The Obamacare mandate *doesn't kick in until 2019* so Americans will continue to get raped in 2018 with astronomical premiums and fines by the Gestapo aka IRS. Also, the so-called tax breaks are not permanent. That's right. Most of the taxpayer changes, not corporate, will expire in 2025.

[Seven Myths About the GOP Tax Reform](#)

Very detailed – to the right of title see slideshow pages to click. Simplified? What a crock. And remember where those taxes you sweat for go: **100% go to transfer payments and do not fund a single function of the federal government.**

[Reform](#) – The bill to stop taxing seniors is still rotting in committee. Gee, how both parties really care about seniors. Seniors SS will still be taxed the same way as covered in this article. Oh, great. They tax you for the SS taxes and then when you retire your benefits are taxed again. Double taxation which the Republicans apparently decided is a good thing because stopping it is not in the so-called tax reform new law. That ‘simplified’ new reform. What bull.

[The GOP tax overhaul kept this \\$1,300 break for seniors](#) – Those deceitful thieves called CON-gress want seniors to be grateful for the crumbs.
