

# The Coming Break-Up Of America, Part 2

## Turning America Into Everybody Else's Country

In part 2 of this series, we address Thomas Chittum's book: **The Coming Break-up of America—Civil War II.**

If you looked around the United States in 1965, we featured a stable nation with 90 percent European, 7 percent African citizens, and 3 percent Latino, and mostly one religion.

Today, we've imported 70 million people from areas so incompatible with American culture that we recoil at the horrors of female genital mutilation, honor killings, multiple wives, and forced marriages of 12 year olds. We tolerate hundreds of different languages. Los Angeles, Miami, San Francisco and other cities speak more foreign languages than English. "If you'll notice throughout history," Chittum writes, "multiethnic empires break up in cataclysmic violence."

The former Soviet Union, Yugoslavia and Lebanon provide classic examples of multiethnic empires that shattered in tribal violence. Today, France, United Kingdom, Norway, Sweden, Finland, Holland, Denmark, Germany, Spain and Italy

race along the same track of self-destruction with their

massive non-assimilating Muslim populations.

**Kant said, "Language and religion are the great dividers."**

Chittum talks about an unstable tiered society. Aristotle said, "The only stable state is the one in which all men are equal before the law." Average American citizens watch as our U.S. Congress imports a massive underclass of illegal, Third World and uneducated poor that have become our 'indentured servants' as well as cyclical poverty recipients. Those immigrants, whether legal or illegal cost American taxpayers \$296 billion annually according to Roy Beck of [www.NumbersUSA.org](http://www.NumbersUSA.org). They can't and don't cope with first world requirements to work or engage in contributions to our society. They overwhelm California, Arizona, and Texas by sheer numbers. They crush cities like Minneapolis, Detroit, Miami, New York City, Houston, Dallas, Atlanta San Francisco and dozens more.

America supports 20 million illegal aliens that possess no allegiance to our country. A dozen cities feature more foreign-born immigrants than American citizens. Spanish-speaking radio stations own the airwaves in Los Angeles. Miami features Cuban stations. None carry any allegiance to America.

As can be seen with the current crop of disenchanting National Football League players dishonoring our flag and national anthem, we face accelerating consequences to a tiered society. While the football players quietly demonstrate against America, Antifa demonstrators riot, break glass and threaten police officers with, "No Trump, No Wall, No USA All!" Black Lives Matter marches against civil society and, in fact, marches for anarchy. At some point, we face Moslem Sharia Law demonstrators exactly like the ones screaming in Great Britain, "UK police; go to hell!"

Also developing: parallel societies of such incompatible

immigrants that they enslave into separate entities.

How will it get worse? Our politicians may grant amnesty to that 20 million plus 850,000 DACA cases, which will encourage millions more. Millions of aliens hide more illegal aliens via 'ethnic sympathy'. But what they bring us proves as dangerous as any armed invasion.

As their numbers grow, the "Mexican American Legal Defense and Education Fund" works to destroy US laws. La Raza, another anti-American Mexican organization, works directly for the overthrow of America. It reaches into the highest levels of our government starting with Alberto Gonzalez. Former US House of Representatives Joe Baca of California supports La Raza. What does La Raza mean? "For the Latino race, everything, everyone outside the race, nothing!" LULAC is another group that supports the 'Reconquista of Aztlan,' or, the retaking of the American Southwest back into Mexico.

Today, the Moslem Brotherhood and Council on American Islamic Relations, Islamic Society of America—all work to install Sharia Law into their Moslem populated areas here in the United States. Their ultimate goal: Sharia Law over the entire USA.

Notice that the Mexican president dictates to our leaders what they will do with his 12 to 15 million illegal immigrants in our country. Notice 54 Mexican consulates in our cities around America supporting his people in our country. Notice voter fraud by illegal aliens now able to throw our local and national elections. Latest demonstrators carry signs, "Today we march; tomorrow we vote."

After three chapters, Chittum's writing sobered me, but I still wasn't convinced until he offered concrete numbers. "In California in 1993, 665,229 firearms were sold. That's 1,873 per day. Enough firearms were sold to equip an infantry battalion." For the Californians remaining, there's a lot of

frightened people readying themselves for conflict.

“California is odds-on favorite to kick off Civil War II,” Chittum said.

“The instinctive need to be a member of a closely-knit group fighting for common ideals may grow so strong that it becomes inessential what these ideals are,” said Konrad Lorenz.

Illegal Mexican border jumpers separate against being an American. The 20,000 member “18<sup>th</sup> Street Gang” in Los Angeles owns the streets. They coordinate all drug traffic, extortions of businesses, prostitutes and robberies. Their power, along with MS-13 gangs in 40 American cities, grows by the day. Over 60 percent of the members are illegal aliens and the other 40 percent are legal immigrants. Since they possess no working skills in our First World society, they find crime as an easier vocation. It’s termed ‘Third World Momentum’. Its corruption is so deep, so wide and so embedded that it’s as intrinsic as the sewer systems in those cities.

Not reported in the mainstream media, Mexico sells \$50 billion in drugs to U.S. consumers annually, while American tax payers fork over \$52 million to treat, interdict, prevent, arrest and deal with overdoses, suicides, car accidents and horrific destruction caused by our youth’s drug use.

How many and how much? Los Angeles sheriff files register 100,000 gang members. San Antonio features 5,000 gang members. Chicago estimates 50,000 members. Former Attorney Janet Reno estimated over 500,000 gang members imported themselves into the USA. “They commit an average of 580,000 crimes annually in our country,” Reno said more than 10 years ago.

For an example, merchants suffer \$130 million in losses from shoplifting daily in the USA. That equals to \$50 billion

annually that you pay the difference in goods sold to you.

So why do our politicians sit and twiddle their thumbs? Why do they aid and abet by doing nothing? Can't they see what's happening to California? Texas? Arizona? The answer in a nutshell: they won't look! Senators like Mitch McConnell, John McCain, Diane Feinstein, Barbara Boxer and Charles Schumer all in their late 70s and 80s—stand 50 out of touch with what's happening in America—they do not and cannot solve the problem. Such veteran House reps like Nancy Pelosi and John Cummins harangue about the problems, but offer no solutions.

Why does it all get worse and nothing gets better? Because Americans, like the proverbial frog being thrown into the pot of water and the stove being turned up to high, will keep adapting until we boil to death. The same thing happened to the Romans, French, Spanish and every other great nation that tumbled into the dustbin of history. Spain backed into submission by the Madrid train bombing. France stands on the doorstep of a nation-crushing Moslem invasion it won't survive.

I never thought I would have to fight for my own country inside my own country. But the time is fast approaching. Again, we face another 100,000,000 (million) legal immigrants within the next 30 years. Chittum adds that if immigration continues at current rates, we won't have enough Americans left to stand up for America.

If you would like me to speak at/in your city, conference, social group or clubs about the consequences of mass immigration into America, please contact me. My program: "The Perfect Storm Descending Upon America" articulates the

consequences of adding 100,000,000 (million) legal immigrants to America within the next 30 years. It spells out what we face as to shortages in water, energy and resources. It spells out the sociological chaos created by mixing 196 (the number of countries exporting their citizens into our country) different cultures, languages, religions and worldviews from those 100 million immigrants. It illustrates our dilemma as environmental and quality of life consequences.

Additionally, if you would like me to speak on your local radio talk show, please give them my name, topic and contact information. Or give me theirs and I will contact them:
