

The Deadly Dystopian Designs for Humanity's Future, Part 2

By Kelleigh Nelson

February 7, 2023

In the face of evil, when people fail to speak out, the price of speaking out rises. As the price to speak out rises, still fewer people speak out, until a whole culture or nation is silenced. Contrarily, it follows that those who speak out make it easier for others to speak out. Just as cowardice begets cowardice, courage begets courage. –Eric Metaxas, [Letter to the American Church](#), Page 52

Propaganda always entails Censorship...it must...it seeks to jolt you into a particular point of view...it's neurological manipulation...the counter narrative must be vilified...–Professor Mark Miller

[Only the mob and the elite can be attracted by the momentum of totalitarianism itself. The masses have to be won by propaganda. –Hannah Arendt](#)

It's not how you play the game, but whether your opponent ends up dismembered in the woods. –Mitch Rapp, Vince Flynn's hero in his books, now written by Kyle Mills

The ultimate test of a moral society is the kind of world that it leaves to its children. –Dietrich Bonhoeffer

“In 1933, Brown-shirted Nazis swarmed into local church leadership elections and installed new ‘German Christian’

leaders. While a minority of Protestant churches resisted, forming the anti-Nazi 'Confessing Church,' (that Dietrich Bonhoeffer belonged to) most were effectively compromised.

"Active, organized resistance to the Nazi state would not erupt until June, 1942, when a group of Munich students began an 8-month leafleting and graffiti campaign that would end with their arrest and execution. They are remembered, not only for their courage, but for the silence of all those who should have risen to their defense."

[White Rose International](#), founded in 1997, exists to inform and educate the public about the ethical foundations of civil liberty, and to recognize the lives and sacrifices of the members of the White Rose.

It was Sophie Scholl, her brother and their friends who started the non-violent, actually passive, campaign with leaflets of truth being spread throughout Munich. They named their efforts, The White Rose because **the symbol of the white rose was intended to represent purity and innocence in the face of evil.**

Where are today's rebels? We again face evil, this time worldwide.

Like Sgt. Schultz of Hogan's Heroes, "I see nothing, I know nothing."

Deep State political vipers with their honeyed lies are like monkeys throwing feces at each other, never coming to a consensus of what is best for the people they represent. Their grandiose talk is theatre for the dumbed down Americans, but nothing changes. Instead, their own pockets are lined with the lucre of corruption and backroom deals, deals made with the worst enemies of our nation.

Author Jack Carr, U.S. Navy SEAL on August 6th, 2017, Park City, Utah, wrote the following in his first book, [The](#)

Terminal List:

“The consolidation of power at the federal level, not to mention state legislatures, in the guise of public safety, is a national trend and should be guarded against at all costs. This erosion of rights, however incremental, is the slow death of freedom.

“We’ve reached the point where the power of the federal government is such that they can essentially target anyone of their choosing. Recent allegations that government agents may have targeted political opponents should alarm all Americans regardless of party affiliation.

“Revisionist views of the constitution by opportunistic politicians and unelected judges with agendas that reinterpret the Bill of Rights to take power away from the people and consolidate it at the federal level threaten the core principles of the Republic.

“As a free people, keeping federal power in check is something that should be of concern to us all. The fundamental value of freedom is what sets us apart from the rest of the world. We are citizens, not subjects, and we must stay vigilant that we remain so.”

I am fearful of what is coming next to our people and their children, not because I don’t rest in our Creator and understand fully that He is and always will be in charge, but because the people are ignorant of the evil, and are unprepared to fight for their lives.

Luck is the residue of preparation, and the preparation by the enemies of this nation has long been in the fire of national destruction.

Who has risen to humanity’s defense?

Dystopian Designs

The following 90 second video is from 2020. To open, left click twice and then click "open."

I have no idea who the lady is in this video, but she explains that FEMA is not here to help us. They are part of the program. Then, Pompeo states that the Covid pandemic was part of a "live exercise," (a military exercise). And Trump, who is standing next to him, asks, "Why didn't you tell us?" That's a good question considering Pompeo was Trump's Secretary of State. And so, when is the real plan going to happen? We know another virus is already in the works.

A year ago, Bill Gates told us, "that the risks of severe disease from Covid-19 have "dramatically reduced" but another pandemic is all but certain."

Yes, and Big Pharma is apparently helping Gates and the stakeholders to create one. Quite obviously the Covid "live exercise" was more than profitable and successful in frightening the public into kneeling to the tyrannical demands of governments, local, state and federal.

That scenario is all but guaranteed with the latest expose by James O'Keefe of [Project Veritas](#). Jordon Trishton Walker, Pfizer Director of Research and Development, Strategic Operations – mRNA Scientific Planner: "One of the things we're exploring is like, why don't we just mutate it [COVID] ourselves so we could create – preemptively develop new vaccines, right? So, we have to do that. If we're gonna do that though, there's a risk of like, as you could imagine – no one wants to be having a pharma company mutating f**king viruses."

Walker called this "directed evolution" rather than "Gain of Function." Same difference, new euphemistic sounding words.

But the real key to the interview was the fact that Walker explained how Big Pharma and government officials, such as the Food & Drug Administration (FDA), have mutual interests, and

how that is not in the best interest of the American people.

Walker explained that in the pharma industry, “all the people who review our drugs – eventually most of them will come work for pharma companies. And in the military, defense government officials eventually work for defense companies afterwards.” Like [Alex Azar](#), who came out of Eli Lilly and was our Health and Human Services Secretary under Trump. Granted he was replaced by Pence, but [Pence has deep connections to Eli Lilly](#) of Indiana as well.

Food

The [future of food](#) is certainly not pretty. Thanks, but no thanks to lab grown meat, fake eggs and crickets.

If the C-19 injections and boosters don't kill off the intended number of American citizens, there's always a planned food shortage and starvation that will mimic Mao Tse-Tung's human cost of his Great Leap Forward. It's been creeping up on us for many years now.

At least 130 of America's food production and processing plants have been damaged or destroyed in the last two years. Just recently 100,000 chickens died in a fire at a Connecticut farm, one of the largest egg producers in the country. Eggs are at an all-time high across the country. Another 500,000 chickens were killed allegedly because of bird flu. As reported on Tucker Carlson's show, [purposely poisoned chicken feed](#) keeps the hens from laying eggs until the feed is changed...someone needs to do some investigations here. Chicken will be at an all-time high very soon. Interesting enough, a [company backed by Bill Gates](#) has created fake eggs and mayo.

Why get rid of the real for fake?

Gates has amassed nearly [270,000 acres of American farmland](#). Jeff Bezos of Amazon fame [owns 420,000 acres of America's farmland](#). China owns [192,000 acres of our farmland](#).

Residential real estate is increasingly owned by financial firms like asset manager [Blackrock and investment firm Blackstone](#), which look at land as a direct investment. [Industrial farming](#) has replaced healthy local farmers.

Gates has a personal interest in [eugenics and depopulation](#). Bill Gates Sr. was the head of eugenics group Planned Parenthood. America's [wealthiest elite played a significant role in the advancement of Eugenics](#). People such as Andrew Carnegie, Henry Ford, J.P. Morgan, John Harvey Kellogg, Warren Buffett, Procter & Gamble and the Rockefellers have all donated millions for Eugenics based research. By the 1930s, many of the wealthiest people in the world were members of the American Eugenics Society. Billionaires are focusing their money into large population control projects such as the Bill and Melinda Gates Foundation.

China has an interest in feeding their own people as well as owning America. America's colleges and universities are riddled with China's [Confucius Institutes](#). Massachusetts Institute of Technology is [25% Chinese students](#) which is big money. They own our banks, our hotels, our businesses. They are in all of our biolabs and they steal everything we create. They produce nearly all of what America now buys in retail stores, not to mention most all of our antibiotics. Bill Gates believes countries like China should play a bigger role in world governance.

Which U.S. Congress voted to allow foreign countries, especially communist countries, to buy our businesses, our land and properties like the Waldorf-Astoria?

And which President signed this? Or was it done incrementally?

Encroaching Plans

I have an idea of what is coming next, should the COVID injections and then starvation not succeed quickly or

thoroughly enough with the depopulation numbers required by the “stake holders.”

Dr. Paul Marik has told us, “It’s the spike protein.” It’s not graphene oxide, it’s not live things in the vials, it is certainly not the fraudulent snake-venom promoted by narcissist Dr. Bryan Ardis and the newest video host, Beef Stew Peters. [Dr. Pierre Kory has proven that.](#)

It is the deadly spike protein that enters every organ in the body and the blood of those who took the jabs.

Video Here: https://www.youtube.com/shorts/KnX8ZY_-cYg

Dr. Pierre Peterson from America’s Frontline Doctors has a short video telling us what has happened in France and is also happening in the United States. If you’ve taken the jabs, your family very likely will not be able to collect life insurance inasmuch as you have submitted to an experimental drug, i.e., the Covid jabs, and as such, that is considered suicide should you die from those drugs.

Listen to Dr. Pierre Peterson from America’s Frontline Doctors.

The Covid “vaccine” plans of the stakeholders were thwarted in several ways. First by those who refused to take the injections, secondly by improper manufacturing and transport which failed to keep the vials cold enough. This resulted in many injections being duds.

Oh yes, American citizens fell in line, and surely the stakeholders were gleeful...Bill Gates, Fauci, the FDA, CDC, NIH, AMA, JAMA, Lancet, NEJM, mainstream and conservative media (who were paid to promote the jabs) and of course every facet of our federal government who was in on the plan. They laughed with glee at those who donned the masks, stayed inside, lost their businesses and livelihoods, and they loved

the “mask Nazis” who accosted those who refused to follow the tyrannical orders of the totalitarians in charge. They knew they had won.

If only we had not complied!

The next attack will be bigger yet and more deadly.

And if that doesn't work, the final attack will take out 300 million Americans while the power elite hide in their underground bunkers.

From the Devil's Pantry

Electromagnetic pulse. (EMP) What is that? Well, it can be caused by man or nature, geomagnetic disturbance (GMD). Either has the potential to disrupt and permanently damage electrical components and entire systems within most critical infrastructure sectors and impact large-scale infrastructure. There are actual EMP hardening standards for military applications, but they are often too case-specific, expensive and impractical for the private sector to implement. Very little action by the federal government has been done to address the threat, despite it having the potential to affect the nation at large.

The cost has been estimated at \$3 to \$5 billion for upgrading and securing the grid, which will protect the nation, but not one president in our recent past, nor any congress critter has even suggested spending \$5 billion to protect the nation from a catastrophe. Yep, \$5 billion was way too much money to build the southern border wall, but \$150 billion isn't too much to hand over to the corrupt fascist nation of Ukraine.

So, instead of fixing a problem that could wipe out 300 million Americans, they ignore it, waiting for it to happen so that their depopulation goals can be met.

Federal Examiner's February 3rd article, [Dry run: Balloons](#)

[called top 'delivery platform' for nuclear EMP attack](#) brings the reality of an EMP strike home to the public. It is doubtful however, that many will pay attention.

Culture of Death

Since the days of Malthus (1766-1834), our nation has promoted the overpopulation culture of lies. Should an EMP happen, heat, air conditioning, water, and finally natural gas would be unavailable. Water allows sanitation, but without it, disease would spread, and there'd be no medical personnel available. People would freeze or die of heat stroke.

Communication would be impossible. Any of the newer vehicles will no longer run as electronics would be worthless. Pumping gas would be tricky; it could be siphoned, but where would you go with all the vehicles dead on the roads?

Restaurants would give away their food rather than have it spoil; the grocery stores would be ransacked and in short order emptied. All of the industrial farms would be shut down as machinery wouldn't run; they are 98% of food production. Cattle, pigs, chickens, and other livestock would die for lack of feed and water. Only 2% of our food production is in the hands of old-time family farmers/ranchers, and they'd be quickly raided.

FEMA and DHS would have no way to help and the first responders would run out of supplies almost immediately.

Other nations could ship supplies, but there would be no one at the docks to unload and no way to disperse before it spoiled.

Civil unrest would be tantamount to Antifa and BLM riots all over the country, theft and murder on a huge scale.

We are a country of 331 million people, and the estimates of destruction would take out at least 300 million. We were 327

million but four million illegal invaders have been added to our count, and many of them are gang members and criminals.

Could this happen? The federal government has not protected the grid from an EMP strike. Why not?

Hierarchy Saved, Citizens Die

Of course, should an EMP strike happen to America, the military and civilian hierarchy will head for [Mt. Weather](#) in Virginia, an underground facility. Mt. Weather Emergency Operations Center is run by the Federal Emergency Management Agency (FEMA). So, in case of national disaster these people will play a role in the "Continuity of Government," yes, saving the lives of the perpetrators.

There's also [Raven Rock](#) built in Raven Rock Mountain near Camp David, in Blue Ridge Summit, Pennsylvania to house the military as a backup to the Pentagon. "Since September 11, 2001, Congress has intensified their interest in and funding of top secret 'Continuity of Government' in ways not seen since the Cold War." Hmm...we no longer wonder why. [Raven Rock](#) by Garrett Graff is the story of the government's secret plans to save itself should catastrophe strike.

[Here is the list](#) of the various safe havens for military and government hierarchy. There are none for America's citizens.

Conclusion

As we've read countless times before, the scenario we lived through for three years was planned at least a decade in advance, if not longer. Looking at the big picture, the fear tactics of the despots worked as easily as the Nazi propaganda against the Jewish people. Americans fell for it, hook, line and sinker.

Nazi Germany and Stalinist Russia were two sides of the same coin. Death became the culture.

Governors and Mayors were certainly overjoyed to wield the whip of despotic control over their constituents by demanding their faces be covered, their businesses closed, churches locked, and families kept apart. The first amendment was under the boot of that two-sided coin.

Should an EMP happen to America, the elite will live for a year in their hidey holes while the rest of us scramble to survive.

“If you love wealth more than liberty, the tranquility of servitude better than the animating contest of freedom, depart from us in peace. We ask not your counsel nor your arms. Crouch down and lick the hand that feeds you. **May your chains rest lightly upon you and may posterity forget that you were our countrymen.**” Samuel Adams

One of Dietrich Bonhoeffer’s famous quotes is, “ Silence in the face of evil is itself evil: God will not hold us guiltless. Not to speak is to speak. Not to act is to act.”

“The ultimate test of a moral society is the kind of world that it leaves to its children.”
Dietrich Bonhoeffer

Where are our non-violent White Rose rebels? Where are those whose blood coursed with the love of freedom?

Take to your knees only to pray. History screams out to us to remember!

We must be silent no more!
