

The Impeachment That Wasn't

Roger Anghis

The last few weeks should have opened the eyes of reasonable Democrats. I know there are very few of them but what the Democrats have done in exposing their true agenda is appalling at best. It goes without saying that the left has still yet to get over the election of Donald J. Trump in 2016. My guess is they will never get over it. They are going to look under every rug, behind every door and every rock to try to find something, anything to remove him from office.

If you haven't figured out by now they want him out of office before he finds the evidence that will actually cause **them** to be removed from office. This concern was noticed by me when the first televised meeting between Trump, Pelosi, and Schumer was aired. Schumer could not even look Trump in the face at that meeting. It was like he was doing something that he totally dreaded, which I'm sure he was.

The threat to the left if the investigations are completed by Attorney General Barr will destroy the Democrat Party as we know it. Sounds good to me. The Democrat Party is more concerned about illegals than Americans, more concerned about leaving our borders open to any and everyone with total disregard for how that negatively affects the American people. Their unreasonable demands for solving problems that don't exist like climate change is frightening. No planes, no cars, no cows? They want us to regress back to the 1700s.

I saw a post on Instagram the other day of Trump saying that the Democrats really want We the People but he's in the way and I believe that 100%. If you haven't noticed, they want to control what we eat, what we drive, how we travel IF they allow us to travel, what kind of home we can live in, and it won't be a single-family residence either. Remember that Alexandria Ocasio-Cortez has everything figured out:

Interestingly, Ocasio-Cortez, a self-identified "Democratic socialist," has been hyping up her plan to tackle climate change for months. In November, the 29-year-old representative claimed that her climate change plan is necessary because "people are going to die" otherwise. The really sad part is, many leftists take her seriously.

During his 2019 SOTU address, President Trump said that "America will never be a socialist state." This can only be true if these "socialist activists" get voted out of office.

Additionally, according to NPR, tearing down all our buildings isn't all AOC is proposing. She also wants to cut out air travel as well. NPR listed several proposals. However, these two really stand out as ridiculous.[1]

I bring this up because everything Trump stands for, America, free enterprise, free speech, our Constitution, our Bill of Rights, our sovereignty all offends the Democrat and all stand in the way of them taking full control. One of their biggest issues is gun control. You can't control an armed populace and that is why they are determined to confiscate our guns. They say that guns, specifically the AR-15 kill thousands of people years but the FBI's figure disagree: [According to the FBI](#), between 2012 and 2016, an average of **295 murder victims were shot to death with rifles each year**, rifles that include so-called "assault weapons" like the big scary AR-15.[2] Illegal aliens kill more Americans than AR-15s.[3] If they are so concerned they should look at Planned Parenthood who murders more Americans than guns, illegals and doctors combined: ***Planned Parenthood aborted 321,384 babies during its***

2016-2017 fiscal year, according to its new annual report.

This is a slight decrease from its last annual report, which revealed the company committed 328,348 in 2015-2016. Planned Parenthood's total revenue is \$1.46 billion, with \$543.7 million – 37 percent – of that coming from taxpayers. [4]

These are all facts the left does not report to you because most people can put two and two together and see what their real goal is. Maxine Waters, the biggest mouth, literally, in Congress has been calling to Trump's impeachment literally from the day after his election. What is her goal that Trump's agenda stops dead in its tracks? Government control of all businesses: **California's most influential black lawmaker, [Democrat Representative Maxine Waters](#), made the threat during recent congressional hearings with oil company executives. She said the federal government would take over their industry if they failed to do something to stop the escalating price of gasoline.**

Waters told the president of a major oil company to "guess what this liberal would be all about? This liberal would be all about socializing – uh, uh, would be about basically taking over and the government running all of your companies." One renowned commentator, who said Waters made an [absolute total fool of herself](#), points out that the congresswoman's associates can be heard laughing in the video of the embarrassing exchange.[5]

Trump has all the Democrats and half the Republicans terrified that he will destroy their plans for merging America into the global system. They know they can't defeat him in an election, without massive voter fraud. **Saturday on MSNBC, Rep. Al Green (D-TX) said he is concerned is the Democrats do not begin impeachment proceedings in the House President**

Donald Trump will win the election in 2020.

Green said, "I'm concerned if we don't impeach this president, he will get re-elected. If we don't impeach him, he will say he's been vindicated. He will say the Democrats had an overwhelming majority in the House and didn't take up impeachment. He will say we had a constitutional duty to do and we didn't. He will say he's been vindicated."[6]

There is nothing fair about this joke of an impeachment. Witnesses that are called go to closed-door meetings in the basement of the Capital. No transcripts are allowed to be released except what Adam Schiff leaks himself. His opening statement about Trump's phone call to the President of Ukraine was an outright fabrication, i.e. lie. They demanded transparency from the Mueller Report but there is no transparency in their actions here. Pelosi will not call for a full vote on the impeachment hearings because she knows she doesn't have the vote and if she did then Trump's attorneys would be able to call witnesses, they'd have subpoena power, they could cross-examine and all proceedings would be made public which is the last thing the Democrats want the public to see. They would be destroyed.

I believe that they have gone too far already. I've seen many Democrats state that this is not the right way to proceed. It is all one-sided and secret. Without a full vote, they cannot impeach. It is a show for their base which is decreasing on a daily basis because of their actions. Trump is playing them like a fiddle, and they can't even see it. Look for a landslide in November of 2020.
