

The Enemy Within

The greatest danger to American freedom is a government that ignores the Constitution -***Thomas Jefferson, Third President of the United States***

The Art of War says that before you go to war, KNOW YOUR ENEMY. I don't know about you but I feel we are at war. Not with guns but with words. Forced PC, censorship, accusations without evidence, lies, are all designed to silence any opposition to the Communist/Globalist ideology. Will lack of conversation or debate, force people to turn to violence in order to get their message out? Only time will tell. But one thing is certain, the Communist/Globalists will never give up.

In 2020 you will choose... Before you do, ask yourself, **"Who is America's Enemy?" The Constitution or Communism?**

The Constitution states that our Rights are granted by our creator. Why?

Believing in a higher power takes human rights out of the hands of man. With G-d in the picture most times a person's decision slants to one considering morality. Definition of **morality**: beliefs about what is right behavior and what is wrong behavior : the degree to which something is right and good : the moral goodness or badness of something.

Our rights, granted by our creator – a higher power- can never be denied or replaced. Unless we of course we give up or power and change the constitution.

The American constitution gives you ownership of yourself. Your ownership entitles you to use your judgment as to what you will do with the product of your labor – consume it, give it **away**, sell it, save it. This requires work. The personal responsibility to believe in your GOD, have Individual Ownership, Personal Accountability, and Responsibility of YOU,

Your Family, Your Business and Land are challenged every day. You must work to keep them. There is no place the constitution that says, you must believe in any particular deity. Your belief in G-d/morality helps you make the choices slanted towards good.

Communism flips control by man under the direction of G-D in order to instill control by nature directed by Government. Remember: Whatever government grants, Government can legislate away.

Communists are ATHEISTS – who worship SATAN, GAIA (Mother Earth) and believe in the Collective (the common good for all), with the Government owning and controlling YOU, Your Family, your Business and Land. People need something to believe in. The absence of G-d leaves a door wide open for alternative worship.

“I envisage the principles of the Earth Charter to be a new form of the ten commandments. They lay the foundation for a sustainable global earth community.” –**Mikhail Gorbachev**, co-author of The Earth Charter

This is easily accomplished because communists have replaced morality and G-d with the religion of the Environment. Under sustainability – aka Green New Deal – non believers can be coerced into believing in the religion of environment. According to wikipedia.org the new millennium and the modern ecological crisis has created a need for environmentally based religion and spirituality [called Ecospirituality](#) -Now taught in school.

These ideologies Constitution vs Communism are OPPOSITES.

To Believe in One – you must Denounce the Other.

Are you ready to Denounce the Constitution? Are you ready to give yourself to the Government?

In [Florida our Criminal Code, Title XIV, Chapter 876](#)

states: 876.01 Criminal anarchy, Communism, and other specified doctrines; advocacy prohibited. Criminal anarchy, criminal Communism, criminal Nazism, or criminal Fascism are doctrines that existing form of constitutional government should be overthrown by force or violence or by any other unlawful means*, or by assassination of officials of the Government of the United States or of the several states.

* Lies and fraud are unlawful means.”

Any legislator or public official practicing communism is committing treason and “shall be guilty of a felony of the second degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084. ” (punishment is jail time and a fine.) Read the statute. You will get quite an education. You will be able to see how the Democrat/Socialist Party skirt the constitution and play with words.

Why is the border fight so important? NAFTA eliminated borders while bringing massive amounts of communist/socialist into America in order to destroy American sovereignty. It is only by brining in more communists and keeping them ignorant will Democrat/Socialist/Globalists gain control and keep it for a very long time. They must eliminate America. Other countries must not be allowed to have the same rights, and opportunities as America.

“The only hope for the world is to make sure there is not another United States. We can’t let other countries have the same number of cars, the amount of industrialization, we have in the US. We have to stop these Third World countries right where they are.” —**Michael Oppenheimer**, Environmental Defense Fund

I was recently asked, “What do the Democrat/communists actually want?” My answer is **EVERYTHING**. They believe that humans are basically stupid. Therefore, people are nothing

more than victims and it is up to the elite to “save them from themselves.”

You can't manage to take care of yourself therefore all worldly possessions really belong to the government. It is the job of the Democrat/communists to determine your existence and possessions.

Can you live? – Only if you fit their idea of “normal”. If you are a person or baby with disabilities, or elderly you are toast. To them you are a useless eater. Those who can work are Human Capital. You are only as good as your last job. How will your life be determined? By the government algorithms on your computer. No choice here. In a One World Government everyone must think the same and have the same things. Competition must be eliminated at all costs.

- Your career will be determined by algorithms – your choice is the one the computer provides.
- Your health by Medicare for all – forget that hip replacement at age 80.
- Your mobility will be bikes and walking. China already has social credits which limits a person's mobility unless they comply with government policy. Facial recognition is already used in airports. Now you will get to use all those paths we paid for.
- Limiting energy. The next time your legislator says GND ask them for their car keys and tell them they will now get a government bike to ride. Or tell them to turn off their air conditioner in their office. Watch the response.
- Your property will be owned by the government, you are a renter. You rent and get things from the government. No ownership for you. “You *didn't make that.*” E Warren.
- Relationships are out unless it is with your hand held device or a robot. No reproduction that way. After all Mother Earth is crying from being overpopulated. Code for depopulation = less people to control.

- Water, energy will be rationed – Smart Meters anyone. Today all appliances use smart connections which are very easy to regulate. What if you get water only between 8AM and 9PM? Electricity for designated hours?

Maurice Strong former UN Secretary General –Oil Billionaire –stated: *“Land, because of its unique nature and the crucial role it plays in human settlements, cannot be treated as an ordinary asset, controlled by individuals and subject to the pressures and inefficiencies of the market. Private land ownership is also a principal instrument of accumulation and concentration of wealth and therefore contributes to social injustice; if unchecked, it may become a major obstacle in the planning and implementation of development schemes. Social justice, urban renewal and development, the provision of decent dwellings-and healthy conditions for the people can only be achieved if land is used in the interests of society as a whole.”*

Rising living standards in Africa are apparently something to be frowned upon. During a townhall with the President of South Africa, President Barack Obama told people in Africa that [***cars and air conditioning in Africa are a threat to the environment***](#) and warned that the [***“planet will boil over”***](#).

Agenda21/2030, Green New Deal, Sustainability, Smart Meter programs are all the same plan. The names are changed to mask the outcome. They all have ONE goal. *“Isn’t the only hope for the planet that the industrialized civilizations collapse? Isn’t it our responsibility to bring that about?”* – **Maurice Strong**, founder of the UN Environment Programme

Is America Worth Saving?

In the Art of War we learn that in order to win a fight you must identify the enemy. Are you ready? Will you educate others about socialism? – **The goal of socialism according to Karl Marx is COMMUNISM.** Will you help get a factual education

into our schools and give our kids a chance to create their own future or will you comply in your new form of slavery? I will not comply, will you?
