

The Battle for Oregon Begins Now

By Dennis Linthicum

March 22, 2024

The failures of our state's executive offices have dominated the headlines, amplifying the urgency for comprehensive accountability, transparency, and ethics reform.

The abandonment of our nation's foundational principles is exacerbated by fraudulent policies festering within the Secretary of State's (SoS) office.

The current Secretary of State, a Democrat, is the person responsible for creating an AI version of Orwell's "Ministry of Truth" and is already wielding that dystopian power over Oregonians.

A contract was signed with Logically, AI to use "artificial intelligence" in order to stop MDM – Misinformation,

Disinformation, and Mal-information. But this isn't simply a local effort, it is global.

This entity, Logically, AI enables "mutually beneficial collaborations with like-minded organizations, accelerating progress in the fight against misinformation and disinformation." Now, exactly where can I see a list of words that I should avoid or what might be considered "misinformation"? Hmmm...

Logically, AI monitors critical election data in 13 different Democrat controlled states. This allows Oregon's SoS to leverage national election information against the best interest of Oregon's own citizens.

Everything you read, write, say, purchase or eat could potentially be gathered for use against you in a legal nightmare. Why? Could it be you are a Republican, or an America First supporter? Or, a concerned parent at a local school board meeting?

In Mao's America : a survivor's warning, Xi Van Fleet describes her first-hand experience with China's Cultural Revolution. She notes, "free speech is allowed as long you are aligned with the woke-sters. Otherwise, it is hate speech and needs to be banned."

We can put an end to this dystopian nightmare.

As your Secretary of State, I pledge to:

- ◆ Restore election integrity and promote diligent custodial ownership of election records:
- ◆ Advocate for in-person local precinct voting with ID
- ◆ Safeguard the elections for the integrity of every Oregonian's vote
- ◆ Demand rigorous government audit accountability
- ◆ Conduct meticulous audits across executive agencies and departments

◆ Promote and nurture realistic resource development goals

My goal is to restore accountability to Salem by using my knowledge, understanding and strategic awareness. I have seasoned experience and unwavering determination and I pledge to curb executive agency and departmental overreach.

The battle for Oregon begins now – your support is vital!

Best Regards,

Dennis Linthicum
