

The Absolute Lunacy of Our Democrat Leaders in Washington DC

Most Americans enjoy a sound mind, spiritual balance, and common sense. We go to work. We drive home. We kiss our spouse. We hug our kids. We pay our bills. We eat dinner. We watch TV, and we go to bed.

Whatever goes on in Washington DC, and in certain governors' offices around America defies understanding.

Right now, we've got U.S. Senator Schumer (D-NY), a man who spoke against illegal alien migrants 10 years ago, doing everything he can to support, defend and assist illegal aliens in America. He refused to delete the clause of the "Continuing Resolution" to fund America's economy because it cut out tens of billions of dollars for illegal aliens' Medicaid assistance. Mind you, those border jumpers remain in America in violation of our laws, but "Shutdown Schumer" wants to keep their Medicaid in violation of his oath of office. Medicaid is to serve American citizens, NOT illegal aliens.

Does that make any sense? Of course not! Yet, Schumer represents illegal aliens over American citizens--with our money.

Then, if you remember, House Member "forever", Nancy Pelosi (D-CA) bragged about all the illegal aliens in California

would become future “Americans” in one of her speeches defending those 2 to 3 million illegal aliens in her state. At the same time, she’s been implicated in “insider trading” of defense stocks because she told her husband which defense contracts to buy stocks. Thus, she’s rich by over \$100 million in ill-gotten gains off the American taxpayer. Notice how the mainstream media, always defending illegal aliens and liberal politicians, never reports or follows up on the enormous corruption in DC.

Have you noticed that no one has heard about Joe Biden’s Alzheimer’s Disease? Yet, mainstream media covered it up during the four years of his time in the White House. If you remember, Ronald Reagan announced his Alzheimer’s Disease after he left the presidency. We didn’t hear about him for 10 years until his death. It’s called, “The Long Goodbye” for those suffering from that disease. Their families suffer right along with the victims. My wife and I are among those victims.

What about that guy named Hakim Jeffries (D), minority House speaker, who calls other people names, but he’s the same guy who supported Schumer to shut down our government. They should have worked out budget solutions MONTHS ago. Instead, like kids in a sandbox, they dithered and dallied right up to the last minute...just like children. They never said a word against Biden’s inner circle for flooding our country with 15 million illegal aliens, but they fight like the devil to blame everyone but themselves. Meanwhile, we’re paying for a \$37 trillion national debt that politicians gave us.

When Senate leader Thune (R) offered the solution for stopping the shutdown, those childish liberal politicians rejected it. Squabbling, crying, blaming, pettifoggery, bickering, and self-righteous indignation! They are supposed to be educated, reasoned, logical, rational, intelligent and decent elected officials that care about our welfare as citizens. Especially since it’s our money that pays each one of them, \$174,000.00 annually. Wouldn’t it be great for all of us to make that

money for working less than six months annually?

In the end, too many of those politicians in DC are scam artists.

Who might that be? For starters, House member Ilhan Omar (D-MN) must be the BIGGEST scam artist ever to walk the Halls of Congress. She's a Muslim who would never defend our Constitution because she's brainwashed by the Quran, has lied on her immigration papers, married her brother to get him over here from Somalia, and denounces our country as racist at every juncture and speech.

What about U.S. Senator Bernie Sanders, (D), an 84-year-old man who has been living in his DC office for so long that he's nearly calcified in place. Yet, his constituents keep voting for his "socialism" and his ignorance of what makes America successful. As British Lord Acton said, "Power corrupts and absolute power corrupts absolutely." Old Bernie is uselessness beyond his years. He will continue until he dies in his office.

Who is on deck for the presidency? There's one guy, Governor Gavin Newsom, California, who thinks guys should beat the crap out of girls in girls' sports, brags about his own stupidities. What American in his or her right mind would vote for a man who wants women to pound on women in women's sports? What American wants 3 to 4 million illegal aliens in his or her state? Why would you want your children's classrooms filled with 20 to 50 different languages and incompatible cultures? How can anyone's American children escape the consequences of sub-par educations because of so many foreign kids, with low IQ's, destroying the academic talents of American kids?

Then, you've got the D.E.I. crowd that wants to promote everyone because of their skin color instead of their education, valid merits and qualifications. It's so

“emotionally fulfilling”, but in fact, is 21st century “affirmative action” that failed in the last century and fails in this century. No one wants someone driving a bus or train or plane that could get everyone killed because the D.E.I. hires don’t know what they are doing. Additionally, it kills personal initiative and incentive.

What and why do American leaders support “Sanctuary Cities” that house criminals, drug pushers and rapists? What if every American suffered the same fate as the parents of Laken Riley, who was killed by an illegal alien allowed into America by Joe Biden? Do you understand that the mayors of dozens of cities support illegal aliens with housing, food, medical, schooling, jobs and more--against American citizens? How do such guys and gals like Mayor Karen Bass in LA, or Nick Adams in NYC, or Johnston in Denver, or Johnson in Chicago, our Wu in Boston, and dozens of other cities morally and/or ethically justify their violation of their oath of office to serve Americans?

How do we allow the mayor of Dearborn, Michigan, now a Muslim-dominated stronghold to tell a fellow resident that, “You may be a Dearborn resident, but since you’re not a Muslim, you are not welcome here.”?????? The Muslim should be deported because he doesn’t belong here. He belongs back in Afghanistan or wherever the hell he originated.

We’ve got illegal aliens who can’t read English driving 18-wheeler, 80,000-pound trucks on our highways, and are killing people like in Florida recently. They’re too uneducated to drive those enormous trucks. Worse, some official gave them a bogus license.

It’s a bet that you’re as perplexed as I am as to what the heck is going on in our society. We’ve got crazy people shooting up schools with our little kids. We’ve got crazy politicians like U.S. Senator Chris Van Hollen, (D-MD), going down to El Salvador to extract an MS-13 gangbanger, wife beater, human trafficker, and all-around illegal alien, BACK

to America. We've got university presidents sowing the seeds of destruction of law and order. We've got Antifa, Black Lives Matter, Muslim Brotherhood, C.A.I.R., terrorist organizations, burning down our cities with impunity. Or, they are working their way into power positions so they can use our Constitution against us...like in Dearborn, Michigan. Anyone excited about engaging Sharia Law into our country?

You think I'm kidding? Just wait to see what Zohran Mamdani starts doing when he becomes mayor of New York City! He's going to going to push for Sharia Law. He's going to gather Muslims by the tens of thousands...just like the Somalians in Minneapolis, Minnesota. Sharia Law is already entrenched, there.

We American citizens are going to have "The Sh*T Hit the Fan" in the next 10 years. We're talking social chaos. We're talking religious conflict. We're talking violent political actions such as the murder of Charlie Kirk. We're talking the unraveling of our social cohesion. It's coming as surely as the dawn. What do you think?
