

The Dichotomies of Insanities Gripping the United States

By Frosty Wooldridge

How do you get your mind, emotions and arms around the insanities gripping America? Every day in the news, you hear or read about peoples' madness occurring in our cities that baffles your mind, cripples your sense of ethics and destroys your understanding of common sense.

That honor student named Luigi Mangionie walked up to the president of United Health Care—a shot him in the back several times until he died on the street. That left a mother and her children without a father. That kid killed a man in cold blood.

Even more insane, thousands of Americans posted \$750,000.00 in cash to defend him in a court of law. How do you wrap your mind around that kind of insanity? In the end, he should be sitting in a jail cell for the rest of his life. Cold blooded murder!

But then, you've got Bryan Kohberger, who by all the evidence compiled, walked into a student house in Idaho and executed four young college kids. For all intents and purposes, he did it for kicks to see if he could get away with it. And yet, he's got tens of thousands of dollars given to him to try to judge his innocence. Let's face it, the same thing happened when O.J. Simpson killed his wife and the boyfriend, but O.J. walked free. Was that nuts, or what?

How do you intellectually digest THAT kind of insanity?

Look at the nursing co-ed at the University of Georgia, Laken Riley, running down a runner's path, and murdered by one of 15 million illegal aliens and thousands of hardened criminals—set upon our country by Alzheimer's patient Joe Biden, but no one in Congress did anything to stop the invasion in four years. How crazy is that?

And then, President Trump rounds up thousands of illegal alien criminals via Border Patrol's Tom Homan, sends them off to jails in another country, but a U.S. judge blocks the Executive Order to deport them. Would that judge have made a different decision if he was Laken Riley's father? Three other judges have blocked Trump's deportation orders, too. Are they THAT stupid or THAT corrupt?

At the same time, the anti-American ACLU, that once stood for individual citizen rights--fighting for criminal rights. More ironic, they place ads on TV for more funding. I would not give them a wooden nickel.

Why is it that we've lost all common sense in America?

You've got one of the smartest people in the world, Elon Musk, weeding out and cutting out all the corruption, graft and criminal waste of our tax dollars at U.S. AID, and multiple other government agencies—but internal criminal terrorists are firebombing his Tesla car dealerships. Does that mean they want more corruption, waste and fraud to continue with their (our) tax dollars?

Is that nuts, or what?

What about the fact that we spend billions if not trillions of dollars to fly to the moon and on to Mars, when we have over 1.0 billion human beings living in abject poverty on earth. We've got 4.0 million children under the age of 12 starving to death annually and 8.0 million adults. The misery is beyond

comprehension, but do we solve THAT problem on our planet home? Of course not!

Then, you have to ask yourself, "Who in their right mind wants to live on the moon? Or Mars? Why would you want to live in a concrete bunker on Mars for your whole life? Anybody think that would be a "really wonderful experience?"

We've got 774,000 homeless in America, but spend billions on war preparation. Why didn't we solve THAT homeless problem before we sent \$200,000,000,000.00 off to Ukraine? Who in their right mind, with an ounce of common sense, keeps doing these really stupid things?

General George Patton said, "Politicians are the lowest form of life on Earth. And, democrats are the lowest form of politician."

When you see the reports of the INCREDIBLE corruption in all our federal agencies, you cannot help but wonder who is running our country? Answer: crooks, swindlers, liars, thieves, gangsters, but mostly, politicians.

When it comes to absolutely insane craziness, we've got female governors supporting biological men beating the crap out of biological women in sports. Worse, those same women and men move toward the courts to support their insanity. How do you wrap your rational mind around THAT degree of stupidity, insanity, and madness?

How is it that the entire mainstream media covered up the fact that a sitting president, Joe Biden, for four years, suffered from Alzheimer's Disease, and he could not govern our country, and relied on his wife and inner circle to cover up and fool the American public? We're talking a level of journalistic corruption that will go down in the history books as the biggest scandal in American politics.

Why is it that our 30 million legal immigrants and illegal

aliens have been sending over \$800,000,000,000.00 (billion) in cash transfers back to their countries, ANNUALLY, but not a word written about it by the mainstream media? Source:

“International remittances have recovered from the dip in 2020 due to the COVID-19 pandemic. Migrants sent an estimated USD \$831 billion in international remittances globally in 2022, an increase from USD \$791 billion in 2021 and significantly more than USD \$717 billion in 2020.²⁷ As in previous years, low- and middle-income countries continued to receive vast sums of remittance inflows, which increased by 8 per cent between 2021 and 2022 from USD \$599 billion to USD \$647 billion.”

We are being robbed blind, but we pay for their anchor babies, their breakfasts and lunches, their schooling, their medical care, and Section 8 Housing. We pay legal immigrants billions in SSI payments just for moving to America without any funds whatsoever. Examples are: Detroit Muslim population over 300,000. Minneapolis' Somalian Muslim population at 125,000—all eternal welfare. You can chalk all that fraud up to our politicians in Washington DC. They party; we pay!

In 2025, we're being "Woked" to death with absurdities beyond understanding. Instead of your mother, she's a "birthing person." We've got homosexual drag queens giving shows to grade schoolers. We've got 12 year old "trans girls" getting their breasts removed so they can identify as boys. Little biological boys are getting castrated so they can "identify" as a girl.

You, dear reader, can come up with more insanities that you've watched on TV or in the news. At some point, we need to come back to "reason", to "rational thinking", to "critical thinking", to "common sense."

Because if we don't, our civilization faces some rough consequences in the years ahead.
