

The Coming Break Up of America, Part 2

By Frosty Wooldridge

Part II: Urban Street Gangs, Growing Militias, Ethnic Enclaves, Bloody Lessons of Tribal Europe, Solutions to this crisis.

After reading the first part of this two-part series on the coming break up of America, you're probably heartsick or sick to your stomach. You can feel the invasion quickening in every corner of the country. It's not your imagination, either. This nation-destroying nightmare is happening to you, your friends and your state. It's no longer California's problem; it's in your community, i.e., Chicago, Detroit, New York, Minneapolis, Portland, Seattle, LA, Miami and more.

Thomas W. Chittum, author of, "**CIVIL WAR II: THE COMING BREAKUP OF AMERICA**," brings concrete historical evidence to the impending conflicts in America. By looking around, you, the average American, can see this tragedy building.

If you're not living in California, Arizona, Colorado, Texas, Miami, Florida, Georgia, New York, Detroit, Michigan and Chicago, Illinois—you might not see it—but it's coming and it's coming fast.

Chittum states, "Street gangs will doubtless form the core of future black and Hispanic urban militias...consider the following...they are well financed by drug trade...they are ethnically oriented...are heavily armed...organized and disciplined...and numerous beyond belief."

That statement is born out by latest statistics whereby 29 percent of our state and federal prisons are filled with legal and illegal immigrants.

Chittum states, "Their leadership is composed of courageous, industrious and intelligent men because promotion is based on leadership, business acumen and application of ruthless violence."

When you look at the massive \$120 billion annual drug trade infecting this country, it's evident. "These urban gangs are evolving into serious armies, armies hostile to the established government." It's why 800,000 Californians fled their state last year. In Miami, American citizens fled north. Detroit is fast becoming Arabic exclusively. Fremont, California known as 'Little Kabul' tips toward an exclusive Middle Eastern in population. Los Angeles is no longer an American city.

As their numbers grow, police can't touch them because of "Special Order 40" which gives them immunity from arrest and deportation. Such Governors as in Maine and Arizona's Governor directly break immigration laws by passing ordinances encouraging more illegal aliens and giving them sanctuary. The governor of Minnesota openly encourages massive illegal alien importation. He's pushed by meatpacking plant owners who openly hire illegal aliens. Austin, Minnesota suffers from over 3,000 illegal aliens working in the meatpacking plants. Citizens are left without jobs while a few people make millions at the top.

Governor Jared Polis of Colorado does nothing to stop illegals in his state. The mayor of Boulder, Colorado openly encourages illegal aliens with sanctuary laws in his city. Eight women were raped in 2003 by illegals, but the Boulder council continues supporting their presence in the city with jobs and housing. Immigration lawyers in Boulder brazenly present classes on how to avoid arrest and deportation for

illegals. It's astounding our own civic leaders aid, assist and abet this invasion against federal law.

How lethal are these gangs? In Newsweek, from a Johnstown, Pennsylvania, U.S. Justice Department "Street Gang Symposium": "Some gangs have access to highly sophisticated personal weapons such as grenades, machine guns, rocket launchers and military explosives."

"When civil authority breaks down in America," Chittum states, "our criminal gangs will fill the power vacuum, just exactly as has been the pattern in Third World countries."

If you think the rampant crime in Bogata, Columbia is far away, think again. The numbers of gang members in the US proves otherwise.

Chittum quotes another dictator who succeeded: "A revolution is not a bed of roses," said Fidel Castro. "A revolution is a struggle to the death between the future and the past."

With over 15 million illegal Mexicans now living on U.S. soil, a dozen cities sport 51 percent foreign born immigrants, over three million Middle Eastern immigrants enclaving against American values—"America, we've got a problem." One of the aspects of the disintegration of Rome stemmed from its importation of Vandals, Franks and Goths that neither cared about Rome nor gave allegiance. In the end, they 'enclaved' more of their own until they became more powerful, by sheer numbers, than Romans. The cult of 'diversity' and 'multiculturalism' being jammed down Americans' throats by both parties is an example of self-induced national suicide—just like the Romans. In this case, both Republicans and Democrats wear the same sombrero given to them by Mexico's leaders south of the border.

In a speech in 2003, former Colorado Governor Lamm said, "My sixth point for America's downfall would be to include dual citizenship and promote divided loyalties. I would celebrate

diversity over unity. I would stress differences rather than similarities. Diverse people worldwide are mostly engaged in hating each other—that is when they are not killing each other.” A walk down the streets of Los Angeles, Miami, Chicago or New York proves the chilling anti-American sentiment.

Chittum writes about economic collapse. He talks about how our own Congress ramrods 4.1 million immigrants down our throats annually while outsourcing, insourcing and offshoring jobs to other countries. How can we ever maintain a decent standard of living by adding 4.1 million people annually into the USA? Doesn't anyone 'get it' that the reason they are running out of Mexico and China stems from the fact that they can't feed, work, educate or clothe their own populations that explode out of control? Why create the same crisis here?

Thousands of companies are moving production out of our country—leaving our people in unemployment lines. It's a lose-lose situation for U.S. citizens, especially with affirmative action and illegals taking jobs from qualified Americans.

Chittum talks about phases of Civil War II: 1. Tribalization, or the undermining of the concept of citizenship. 2. The creeping loss of democracy to private, governmental institutions and international bodies. 3. Gradually falling wages. 4. The slow decay of infrastructure in our cities and the abandonment by Americans and their replacement by minorities wedded to welfare and affirmative action. 5. Growing legal and illegal immigration to transform America into a typical Third World country. 6. Massive drive for gun control to cripple military potential from the working class. 7. Cooperation of the mass media to dumb down the population.

Near the end of the book he makes projections that you can see happening right now:

1. Shrinking hourly wage.
2. More immigrants than Americans.
3. Foreigners hold most Federal Debt.
4. Twenty million Third World slums on our borders known as 'colonias'.
5. Manufacturing jobs moved out of the USA making it impossible for us to make or sell anything to the world.
6. Republican and Democratic politicians refusing to deal with the immigration crisis. Worse, both parties aid and abet it.
7. Growing power of advocates of Aztlan or the reconquest of California, Arizona, New Mexico and Texas by Mexico.

Our country is in deep trouble and worsening fast. I spent two weeks on the border last spring from El Paso to San Diego. Immigrants successfully pour over our borders at 500,000 annually according to the U.S. Border Patrol. One million arrive legally each year. I saw them loading up in busses. I saw them squashed 30 to a van. I saw them crawling through the desert bush with my night vision scope. I interviewed Border Patrol officers who are hamstrung by Congress. The illegals they catch, they release on the border only to try again until they succeed. I saw the safe houses. I saw the lay-up areas. I saw the millions of pounds of trash left in the desert. I saw the invasion firsthand.

What can you do? Democracy is not a spectator sport. YOU need to start acting, writing, calling, pushing, shoving and screaming at your mayors, radio stations, newspapers and reps that you're tired of this invasion. Demand a 20-year shutdown for all immigration, NOW! Demand troops on the border. Demand English as our only language. Demand no benefits for illegal aliens. Demand S. 2671 the Clear Act be passed. Demand no amnesties for illegals. Demand deportations begin. Demand the rule of law be followed and employers of illegals be arrested.

Will Chittum's book prove prophetic? Will Rome's history become our history? It all depends on you.
