediate Primary Disqualification in New Jersey with Secretary of State Formal Hearing Scheduled

“A primary ballot disqualification hearing is scheduled by the Secretary of State for Monday, April 11 at 9:00 a.m. in Mercerville, New Jersey. Washington D.C. Law Professor Victor Williams charges that Ted Cruz fraudulently certified his constitutional eligibility for office to gain ballot access.

“Williams’ fraud charges had quick effect in New Jersey. Rather than accepting Cruz’s ballot petition when filed last week, the Secretary of State (Kim Guadagno) scheduled the unusual Administrative Law hearing for April 11. The Canadian-

born Cruz must prove that he did not falsely certify his eligibility for office. Cruz's ballot eligibility is also being challenged in California, Maryland, Montana, Nebraska, Oregon, South Dakota, and Washington."

Williams feels he can avoid the judicial hallucination called 'standing' because he is a write in candidate just like Montgomery Blair Sibley was back in 2012. We'll see if he is successful in keeping conniving liar, Ted Cruz, off the ballot in New Jersey which would cause a political earthquake like nothing we've ever seen.

For Ted Cruz to remain on the ballot is just another gigantic fraud against we the people facilitated by the gutless cowards in the Republican Party who have allowed not one constitutionally ineligible candidate to usurp the office of president, Obama, but have again allowed Ted Cruz to remain in the race stealing votes and delegates he has no legal right to during the primary process:

Cruz Outmuscles Trump in 34-Delegate Colorado Sweep – No primary, no caucus

Trump's getting trounced in Indiana – The state hasn't even voted and convention delegates are already lined up against the front-runner. What happened to the vote of we the people? Why even bother with a primary or caucus from this point on if an ineligible candidate is going to be allowed to steal delegates the way we're seeing?

State party tweeted: 'We did it. #NeverTrump'

Trump Delegates Scratched From Ballots at GOP Convention: "Ted Cruz supporters took all 13 of the delegates up for grabs at the Colorado GOP Convention on Saturday to complete a clean sweep of the state. But it was not without controversy. The Cruz camp and GOP establishment leaders strong-armed their way to a sweep by banning Trump delegates and omitting them from the ballots... and listing Cruz delegates TWICE! " See link for

the rest.

If you aren't on my free email alert list, here is the last update regarding the DC Madame's John's list:

April 6, 2016

Greetings:

"As you asked me to keep you in the loop, here is the latest on the D.C. Madam's records:

"Yesterday, Chief Justice Roberts denied my Application to remove the Restraining Order which prohibits me from releasing the D.C. Madam's Escort Service Records I believe relevant to the Presidential Election. Pursuant to Supreme Court Rule 22, I am now renewing that Application to Justice Thomas a procedural second bite at the apple so to speak. I will wait upon his decision which in the normal course should come by the middle of next week before taking any further action regarding those Records. The Renewed Application can be found on my blog.

"I am scheduled to appear by telephone on the Alex Jones Show Jeane Palfrey's favorite radio show this Friday at 1:00 p.m. (Central Time.) I have reviewed the putative D.C. Madam records released on-line and can state they are not the Records I seek to release. Instead, they appear to be those that I released publicly in 2007 and which were organized into a searchable database by the Brandeis Boys.

"Respectfully, I have sought to answer all your questions, so now I am going to ask you a few of my own: With the Wisconsin Primary now in the books and more Primaries on the horizon:

1. Will the Press begin to "press" Chief Justice Roberts as to why he denied my Application in Supreme Court Case No. 15A1016? Is he a Caesar at the Coliseum turning his thumb up or down as the whim strikes him or does he have to account-

through-legal-analysis for his decision to allow my First Amendment Political Speech to be muzzled by explicitly approving the refusal of the lower courts in his administrative jurisdiction to allow me to file my Motion to Modify the Restraining Order? (I trust you know for time sensitive or urgent questions, Reporters can contact the Supreme Court Public Information Office at 202-479-3211, press 1).

2. When will the Press begin to “press” D.C. Circuit Court Chief Judge Garland as to why his Court has refused since March 9, 2016 to address my Petition which seeks an order directing the District Court Clerk to file my Motion to Modify the Restraining Order. Notably, in Case No.: 16-3007, I requested Expedited Consideration which the Circuit Court also has refused to grant or deny creating in effect a judicial pocket veto without explanation and thus denying me the ability to appeal such a decision. (Such an inquiry can be directed to: Tracy Hauser Scarrow, (202-216-7460) Special Assistant to Chief Judge Garland).

“Needless to say, there will be more to follow.” Signed,
Montgomery Sibley

Law Center Issues Threat to Cruz: Quit by the 17th & Admit You’re a Fraud – Or We will Expose You as One – April 9, 2016

“The North American Law Center has issued an ultimatum to the Ted Cruz campaign: “If Ted continues on – we are going to release the files we have, two weeks from tonight, and we will bury Ted Cruz forever in American politics.

“J. B. Williams, the co-founder of The North American Law Center said on April 3, 2016, “We’re talking about American citizens (who) think a guy who’s Canadian-born is eligible to be a U.S. president – without any documentation whatsoever. If Ted continues on – we are going to release the files we have, two weeks from tonight, and we will bury Ted Cruz forever in

American politics... If we have to stop this guy from defrauding this nation, then we are going to do that."

"Consider that the only documents we have actually been privy to are the documents that Mr. Cruz has provided, namely his birth certificate and his revocation of Canadian citizenship, which did not occur until mid-2014. That's it. In fact, according to the NALC, "...there is no evidence to suggest that the parent or parents of Ted Cruz ever filed a CRBA form with the U.S. Government in or around 1970, which is why Ted Cruz released a copy of his Canadian citizenship records and not any U.S. citizenship records."

"At present, all FOIA (Freedom of Information Act) requests filed in search of any U.S. citizenship documents to confirm the true official U.S. citizenship status of Ted Cruz have been denied access," Williams added. "All citizenship records for Ted Cruz are sealed unless and until Ted Cruz agrees to allow any such records to be released by either U.S. or Canadian agencies. As a result, there remains no authentic evidence to support the claims that Ted Cruz is either a 'natural born' or 'naturalized' citizen of the United States." (Emphasis mine)

"Without any form of U.S. Citizenship documentation, and proof of Canadian citizenship at birth in 1970 and holding that legal status until May 2014 when he renounced his birth citizenship to Canada, there is no way for Ted Cruz to prove that he is either 'natural born' and eligible for the Oval Office, or 'naturalized' prior to 2012, when he sought and accepted a seat in the U.S. Senate as a legal citizen of Canada," Williams concluded."

Like the author of the piece above, I'm wondering what is it they have but we haven't seen? According to J.B. they have files they intend to release if Cruz doesn't quit the race by April 17th. From his lips to God's ears. We all know the ambitious Ted thinks he can bluff his way into the White House

just like the current Manchurian Candidate did – twice. I guess we'll see on the 17th what information the North American Law Center has and if any heavies in the compromised, agenda driven media outlets, 'conservative' talk radio, FOX News Network or any of them cover this story.

There's a lot of talk about who can win the national election. We've already seen vote fraud in several states against Donald Trump that favor Ted Cruz. FOX and other media outlets on the stupid tube as well as the Internet and newspapers all say Trump cannot beat a criminal like Hillary Clinton in a general election. Funny thing though because the same was said about Ronnie Reagan in 1980. Despite Latest Media Smear Trump's Favorable Rating Rivals Reagan's in 1980: "Back in March 1980 the establishment said the same thing about Ronald Reagan. They said he could never defeat Jimmy Carter. He was too divisive. Reagan trailed Carter by 15 points in February-March 1980."

Jimmy Carter, Democratic/Communist Party USA, was a monumental failure just like the Marxist in the White House, Barry Soetoro aka Obama. Reagan was a Republican. Election outcome: Reagan trounced Carter in a landslide taking 44 states. Of course, Reagan didn't have to deal with an opponent who has no legal right to be on any state's ballot along with the sophisticated electronic vote fraud we're seeing.

Millions of us are praying Hillary the Hun gets indicted because her and the serial adulterer she's married to have been a successful criminal enterprise for almost three decades. However, should she go up against Trump there's no question in my mind he will beat her soundly unless vote fraud carries that hag as it did Obama – twice. As vote fraud absolutely put Bush, Jr. into the White House in 2004; no question Kerry actually won Ohio.

Dishonest Ted likes to say the eligibility issue has already been settled by the courts so buzz off. Yes, Ted, it has only

you choose to ignore the cases which prove you are not eligible:

4 Supreme Court Cases define “natural born citizen”

Neither the 14th Amendment nor Wong Kim Ark make one a Natural Born Citizen

Ted Cruz Misrepresents the Law and His Being a Natural Born Citizen at Town Hall Meeting

I’m sure many of you saw the disgusting fake front page the Boston Globe put out over the weekend: Boston Globe rips Trump with fake front page. I have but one thing to say to the editorial board of that rag: Your proctologist called. He found your head. Now, I didn’t come up with that one; the woman who used it on line remains anonymous. But, it is so spot on when it comes to fools in the media working so hard to destroy this country, their own lives and families.

Well, we’re in the waiting game now. The release of Ms. Palfrey’s records, what files the North American Law Center has and the outcome of Prof. Victor Williams ballot challenge hearing today in New Jersey.

[Just a short note about 9/11 and Smart Electric Meters. The cost of America’s undeclared “war” (invasion) in Afghanistan has now reached \$1 trillion borrowed dollars – massive debt heaped on us all based on what happened on 9/11. Regular readers of my column know I continue to press for the truth about the events of 9/11. Military grade nanothermite is not a conspiracy theory. It was found and tested from the rubble at the twin towers. A new, powerful film has been released: The Anatomy of a Great Deception. Just released: New Expanded Global Edition. For full disclosure I receive no compensation, but I want you to get a copy (or a few) and share it with others or give a copy as a present. I’ve purchased half a dozen copies and given them to individuals I believe seek the truth. It’s very powerful simply because it’s one ‘ordinary’

man's story who ask a simple question that led him to a not so simple journey. There is factual information in this film that many have never heard about but everyone should. Just a suggestion, order more than one and give one to a friend. Also, must see video on the dangers of Smart Meters on your home, titled: Take Back Your Power.]
