

The Deep State's Next Assassination Attempt

By Cliff Kincaid

July 16, 2024

How could this have happened? Federal agencies allowed it. Democrats encouraged it.

The federal government is implicated in this attempted assassination. We have a federal government that allowed the leader of the opposition, former President Donald J. Trump, to be targeted for murder. He escaped death through divine intervention.

Another [video](#) shows Trump supporters desperately trying to alert law enforcement authorities to a shooter on a roof. The gunman can be seen getting in a position to shoot. Nothing was done.

Since Trump is supposed to be Hitler, according to the Democrats, this won't be the last assassination attempt. Hitler was targeted dozens of times. The most famous attempt was publicized in the movie "Valkyrie," in which a bomb failed to kill the dictator. That was a classic "inside job" assassination attempt. In the Trump case, the would-be assassin reportedly also had access to bomb making materials. But was this also an "inside job" operation?

Equally important, who was behind this? Who made it possible? Once again, federal agencies like the Secret Service and FBI are under scrutiny.

In my June 12 column, "[Trump is a Marked Man](#)," I noted, "While some commentators are focused on whether Joe Biden can make it all the way to November's elections because of his senility and old age, the real question is whether the communists and globalists decide the time is right to take out Trump by any means necessary."

Strange [movements by the Secret Service](#) in advance of the assassination attempt have already been posted. The video seems to show Secret Service agents clearing the rows behind Trump's stage shortly before the shooting.

Other observers note that the Secret Service agents seemed to be holding Trump upright while at least one is bent over to avoid being shot. It's true that Trump stood up and raised his fist, in a sign of strength. But observers note that some of the agents were short women not equipped to protect a former president of Trump's height. This has raised the possibility of DEI hiring practices under Secret Service Director Kimberly Cheatle.

Talking heads applaud the Secret Service sniper for killing the gunman. How convenient. Now he can't talk. And that was AFTER Trump was supposed to be dead.

Constant talk about another "intelligence failure" doesn't make any sense to America. We don't believe these excuses. There have been too many intelligence failures over the course of decades. If government is this incompetent, these agencies should have been abolished years ago. And that includes the Secret Service, the FBI, the ATF, and the CIA.

True Facts and "Conspiracies."

Talking heads should not automatically reject "conspiracy theories." Conspiracies happen and they can involve federal agencies either involved in the murder and mayhem or the cover-up that follows. Anybody can Google "Waco" and "Ruby Ridge."

We know the Secret Service, supposedly in charge of protecting Trump, coordinated with the FBI in the armed raid on Trump's Florida home. That case has now been thrown out because the Special Counsel, Jack Smith, a former United Nations prosecutor, was illegally appointed.

We know that the assassination attempt followed by just a few days Biden's talk with his big donors that he would put Trump in the bullseye. We are told by Biden apologists this was just a "metaphor." As recently as May, Biden accused Trump of using "Hitler's language." This has been a systematic theme of the Democrats.

Rep. Mike Collins [says](#) "The Republican District Attorney in Butler County, PA, should immediately file charges against Joseph R. Biden for inciting an assassination." His [name](#) is Richard Goldinger. His phone is 724-284-5222.

My Special 8-page ASI Report, [Marked for Death – The Plots Against Trump](#), looked at possible culprits and previous attempts on Trump's life. I wrote that "the Biden-Harris campaign is denouncing Trump as a threat to democracy and would-be-dictator who will prosecute them for their crimes. They are desperate. But **their desperation is designed to motivate anti-Trump zealots and fanatics. It is a charge that will energize would-be assassins, such as those discussed in this report.**"

My report added, "By portraying Trump as a Hitler-like threat to democracy, they are creating an atmosphere in which assassination plots can be carried out for the benefit of the Deep State and another Trump enemy, the United Nations, under the control of China, Russia, and Iran."

We Saw This Coming

In a column about the **corruption in the Secret Service**, [The Armed Enemies Within Plot Trump's Murder](#), I wrote, "The handwriting is on the wall – Trump's life is in danger because

the federal agency in charge of protecting him has been seriously compromised and perhaps even infiltrated.”

I have long been advocating for Trump to hire a professional and private security firm to guard him.

The Secret Service is lying about its role. The Secret Service’s chief of communications, Anthony Guglielmi, [posted on X](#) that it was “an untrue assertion that a member of the former President’s team requested additional security resources & that those were rebuffed. This is absolutely false.”

But Michael Shellenberg [reports](#) that “multiple sources close to President Trump say Guglielmi’s claim is false. They say that the head of the Trump protective detail and Secret Service officers protecting the president had all requested additional help for months and been denied it by their superiors within the agency, which is part of the Department of Homeland Security (DHS).”

If Trump is correct that God saved his life, and it sure looks that way, he understands there is something else at work in America. This is not secular politics. This is something more sinister. As such, his enemies won’t stop at one attempt.

I believe, based on [my research](#), other assassination plots are already underway.

There is no end to the list of those who want Trump dead.

The Deep State and America’s Enemies

My [special report](#), issued many weeks ago, examines how federal agencies, left-wing extremists and Iranian terrorists are targeting President Trump by using KGB-style tactics and creating an atmosphere in which death threats against our former president are encouraged and assassination plots are carried out.

The Hitler charge originated with the Revolutionary Communist Party, one of many Marxist groups in the United States. When I visited its Revolution Books headquarters in Harlem a few years ago, I picked up a copy of one of their old issues, dating back to 2016, showing Trump with a Hitler mustache and headlined, "Mein Trumpf."

This is where Biden and the Democrats get their marching orders on how to inspire their zealots.

"We do not know the motive of the shooter yet," Biden said on Sunday night. The motive was to kill Trump, another Hitler, according to the Democrats.

There are reports that Trump's would-be assassin has been identified as Thomas Matthew Crooks but a video surfaced showing someone by that name saying "You got the wrong guy!" So-called "fact-checkers" dispute this.

What we do know is that a Trump supporter, firefighter Cory Camperatore, was killed, and that other Trump supporters spotted the shooter on the roof, alerted the authorities, and nothing was done about it.

A "Republican" Who Snapped?

The media thought investigating the alleged political affiliation of the shooter would somehow prove something. The media trumpet the news that he was a registered Republican, as if this takes the Democrats off the hook. More recently, in 2021, he reportedly [made](#) a \$15 donation to a "liberal PAC" known as ActBlue on January 20, 2021 – Biden's Inauguration Day.

If he was once a Republican, something changed or snapped when Biden was "elected" and he gave money to this "progressive" group.

As we see in the Trump case and the plot to assassinate

Supreme Court Justice Brett Kavanaugh, there are many “activists” operating freely in American society without monitoring by the FBI who can be programmed to kill, especially when the target is supposed to be another Hitler.

On Sunday night, we began hearing propaganda from the FBI that the would-be assassin Thomas Crooks was a “loner.” It’s complete propaganda designed to take the FBI off the hook for failing to monitor these “activists.”

The Kavanaugh Case

Consider that Supreme Court Justice Brett Kavanaugh’s would-be assassin, Nicholas John Roske, was a pro-abortion activist upset about the draft of an anti-abortion decision leaked in advance from the Supreme Court. With the murder of Kavanaugh, he had declared on various Internet sites that he was going to stop the pro-abortion decision Roe v. Wade “from being overturned.”

In on-line conversations, Roske exhibited symptoms of gender dysphoria and called himself “Sophie,” indicating he identified as female. Clearly, he was a product of Cultural Marxism, a philosophy pushed by the national Democratic Party.

Finally, it must be noted that, by calling his opponents Nazis and fascists, Joe Biden is sounding like former Soviet KGB Colonel and Russian President Vladimir Putin offering a justification for war against Ukraine.

In typical communist fashion, Putin had said Ukraine was full of fascists and this justified his invasion of Ukraine.

Biden Uses Putin’s Playbook

Biden’s “anti-fascist” and “anti-Hitler” rhetoric against Trump and the Republicans makes him sound like the Russian he supposedly wants to defeat in Ukraine. Perhaps Biden and Putin are on the same side after all.

Everybody knows that Putin understands how to wage assassinations abroad. Russian assassins are now believed to be operating in Europe, in one case trying to arrange the assassination of Armin Papperger, the CEO of Germans weapons manufacturer Rheinmetall. He was [said](#) to be just one of several defense industry executives across Europe reportedly targeted by the Kremlin because of their support for Ukraine.

With backing from foreign intelligence services, such as Moscow's "Murder International," which still exists under KGB Colonel Vladimir Putin, the professional hit men can communicate through secret messages and cover their tracks back to China, Russia, or Iran.

We know the Iranians want to kill Trump, too. They don't forgive him for taking out their terrorist leader Soleimani.

Don't forget that the Russians shot down a plane carrying Rep. Larry McDonald, a conservative member of Congress who published research in the Congressional Record on the communist threat. When Korean Airlines flight 007 was shot down on September 1, 1983, 269 people, including McDonald, perished.

The Russians Killed Rep. McDonald

Conservative journalist Jeffrey St. John's book, [Day of the Cobra](#), tells the story. In the foreword, then-Senator Jesse Helms, another staunch anti-communist, called the shootdown intentional and premeditated.

A strong anti-communist, Rep. Lawrence Patton McDonald had said about Yuri Andropov, the head of the Russian KGB, "Andropov is a deadly cobra who mesmerizes his victims before striking." McDonald had already raised publicly the question of KGB involvement in the attempt on the life of Pope John Paul II.

In the case of the pope, the KGB used a Bulgarian operative to

carry out the plot.

There's no way the would-be assassin of former President Trump acted alone.

In the future, more attacks can be expected.

We can't rule out anything, including shooting down Trump's plane down and calling it a mechanical malfunction. The FBI and CIA did that in the TWA 800 case.

To recap, the FBI, CIA, and the NTSB (National Transportation Safety Board) concluded that a mysterious fuel tank explosion brought down TWA 800 in 1996, which resulted in the deaths of 230 passengers and crew on July 17, 1996. But eyewitnesses saw missiles hit the plane. To discredit them, the CIA produced a video showing the huge nose-less jet ascending like a rocket, an aeronautical impossibility, supposedly after the fuel tank exploded.

The purpose of that cover-up was to ensure that President Bill Clinton won the upcoming presidential election. He did so.

This time, a decision was made to eliminate Donald J. Trump from the race, and a cover-up of official wrongdoing is now underway.
