

Tell Me Lies, Tell Me Sweet Little Lies, I'm Gullible

Karen Schoen

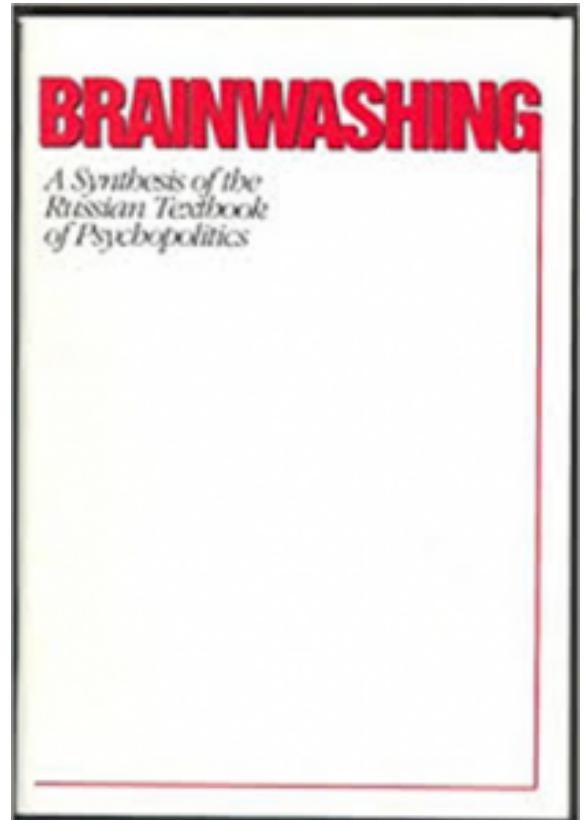

Let us never underestimate the Ends Justifies the Means communist crowd. They will stop at nothing to win. Like bulldozers they destroy anything and anyone in their path. They don't care who they hurt, use, abuse as long as they win. They are part of an OUTCOME BASED SOCIETY. What exactly does that mean? They know where they want to wind up and will stop at nothing to get there. [See the DVD: "[Exposing the Global Road Ruin Through Education](#)"]

They worship the gods of MONEY, POWER, CONTROL. They are in both political parties. Until recently they were cloaked and hid their intent. Today they have revealed themselves in the Democrat party and in the media. [Let's review some of the 45 goals of communism](#) read into the congressional record in 1963 by Rep Herlong (D-FL). Goal #15 Capture one or both of the political parties in the U.S. [Must Read: "[Brainwashing: A Synthesis of the Russian Textbook of Psycho Politics](#)"]

I just received an email from a listener. Basically she was astounded that in a debate the other debater did not know that the DNC took G-d out of its platform and when they tried 3 times to put it back, they were booed. This was at the 2012

DNC Convention. Why was the other debater ignorant of this fact? Because it was omitted in MSM. That is the new way policy is made in this minority rules world. How does the minority control you? They LIE and the media swears to it.

Make no mistake and remember these key points as they apply to every policy put forth by the Democrat party

1. Everything is connected
2. Nothing is random or a coincidence
3. Everything has a plan.
4. All plans are based on lies.

How did this sinister plot evolve? Lies Ignored by the MSM makes it easy for the democrats to implement policy that:

1. **Will never work** –*Environmentalists demand you ignore the forest so they can be reclaimed by nature. The result is massive out of control fires destroying farmland and homes. Forests must be managed.*
2. **Will be expensive** – *New Green Deal (another name for Agenda 21) will cost \$94 Trillion and will do nothing for the climate. Humans do not and can not control the climate.*
3. **Will give the minority power to rule the majority** – *LGBTQ is less than 4.5% of the population yet one person*

making a claim will change society. Porn in school and or trafficking produce little or no public outcry as it is now considered the norm. Goal: # Present homosexuality, degeneracy and promiscuity as "normal, natural and healthy."

Let's apply some of the 45 goals:

Goal #6 *Provide American aid to all nations regardless of Communist domination.*

When President Trump decided to review all of the countries we give foreign aid, the communists in congress went ballistic and ordered an impeachment trial. After all if America stops giving aid, how will they redistribute America's wealth to the countries they own businesses?

Goal #12 *Resist any attempt to outlaw the Communist Party.* Florida Statute 876.01 Prohibits Communism and its sister isms in Florida. This statute is ignored and communism is now the main focus of K-12 education. "While the idea of banning any political party runs contrary to notions of American freedom and liberty, notions that are the exact opposite of those held by the left-wing communists themselves, nevertheless these goals sought to undermine the constitutional obligation of Congress to investigate subversion. "The weakening of our government's ability to conduct such investigations led to the attack of 9/11," the Blaze. This applies to both the Russian and Ukraine hoax.

Goal #29 *Discredit the American Constitution by calling it inadequate, old fashioned, out of step with modern needs, a hindrance to cooperation between nations on a worldwide basis.* Replace elected officials with bureaucrats who now feel they are in control of foreign policy. You heard they say exactly that at the impeachment farce. Ambassadors Vindman, Volker, and Williams all think American foreign policy should follow their policy not the elected President.

Show me the money!

When the lying bureaucrats liars lie, Congress gives them more money and lets it slide..

- When the environmentalists moan, we give them money and let it slide.
- When minorities yell racism, we give them money and let it slide.
- When the schools scream about poor grades, we give more money and let it slide.
- When NGO's , nonprofits lie we give them more money and let it slide.
- When politicians lie we give them more money and let it slide.

What is not working? Giving more money and let it slide.

How can I say that?

Where have we gotten? IN MASSIVE NEVER ENDING DEBT fighting over programs and policies that do not exist or fail.

What are we facing? MORE DEBT, more failure.

Regardless how many times we say, doing the same thing over and over expecting different results is the definition of insanity, we continue to give more money and let it slide.

Let's look at one of these special programs.

1. An environmental sign reads, Don't FEED the Animals they will become dependent on humans.
2. Schools all over America thrown out thousands of pounds of food continually. The Michelle Obama deal (I don't remember electing her) changed the school menu. It cost you more. The human capital (their name for humans) now MUST take the food whether they want it or not. The human capital doesn't want the food they must take, so they throw the food out. The school is NOT allow to give

- food to the needy.
3. Fisherman must throw Red Snapper caught in nets when not in season, back into the ocean rather than give to the local shelters.
 4. The Salvation Army, Churches and other NGO's beg for food. Too many people not enough food we are told.
 5. People are on street corners with signs beg for food.
 6. School should give the excess food to the needy.
 7. Oh I forgot, Don't FEED the Animals they will become dependent.

Another example is the torture that the Lying Democrats are shoving in our face. Impeach the President. This started 17 minutes after the inauguration. They can not deal with failure and NO to Hillary, the anointed candidate, was a huge failure. They were rejected by 63 million voters and their feelings are hurt. So they made up lies, "No we will not impeach" was their platform in 2018. They said, "Our platform is to help on healthcare, infrastructure, education blah, blah, blah." They lied. Today they will impeach President trump more because they hate him and he disagrees with their bloated non working programs. When trump speaks truth, he is evil and evil must be exterminated. No evidence, who cares. They will just make up more lies. Democrats got elected by lying. Nothing has changed. They lie.

One more example, my favorite MAN MADE GLOBAL WARMING.

1. With the help of the Rockefeller, Carnegie, Gates, Turner and the rest to the control freak global mafia, under the IPCC of the UN declared that man is responsible for the weather. Regardless of how many times they skew the data, get caught, admit to lies, people believe man controls the weather. Once Environmentalists decided the fault was man, they could get the government to restrict, control and tax. [Less for you, more for them. They believe they are better than you.](#) You are just a dumb human.

2. All school programs teach this faulty science. All curricula now focuses on sustainability: Sustainable science, math, English , literature etc. Feelings are more important than facts. All subjects must be taught under the guidelines of sustainability. Do more for less our students are taught. Don't question or you will be an outcast. Don't strive to do better for you each will get a trophy no matter what. Rather than seeking excellence, America's schools strive for mediocrity. If the grades are poor, just lower the standards and give more money.

How do communists address those failures? They say, "We have a great idea, but our implementation is off. It is ...fault. We need 2, 4, 6 more years we just need more time and more money.'

Those of us that had real math and science learned that when a false theory is used that answer will be false as well. 2 lies + 2 lies does not equal 4 facts. [More money is not the answer unless you are making money in the education field.](#)

Can you actually make sense of America today? Yes, but only when you know the truth. The problem becomes, "What is the truth? What do I believe? Then, Who do I believe?" If every program in America today is based on lies, what do we do?

Is America Worth Saving?

If their goal is MONEY, POWER, CONTROL

We have to stop giving into their demands. There is nothing wrong with saying "no, I will not comply." If you get a negative blast from social media, TURN OFF THE PROGRAM.

Take your example from President Trump. "Let's evaluate the aid we give to foreign countries before we hand them taxpayer dollars." If the President can get through all they lies told about him, 2 hoaxes and an impeachment kangaroo court, then

you should be able to say NO. Evaluate programs in your community. Get rid of those not working.

Get your kids and grand kids out of public indoctrination reeducation schools. One grandmother told me that she uses Skype to teach all of her 5 grandchildren who live in different parts of the country. The kids love that fact that granny uses a computer and they get time to spend with granny and their cousins. They average 30% higher on exams and her 4 year old is reading on second grade level. Public schools and Colleges get paid on attendance. Withholding money is their greatest fear. No students, no money. I stopped giving to my Alma Marta years ago. I asked if they were teaching sustainability. They said, "Yes". I said, "goodbye and do not call me again."

Carefully vet and give money directly to the candidate of your choice not the party. Run for office especially local offices. Even if you don't win, your message will be heard by thousands.

Stop **funding** environmental groups. The National Environmental groups get their marching orders from the United Nations. The UN has one major goal: End private property ownership. Private Property is defined as: You, Your family, business, and real estate.

Pay attention to new bills and voice your opinion. Many new bills are designed to **control** you. They have no real foundation. When implemented, they fail. Just look at our homeless crisis in our major communist run cities.

VOTE. Most local elections including school board are won because of low voter turn out or candidates running unopposed. **Take back your power.** Someone can only have power over you if you let them.

STOP FUNDING LIES AND LIARS. I will not comply, will you?
