

The Indoctrinated Brain – What’s Been Done & How

Authored by Devvy Kidd not AI

Over the past couple of decades, we’ve seen a nation toss common sense, self-determination and individuality to little more than recipients of carefully planned dumbing down and sheep-like compliance. Collectivism – embrace the deadly poison promoted by Karl Marx.

I’ve recommended too many times to count in columns, a short introduction to a very important book by a lady I came to know well, Jeri Lynn Ball, who was way ahead of her time. Despite her research backed up by provable facts and documents, no one would publish her book so she did. Unfortunately, it’s no longer available (Perhaps through a rare book store site), but this 20-page introduction truly is a must read. While the names of the dirty traitors have changed (left office/globalist billionaires and bankers), the goal remains the same. We cannot defeat our domestic and foreign enemies without knowing the when and how these maniacs began their mission.

The Totalitarian Vision of “Human Reconstruction”

“The same year they wrote “The Program,” Communist architects and social engineers began to implement their plans for the globalist, communistic New World Order, commencing with the transformation of all humans into supporters of totalitarianism. Nikolai Bukharin had previously written “that the revolution’s principle task was to ‘alter people’s actual psychology.’”

(Emphasis added.) “In 1928 Bukharin stated that “one of the first priorities is the question of the systematic preparation of new men, the builders of [totalitarian] socialism.” In his book, *Soviet Civilization*, Andrei Sinyavsky states that the “idea of the new man is the cornerstone of Soviet civilization.” The “new man” is in fact the indispensable, fundamental basis of all totalitarian societies. **Totalitarianism requires the support, approval, and fearful veneration of the masses;** if the “new men and women” had not been created, totalitarianism would not exist today.

“The Communists planned to create not only a new way of life, but new human beings. They sought to achieve not only the reconstruction of social and cultural institutions, but reconstruction of human beings. Communist totalitarianism has undergone tremendous growth over the past century only because it has “the support of a man of a new social and psychological type”—the “new communitarian (Communist) man.”

As regular readers of my columns I’ve written over the decades know I do a lot of reading. Several months ago, fellow columnist, Kelleigh Nelson, recommended this book by J. Michael Waller: *Big Intel: How the CIA and FBI Went from Cold War Heroes to Deep State Villains*. I ordered and read it (it is available on audio); this is just one comment on Amazon:

“It’s a book ostensibly about decay at the FBI and CIA, which is true, but also traces the payload of a hundred-year-old active measure campaign. Truly the Bolsheviks planted a tree, and we are living in its shade.

“It plays out in countless places across our culture: the media, academia, corporations, and the government, but it’s come home to roost in the US Intelligence Community, who are supposed to be preventing such ideological infiltration and destruction.

“Dr Waller shows the roots of ‘wokeness’ from a century ago, how fellow travelers and useful idiots made successful its long march through our institutions, the resulting overproduction of corrupted elites from those same institutions, and the Obama administration’s codification of these ideas into a quasi-state religion for the administrative and deep states, despite being antithetical to the very Constitution they’re sworn to support and defend. And it’s only intensified since. Even under Trump appointees.”

Following all this treachery, I next read what is also a critically important book, also filled with footnotes and sources: *The Indoctrinated Brain: How to Successfully Fend Off the Global Attack on Your Mental Freedom* by Michael Nehls, M.D., Ph.D. (Also available on audio.)

(Emphasis mine) “Michael Nehls has written a provocative book arguing that the **COVID-19 generation in particular will ultimately be deficient in memory and cognition, due to the combination of brainwashing and toxic exposures**, launched by a self-appointed technocratic elite group and applied to all of humanity. The book provides detailed scientific support for the direct effects on the **hippocampus** that lead to these dire outcomes. Fascinating and terrifying at the same time.”

[German Neurologist On Face Masks: ‘Oxygen Deprivation Causes Permanent Neurological Damage’](#), Oct. 21, 2020 – “Dr. Margarite Griesz-Brisson MD, PhD is a Consultant Neurologist and Neurophysiologist with a PhD in Pharmacology, with special interest in neurotoxicology, environmental medicine, neuroregeneration and neuroplasticity. This is what she has to

say about facemasks and their effects on your brain:

“The reinhalation of our exhaled air will without a doubt create oxygen deficiency and a flooding of carbon dioxide. We know that the human brain is very sensitive to oxygen deprivation. There are nerve cells for example in the hippocampus that can't be longer than 3 minutes without oxygen – they cannot survive.

“The acute warning symptoms are headaches, drowsiness, dizziness, issues in concentration, slowing down of reaction time – reactions of the cognitive system. However, when you have chronic oxygen deprivation, all of those symptoms disappear, because you get used to it. But your efficiency will remain impaired and the under-supply of oxygen in your brain continues to progress...

“While you're thinking that you have gotten used to wearing your mask and rebreathing your own exhaled air, the degenerative processes in your brain are getting amplified as your oxygen deprivation continues.

“The second problem is that the nerve cells in your brain are unable to divide themselves normally. So in case our governments will generously allow us to get rid of the masks and go back to breathing oxygen freely again in a few months, the lost nerve cells will no longer be regenerated. What is gone is gone...

“When, in ten years, dementia is going to increase exponentially, and the younger generations couldn't reach their God-given potential, it won't help to say “we didn't need the masks”.

“To deprive a child's or an adolescent's brain from oxygen, or to restrict it in any way, is not only dangerous to their health, it is absolutely criminal. Oxygen deficiency inhibits the development of the brain, and the damage that has taken place as a result CANNOT be reversed...

“I know how damaging oxygen deprivation is for the brain, cardiologists know how damaging it is for the heart, pulmonologists know how damaging it is for the lungs. **Oxygen deprivation damages every single organ.**” She goes into a lot more; see link above.

Dr. Naomi Wolf wrote in the forward in Dr. Nehls book: “Many of us have noted that our loved ones and colleague have changed. Post-mNRA injection rollout, we notice that people who were highly educated critical thinkers, have become unable to think outside of two simple binaries.

“We watch in astonishment as formerly sophisticated loved ones and friends regurgitate talking points with no self-awareness. We wonder why there is a sense of something inchoately missing when we sit with a vaccinated or COVID-fearful friend. We cannot fathom what has caused this sea change.”

Dr. Nehls really gets into this in a way that is frightening to say the least. Page 41: The frightening Answer to an Unpleasant Question. Nehls begins to crystalize why people were no longer able to think critically pre-the manufactured COVID crisis and simply accepted by the tens and tens of millions of Americans (who knows how many in other developed countries) the nefarious and completely unnecessary lockdown, masks and isolation mandates.

Chapter 3: Reprogramming the Human Brain – the ‘technocratic’ narrative probably 95% of adult Americans in this country have never heard of, much less understand.

Chapter 4 deals with the Master Plan, going to page 91: Five Steps in the Preparation of a Crime Against Humanity. Page 97 & 98 describes a challenge by Andrej Konstantin Hunko, at the time a member of the German Bundestag since 2009, “...challenged the power of the pharmaceutical industry and the WHO in a speech to the Parliamentary Assembly of the Council of Europe

on June 24,2020.” He pulled no punches.

Dr. Nehls continues, “The Global Vaccine Action Plan (GVAP) is a framework approved by the World Assembly in May 2012 to achieve the “Decade of Vaccines” vision by delivering universal access to immunization.” Satanic best describes what was being planned against humanity. In Master Plan, Part 2, Dr. Nehls delves into ‘The Great Mental Reset Using Communist Indoctrination Methodology – what Jeri Lynn Ball wrote about in 2000. The history he so carefully recites is what OUR government was doing – horrific – to achieve their goals: the complete destruction of an independent, self-reliant able to think, analyze and resist and it’s all about the brain.

Chapter 6: ENDGAME?. A Sea of Madness – “Overpopulation is a real problem to be solved, according to the technocrats.” In the section, The Rise of the Useless Class pay attention to people like Yuval Noah Harari who said, “Why do we need people, or at least, why do we need so many people? (WEF interview), “The best we [again, whom does he mean by we] can do at the moment is to keep them happy with drugs and computer games.”

Dr. Nehls continues (pg 172): “The existence of the people in *Huxley’s Brave New World* is also made bearable with shallow entertainment and the drug soma. In the preface to his novel, Huxley said the following, “The freedom to daydream under the influence of drugs, movies and the radio, will help subjects reconcile themselves to the bondage that is their fate.”

I’ve read many books on the “Great Reset”. Thankfully, the diabolical plans of the maniacs supporting a manufactured “crisis” such as the monster scam called ‘climate change’ started to gain traction on talk radio, articles and columns not too long before the COVID hysteria.

A short read (91 pages) that sums up furtherance of the planned destruction of America is: *Summary of The Great*

Reset: Joe Biden and the Rise of Twenty-First Century Fascism by Glenn Beck & Justin Trask Haskins. You might call it a primer but one fact I didn't know and was shocked (pg 88) is that Sen. Rand Paul supports the DANGEROUS (will kill the Constitution once and for all) Article V Convention of States.

[Breaking: Rand Paul Goofs! endorses Convention of States ACTION](#), March 13, 2018 (Perhaps his constituents will tell him to withdraw his support.)

Sen. Paul is all for a complete audit of the privately owned and unconstitutional "Federal" Reserve, but unlike his father, Sen. Ron Paul who railed against the FED in what seems like forever, I haven't seen or read Rand Paul re-introduce one of his father's bills when he was in Congress: [Rep. Paul, Ron \[R-TX-14\]](#) (Introduced 06/15/2007 & again in 2009): To abolish the Board of Governors of the Federal Reserve System and the Federal reserve banks, to repeal the Federal Reserve Act, and for other purposes.

There was not a single co-sponsor. Why? Because without the magical money machine printing "money" out of thin air to fund all the unconstitutional spending, CONgress would have to follow Art. 1, Sec. 8 of the U.S. Constitution. In 2009, Rep. Ron Paul wrote a best seller, *End the Fed*. Amazon gives an excellent summary; also available on audio and Kindle.

I wrote about this before, but if one reads Nomi Prins 423-page book (not counting 98 pgs of banking glossary/terms, footnotes, etc): ***All the Presidents' Bankers – The Hidden Alliances that Drive American Power*** you will get a remarkable historical accounting up to 2014 when her book was published. I couldn't put it down. Amazon has it on Kindle and audio.

Andrew Jackson, a Democrat and 7th president of these united States of America [took on the central bank](#): "The greatest party battle centered around the Second Bank of the United States, a private corporation but virtually a Government-sponsored monopoly. When Jackson appeared hostile toward it,

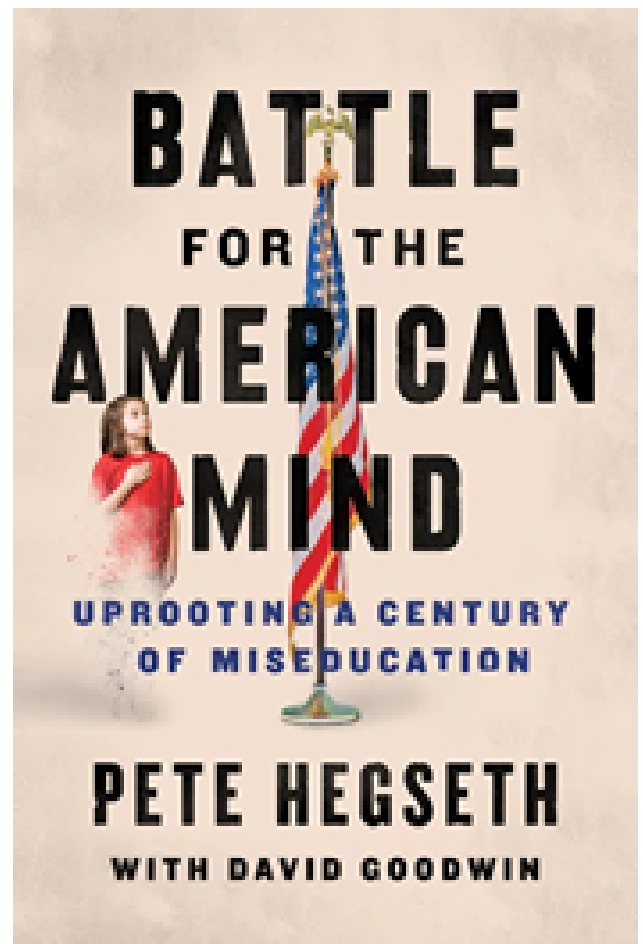

the Bank threw its power against him.

“Clay and Webster, who had acted as attorneys for the Bank, led the fight for its recharter in Congress. “The bank,” Jackson told Martin Van Buren, “is trying to kill me, but I will kill it!” Jackson, in vetoing the recharter bill, charged the Bank with undue economic privilege. His views won approval from the American electorate; in 1832 he polled more than 56 percent of the popular vote and almost five times as many electoral votes as Clay.”

[Rep. Massie Introduces Federal Reserve Board Abolition Act to “End the Fed”](#), May 16, 2024 – “WASHINGTON, D.C.- Representative Thomas Massie (R-KY) announces the introduction of H.R. 8421, the *Federal Reserve Board Abolition Act*. Rep. Massie’s legislation abolishes the Board of Governors of the Federal Reserve and the Federal Reserve banks. It also repeals the Federal Reserve Act, the 1913 law that created the Federal Reserve System.

“Americans are suffering under crippling inflation, and the Federal Reserve is to blame,” said Rep. Massie. “During COVID,

the Federal Reserve created trillions of dollars out of thin air and loaned it to the Treasury Department to enable unprecedented deficit spending. By monetizing the debt, the Federal Reserve devalued the dollar and enabled free money policies that caused the high inflation we see today.”

“Monetizing debt is a closely coordinated effort between the White House, Federal Reserve, Treasury Department, Congress, Big Banks, and Wall Street,” Rep. Massie continued. “Through this process, retirees see their savings evaporate due to the actions of a central bank pursuing inflationary policies that benefit the wealthy and connected. If we really want to reduce inflation, the most effective policy is to end the Federal Reserve.” Read the rest at link.

[Trump has reportedly held secret talks with Jamie Dimon for months about White House agenda](#), Nov. 29, 2024 – Dimon is CEO of JPMorgan Chase (I’ve never had any business relationship with them and won’t), the largest bank in the world (some say one of four).

Of course, Massie’s bill will die before Dec. 31st. This time there are at least a few cosponsors who understand this critical issue. [Bill is here.](#) [H.R. 8421: Federal Reserve](#)

[Board Abolition Act](#) Republicans now hold the power in both chambers of CON-gress come January along with Trump in the power seat to sign a bill because we will never become once again a prosperous nation of FREEDOM loving Americans. The 'national debt' will sink our ship for good.

When I say cosponsors who actually understand this issue, it brings me back to Dr. Nehls book and something called Chronically inhibited hippocampal neurogenesis. **What's being done to your brain.** On page 54 he provides an easy to understand "vicious cycle" all boiling down to mental resilience. Just watching so many embracing and support the dangerous COS is a perfect example, I think.

In the final chapter of his important research, **yes, there is a solution and what people (not just here in the U.S.) really need to understand if we're going to survive the maniacs pushing humans to accept what is NOT acceptable.** That is what makes his book, *The Indoctrinated Brain: How to Successfully Fend Off the Global Attack on Your Mental Freedom* so different and important.
