

The incestuous elitist establishment and the Clintons

"The public needs to know the kinds of things a government does in its name or the 'consent of the governed' is meaningless...The consent of the governed is not consent if it is not informed." –Edward Snowden

"The greatest danger to American freedom is a government that ignores the Constitution." –Thomas Jefferson

An investigation into the Clinton Foundation has actually been ongoing for a long time and is the core of all the investigations, even though we just heard about it. Hillary was hiding a private server in her basement in New York, and was using this server to hide her activities. Those activities were about soliciting donations from foreign governments to get personal payments to the Foundation. Why? For two reasons, Hillary's access to government policy for these foreign governments while Secretary of State, and to enrich the Clinton family! Only 10% of what is taken in by this so-called charity foundation is given to charity. The rest is for expenses!

Totally unconstitutional, and if she gets off, this will be repeated by future Democrats and Republicans, and foreign entities will have total access to America's politics.

[Investigators are now 99%](#) sure that five foreign intelligence agencies were able to hack into Hillary's private email server. She put our national security in jeopardy! Will she ever be indicted? Highly doubtful with the way the DOJ and FBI are stacked with her friends. Alan Dershowitz says Hillary will never be indicted. Maybe he's right, but **we have a powerful God on our side**, and I believe the truth will out!

So, let's take a look at the Department of Justice and FBI.

Peter Kadzik and John Podesta

John Podesta is Hillary's campaign manager. Peter Kadzik is Podesta's best friend, and another Clinton stooge. Kadzik, is the attorney general who now promises an "expedited review" of the Huma/Weiner/Clinton emails, and he was Marc Rich's attorney. But wait...remember Marc Rich?

Marc Rich was an international commodities trader, hedge fund manager, financier and businessman. He founded the commodities company, Glencore, and was indicted in the United States on federal charges of tax evasion and illegally making oil deals with Iran during the Iran hostage crisis. He was in Switzerland at the time of the indictment and never returned to the United States. He received a presidential pardon from

President Bill Clinton on January 20, 2001, Clinton's last day in office.

(Read General Michael Flynn's book, [The Field of Fight](#), and you'll know more about Iran and how very dangerous they are to our freedoms.)

This all happened before Kadzik joined the Justice Dept. in 2013. He was lobbying Clinton's Chief of Staff, John Podesta, for help obtaining a pardon for the fugitive Rich, which he received. It appeared, and was reported, that Kadzik was recruited by the Rich people, specifically because of his friendship with Podesta.

Peter Kadzik and WikiLeaks

Kadzik's involvement in the current Weiner/Huma/Clinton situation is great cause for alarm. [Zero Hedge reported](#) that among the recent batch of hacked emails released by WikiLeaks, we learned that the day after Hillary Clinton

testified in front of the House Select Committee on Benghazi October 2015, John Podesta, Hillary's campaign chairman, met for dinner with a small group of well-connected friends, including Peter Kadzik, who is currently a top official at the US Justice Department serving as Assistant Attorney General for Legislative Affairs.

So, here's the bottom line folks...the best friend of John Podesta at the DOJ, will be in charge of a probe that could potentially sink Hillary Clinton. And WikiLeaks has already documented that Kadzik shared information about the congressional investigation of Hillary Clinton with his friend John Podesta. Kadzik already testified before Congress on the Hillary Clinton email investigation. He believed she was innocent. Like Donald Trump says, "It's rigged!"

Two Different Investigations

These investigations are being conducted by a completely different team of FBI agents who are under the purview of prosecutors of the Eastern District of New York in Brooklyn. This is the office that Attorney General, Loretta Lynch ran for six years when she was appointed by Bill Clinton. Obama

chose her from the Eastern District and made her Attorney General. While Lynch was at the Eastern District, she staffed it, and all the prosecutors and employees at this District are still Lynch's. Here's where it gets ugly. This is apparently the office that has the Clinton Foundation investigation, ahem...

Okay, the FBI works for the Department of Justice. The email investigation of Hillary's email server is allegedly happening out of the Manhattan office, Southern District of New York. It is this latter office that has come across the emails from Weiner's and Abedin's laptop which they were apparently both using at home. This came about because of an investigation into the perverted internet acts by Weiner with a minor.

This group in Manhattan has asked the other team for everything they have on the Foundation, and it is not being shared. Why? Because Loretta Lynch who

works for Obama and was appointed by Clinton has dug in her heels. Her Justice Department is blocking the FBI team from examining emails in connection with its investigation of the Foundation. If it wasn't for the Clinton Foundation, there wouldn't be a Hillary email scandal because FBI Director Comey already stated that there was no crime committed...cough, cough..."no intent to commit a crime," when Hillary was trafficking in emails that might have been classified.

When the one team started looking at Weiner's emails, and they found Foundation emails, when Huma had stated she'd turned in everything, well...the kaka poopoo hit the fan, because it looked like Huma lied! The FBI team needs further evidence, and wanted info from the Eastern District, but they are being blocked.

In [Andrew McCarthy's article](#) of 2 November 16, he asked this question, "Why is Lynch rushing the search for classified e-mails but blocking the pay-to-play corruption probe? It's well worth the read, even though it's at the National

Review! He says this is why the agents on the Clinton Foundation team wanted to get their investigation out of the Eastern District office and move it to the Southern District in Manhattan. The Southern District has a tradition of relative independence from the Justice Department and a reputation for pursuing political corruption cases aggressively. The US Attorney at the Southern District is Preet Bharara and he is known for prosecuting Republicans and Democrats who have engaged in illegal activities and corruption.

FBI Deputy Director, Andrew McCabe

The Clinton Foundation FBI Agents were said to be barred from prosecutor shopping by FBI Deputy Director, Andrew McCabe. According to a recent WSJ article, McCabe also instructed FBI agents who wanted to pursue a Clinton Foundation investigation aggressively to ["stand down."](#) Why? Well, here's the other incestuous connection.

Terry McAuliffe, long time

Clinton fundraiser and intimate, [sent \\$675,000 to the failed state senate campaign of McCabe's wife.](#)

McCabe has had a leadership role in the investigation of Hillary's private email and homebrew server in her New York mansion while Secretary of State. The connections are far too suspect. McCabe should [recuse himself](#) from further involvement in the Hillary email investigation, but so far he hasn't.

Rotten in Denmark

There is a distinct whiff of something rotten in Denmark in this whole scenario. Podesta and Kadzik, McAuliffe and McCabe, Obama and Lynch, all of them are obviously protecting the corrupt Hillary Clinton.

What a convoluted mess this woman and her cronies have given us. This is far and above even a Clancy novel...but it's all true!

Trump is absolutely right when he says, **"It is Rigged!"** And he's absolutely right when he says, **"Drain the Swamp!"**

The only choice is the outsider, the non-globalist, the man who loves America and her people, the man who wants the Constitution to prevail, the man who wants to build our military, the man who wants to take great care of our veterans, the man who hates abortion, the man who wants to close our borders and save our sovereignty, the man who wants to restore great healthcare, the man who wants to appoint conservative originalists to the Supreme Court, the man who wants to stop the influx of dangerous Islamists into our country, the man who supports our second amendment, and the man who will make the greatest president of the United States since Franklin Pierce.

Franklin was a man for the Constitution and the people, and

that is what Donald J. Trump represents. Vote for him, and you'll vote to save and restore our nation. We need this amazing businessman to lead our nation back to health.

Pray for him, pray for his family, and pray for our nation. God gave us this man and this opportunity...vote for saving America! Vote for Donald J. Trump!
