

Terrorists & terrorism in the U.S.: know your enemy

Part 2: Know your enemy; understand your situation; take action

In the 21st century, terrorists and terrorism visit the United States like never in the history of our country. Previous to 9/11, we enjoyed tens of thousands of miles separating us from vagaries of the communist and Islamic worlds. While we fought wars in Korea and Vietnam, we never met an enemy that would “bring war” to us. That changed on September 9, 2001.

In Part 2 of this series with former U.S. Army officer, 1st Calvary, George Phelps, you may garner an up close and realistic view from a commander in the field.

Today, most Americans feel totally vulnerable to terrorist attacks. Congress and our last five presidents refused to secure our borders. Governors allow illegal aliens to gain driver’s licenses, as was the case with Mohammed Atta and his cronies as they flew planes into the World Trade Towers.

Could you give us an idea as to why we face terror in our own country?

“There’s an old military saying, “know your enemy.” said Phelps. “To better understand the people of the countries of the Middle East and Central Asia, I did some research into the history of these countries and that region of the world. History shows that these people and their ancestors have suffered the results of hundreds of years of invasion and oppression ad nauseam. The only thing that they have had to “cling to” is their religion.

“People who have been oppressed, tortured, killed and subjected to untold and unspeakable abuses need something to

give them hope of a better place to go and a supreme power, or God, to guide them in this life and in the life hereafter. This is Allah. The one and only thing that gives them hope and enables them to endure is their belief in Islam, Mohammed and Allah. The religion of Islam may not endorse death and violence, but many of the followers of Islam are willing to defend their circumstances, they're territories and their honor with violence, when necessary. (As a journalistic note: I have read much of the Qur'an and it does advocate violence over 162 times in its passages.) Here are a few:

- 1) Slay the unbelievers wherever you find them. Qur'an 2:19
- 2) Make war on the infidels living in your neighborhood. Qur'an 9:123
- 3) Any religion other than Islam is not acceptable. Qur'an 3:85
- 4) The Jews and Christians are perverts; fight them." Qur'an 9:30.
- 5) Maim and crucify the infidels if they criticize Islam. Qur'an 5:33
- 6) The infidels are unclean; do not let them into a mosque. Qur'an 9:28
- 7) Punish the unbelievers with garments of fire, hooked iron rods, boiling water; melt their skin and bellies. Qur'an 22:19
- 8) Do not hanker for peace with the infidels; behead them when you catch them. Qur'an 47:4

"Osama bin Laden managed to unite them, and convince them, that they are faced with the challenge of defeating the "Great Satan"; the United States. Again, even if his true motivation was only hidden behind the fa?ade of religion, the "religion connection" is what provides him with the dedication and devotion of his followers.

"What kind of human beings would treat women and children with such cruelty and oppression, as do these Muslim fundamentalists? The "western world" can't begin to understand the kind of thinking that it takes to prosecute this warped

and bestial war against the world. And, that's what it is; a war against the world, not just the United States. It's a mistake to think that this is a war against only the United States. The rest of the world has to "step up to the plate" and confront this mutual enemy that threatens world peace and the lives of all the citizens of the world we live in.

"Peace is the most elusive goal known to the human race. The preferred method to pursue and achieve it would be at the negotiating table. Unfortunately this has never worked. The perpetrators of violence perpetrate it because they like it, they understand it and it has the greatest probability of success. History bears this out. There are people who say, "Violence should not be answered with more violence because violence begets violence." We should "hold that thought."

"We need to have the option of discussion and negotiation "on the peace table" at all times. But, it is naive to think that those determined to be violent, and obtain power and influence, using violent means, will negotiate. There are too many examples of conquerors vanquishing those they are intent on conquering with violence, not discussion. Nor have they been discouraged in their intent by presentation of the olive branch and offers to discuss their intent peaceably. They do not respect appeasement. They only have contempt for it. To them appeasement is a sign of weakness and cowardice.

"It is important to "know your enemy." It's important to know their strengths and their weaknesses. I think that Osama bin Laden and the Taliban fear freedom. Their every action is framed around the suppression of women, children and those who do not agree with, or follow, their warped and distorted interpretation of their Holy Book, the Koran. They are intent on suppression and oppression.

"They do not want people to think freely, live freely, and most of all, become educated. Since the "Great Satan", the United States is the beacon of freedom, they not only attack

us, but they fear us. Free people do not put up with tyrants and demagogues. The hierarchy of these fundamentalist Muslims want power. Free people, free nations and people of free will stand in the way of their desire for world power and world dominance.

“We must not be intimidated; we must not cower before them. We must stand united against them, or we will fall before them. If we have the resolve and the determination to overpower tyranny, we will prevail. Otherwise we will drown in the quicksand of oppression, slavery, misery and terror. Just ask the holocaust survivors.

“Ditto with the late Saddam Hussein. Make no mistake; he was a member of this band of tyrants seeking world domination. We must not allow the appeasers and pacifists to lead this fight against tyranny and terrorism. If we do, the Hussein’s and bin Laden’s of the world will bury us and turn us into their slaves.

The attack and destruction of the World Trade Center, the attack on the Pentagon, the hijacking of the airliner in Pennsylvania and the bombing of the World Trade Center in early 1990s, the bombing of the Boston marathon runners, the attack on the people in San Bernardino are just a few examples of attacks on America and Americans by Muslim Terrorists.

“The refusal of the White House and Congress to secure our borders,” said Phelps. “Along with air corridors and ports of entry is an open invitation to terrorists to enter our country without any consequences of the breaking of our laws and threatening the security of our citizens. Attacks on our police officers by Muslim radicals is another area of the activities of Muslim terrorists randomly executing our citizens in the name of the Quran—their book of their hero Mohamed.”

We either sit back and allow more Muslim immigration that will

destroy our civilization, or we stop Congress from continuing mass immigration. It's up to you, an American citizen.

If you don't want a Paris, France or San Bernardino event in your community, it's time to call for a total "Immigration Shutdown Now."

Call your senators and House rep: 1 202 224 3121. Demand a stop to all immigration and stop to any Syrian immigration.

Definition of slogan: "Immigration Shutdown Now means the American people want a total shutdown on all legal and illegal immigration. That means we want all illegal immigration stopped by arresting, prosecuting and jailing employers of illegal aliens. We deport all illegal aliens by taking their jobs away and as we catch them. We want English mandated as our national language. We demand a cessation of Muslim immigration in order to protect our culture, language and way of life. We can't save the world but we can destroy our civilization. We demand a stable population that allows everyone to live, work and thrive into the 21st century. Especially our children." FHW

That's why you need to take action. Send this series to everyone in your network. Educate them. Urge them to take action by joining these websites to become faxers of prewritten letters and phone callers. We must force Congress into an "Immigration Shutdown Now!
