

The Coming Break-Up Of America, Part 3

Part 3: Fracturing America Via Immigration

"The great divisions among humankind and the dominating source of conflict will be cultural. Nation-states will remain the most powerful actors in world affairs, but the principal conflicts of global politics will occur between nations and groups of different civilizations. The clash of civilizations will dominate global politics. The fault lines between civilizations will be the battle lines of the future." Samuel Huntington, **Clash of Civilizations**

After reading the first part of this two part series on the coming break up of America, you're probably heartsick or sick to your stomach. You may feel the invasion quickening in every corner of the country. It's not your imagination, either. This nation-destroying nightmare accelerates toward you, your friends and your state. It's no longer California, Minneapolis, Miami or Detroit's problem; it's in your community.

Thomas W. Chittum, author of, **"CIVIL WAR II: THE COMING BREAKUP OF AMERICA,"** brings concrete historical evidence to the impending conflicts in America. By looking around, you, the average American, can see this tragedy building.

If you're not living in California, Arizona, Colorado, Texas, Miami, Florida, Georgia, New York, Detroit, Michigan and Chicago, Illinois—you might not see it—but it's coming and it's coming fast.

Chittum states, "Street gangs will doubtless form the core of future black and Hispanic urban militias...consider the following...they are well financed by the drug trade...they are ethnically oriented...are heavily armed...organized and disciplined...and numerous beyond belief."

That statement is born out by latest statistics whereby 29 percent of our state and federal prisons are filled with legal and illegal immigrants. Former Attorney General Janet Reno put gang member totals on our streets at 500,000. Chittum states, "Their leadership is composed of courageous, industrious and intelligent men because promotion is based on leadership, business acumen and application of ruthless violence."

When you look at the massive \$50 billion annual drug trade infecting this country, it's evident. "These urban gangs are evolving into serious armies, armies hostile to the established government." It's why thousands of Californians flee their state annually. In Miami, American citizens fled north. Detroit fast becomes an Islamic caliphate, i.e., a country within our country. Fremont, California known as 'Little Kabul' tips toward an exclusive Middle Eastern in population. Los Angeles can no longer pretend to be an

American city.

As their numbers grow, police can't touch them because of "Special Order 40" which gives them immunity from arrest and deportation. Additionally, Governor Jerry Brown, last week, signed a state-wide protective "Sanctuary State" bill that prohibits ICE from arresting and deporting illegal aliens—of which California houses somewhere between 3 and 4 million of them. Brown protects criminal aliens that kill American citizens, rape, burglarize, distribute drugs, shoplift and overwhelm our welfare services. Brown's action stand as outright anarchy against our federal laws.

Such Governors as John Hickenlooper, Colorado and Andrew Cuomo of New York directly break immigration laws by passing ordinances encouraging more illegal aliens and giving them sanctuary. The governor of Minnesota openly encourages massive illegal alien importation. He's pushed by meatpacking plant owners who openly hire illegal aliens such as Hormel. Austin, Minnesota suffers from over 3,000 illegal aliens working in the meatpacking plants. Citizens are left without jobs while a few people make millions at the top. Chicago Mayor Rahm Emanuel openly invites illegals into his city with promises of total immunity from law enforcement. The mayors of Boulder and Denver, Colorado openly encourage illegal aliens with sanctuary laws in his city. At one point, eight women were raped by illegals, but the Boulder council continues supporting their presence in the city with jobs and housing. Immigration lawyers in Boulder brazenly present classes on how to avoid arrest and deportation for illegals. It's astounding our own civic leaders aid, assist and abet this invasion against federal law.

America cannot become the "charity ward" for the world's desperate people. We cannot degrade our citizens for Mexico's poor. We cannot save Africa's refugees when we suffer 13 million American children living in poverty. We cannot pay for immigrants' food, housing and education when we're \$19

trillion in national debt. By deporting all illegal aliens, we can give those jobs to American citizens at a living wage. It's time to change the 'good ole boy' network of corruption in DC by changing to an action leader like Trump. Otherwise, it will all get worse until we collapse into a multicultural-diversity nightmare of overpopulation and sociological chaos.

"Diversity within a nation destroys unity and leads to civil wars," said social scientist Garret Hardin. "Immigration, a benefit during the youth of a nation, can act as a disease in its mature state. Too much internal diversity in large nations has led to violence and disintegration. We are now in the process of destabilizing our own country. The magic words of destabilizers are 'diversity' and 'multiculturalism'."

These illegal gangs prove lethal. From a Johnstown, Pennsylvania, U.S. Justice Department "Street Gang Symposium": "Some gangs have access to highly sophisticated personal weapons such as grenades, machine guns, rocket launchers and military explosives."

"When civil authority breaks down in America," Chittum states, "our criminal gangs will fill the power vacuum, just exactly as has been the pattern in Third World countries."

The anti-American gang called "Antifa" expects to attack government buildings and President Trump on November 4, 2017. You read about it on Facebook, daily.

Part 4: Sobering realities we face. Solutions to enact.

If you would like me to speak at/in your city, conference, social group or clubs about the consequences of mass immigration into America, please contact me. My program: "The Perfect Storm Descending Upon America" articulates the consequences of adding 100,000,000 (million) legal immigrants to America within the next 30 years. It spells out what we face as to shortages in water, energy and resources. It spells out the sociological chaos created by mixing 196 (the number

of countries exporting their citizens into our country) different cultures, languages, religions and worldviews from those 100 million immigrants. It illustrates our dilemma as environmental and quality of life consequences.

Additionally, if you would like me to speak on your local radio talk show, please give them my name, topic and contact information. Or give me theirs and I will contact them:
