

# The Great American Taxation Rip-Off Of Your Money

Let's face it, today we KNOW that the Deep State bureaucracy in Washington DC has been lying, cheating, screwing and stealing American taxpayers blind. Over the past 50 years, you have been paying into the U.S. AID slush fund for the benefit of every rat, scoundrel and politician in that Swamp called our U.S. Congress.

Not only that, you've got Social Security being paid out to millions of people who are dead, or over 120 years old. Millions of relatives keep signing those checks they have no business or right to obtain that money. Then, you've got the incredible fraud and waste of the U.S. Defense Department into the trillions of dollars. Notice that \$850 billion a year use of your tax dollars has not passed an audit in seven years.

What about insider trading on defense contracts by Nancy Pelosi, Bernie Sanders, Elizabeth Warren, Hakim Jeffries and dozens of other U.S. Senators and House Members? They fund the contracts, tell their husbands or wives which stocks/shares to buy, and then, make millions of dollars off those contracts. They live the high life while you pay your tax dollars into Washington DC.

Back during my youth, the Vietnam War, the Military Industrial Complex corporate heads created the war, extended it for 10

years, and didn't give a damn about 58,479 kids who got killed, and another 300,000 hideously wounded.

"The total cost of the Vietnam War is difficult to determine precisely, but the U.S. military share of the conflict from 1965-1975 was estimated at \$138.9 billion, not including the cost of veterans' benefits or the human cost of the war."

As written in many books by soldiers and correspondents, the Vietnam War proponents lied to us about everything! We killed 2.3 million innocent Vietnamese people. We poisoned their land and rivers with Agent Orange. We fire bombed them with Napalm. We destroyed their villages and society. Why? To make Washington's top dogs, RICH!

The same horrific consequences occurred with Afghanistan and Iraq. Over 7,500 combat troops lost their lives for nothing. Another 131,000 U.S. soldier kids committed suicide in those 20 year wars. It shows you the hopelessness they suffered at the hands of fighting an insanely religious enemy on his own turf. What did it cost you as a taxpayer? How does \$6 trillion sound? That's what the accountants report.

Much like Vietnam, the power elites did not want to win those two wars. Just let our kids get killed for your tax dollars into the trillions—and into M.I.C. corporate heads' bank accounts.

During the last 50 years of U.S. AID, every thief in Washington DC has dipped his or her hands into your tax dollars. We're talking trillions of dollars!

## **THEN CAME DEPARTMENT OF GOVERNMENT EFFICIENCY**

Bill Clinton talked about government waste, fraud and abuse of taxpayer dollars. Bush spoke to the waste. Obama talked about how to stop the enormous lying, cheating and thieving going on in all the big departments in government.

What happened? Answer: nothing! They didn't do squat.

How much money has been sucked out of your wallet for U.S. AID since 1971? Try \$6.1 trillion. That's a lot of green backs. Where has most of it gone? Into the pockets of politicians and every lying scoundrel who could get his hands on your money.

Even someone as dumb as a "box of rocks" as Georgia's gubernatorial candidate Stacey Abrams managed to siphon \$2 billion out of the fund. She used the money to help poor people buy environmentally responsible appliances. Yeah, right! And line her pockets in the process!

You no doubt have heard or read about creating Sesame Street cartoons for people in Afghanistan for \$20 billion. You've heard about condoms for millions of dollars for Africans. Please note, their religions don't allow birth control, and they are too illiterate to read the instructions. How about sex change operations for people in Central America? How do you like paying for that? How about your taxpayer dollars going out to fund Hamas? Look it up!

"In 2024, the US provided \$12.7 billion directly to sub-Saharan Africa, and billions more through global programs, with Africa being the primary beneficiary, totaling \$41 billion in American foreign assistance."

That's makes about as much sense as pouring money down a rat hole.

Then came President Donald J. Trump with the most intelligent man on the planet to clean up the fraud, waste and abuse! Musk's team has culled trillions out of the fraud going on in DC.

He stopped payment to all the "slush fund" projects that were beyond criminal. He defunded U.S. AID programs that were clearly illegal, criminal and abusive. He's saving you in just the last four months, over \$800.00 for every American

taxpayer. He's intelligently attempting to reduce the \$36 trillion national debt. He's been firing people who have not gone to work for five years since Covid, but have kept being paid for doing nothing.

And yet, you've got all these people sucking off your tax dollars crying, dancing and firebombing Tesla Dealerships and cars. You can't make this stuff up.

We're in a Catch 22 situation where our economy WILL collapse from the national debt if we maintain the fraud. Or, we support Musk's team to trim the fat, trim the fraud and stop U.S. AID, and its liars from robbing us blind.

Thankfully, the American people realized that Biden's four years were a criminal disaster beyond measure. They realized another four years under Kamala would have sealed America's coffin. It's about time Hakim Jeffries, Schumer, Pelosi and the rest of those congressional crooks hop aboard the Trump train. Tariffs, Musk, cutting fraud, law and order, sealed borders, deportations, prosecute and jail MS-13 members, life in jail for Luigi Mangione, kill a cop and you go to jail for life, rape a woman and you find yourself in the slammer for 20 years, drink or smoke weed and drive-in the slammer for no less than two years and lose license for 5 years on the first offense, 10 years on second...and you can think of more. Let's make breaking our laws more prohibitive and consequential that even brainless morons won't commit crimes because they know the slammer awaits them.

At some point, we come to terms with reality, or reality is going to come to terms with us.
