

The Internal WAR for America

Circa 2025

Until tanks roll in the streets and fighters fly overhead, most Americans remain completely unaware that there is a critical ongoing WAR for the future of the USA underway. Since at least 1913, the WAR was largely waged in the political arena, with the [Charters of Freedom](#) being shredded piece by piece via legislative and judicial actions. Since at least 2009, the WAR has evolved into a battle of false propaganda, finances, lawfare, staged riots and murder.

The recent “[NO KINGS](#)” event across the country wasn’t just well organized and promoted, it was also extremely well financed, to the tune of over \$294-million. (*Detailed list of financiers below*) Click the chart to enlarge.

The simple truth is, Obama kept his 2008 campaign promises...

1. He has indeed “**fundamentally transformed America**” at least for now. His vision for the USA is what we see in our streets today.
2. He did created his “**citizen army**” in the form of BLM, ANTIFA, the “**NO KINGS**” and Pro-Hamas groups, as well as the young socialists and communists.
3. He **weaponized the entire Federal Government**, every agency, including the federal courts, Department of

Justice, the FBI, NSA, CIA, IRS, and Department of Defense, against his political opposition and their supporters.

And he got away with all of it, until the most fraudulent election in world history happened in 2020. The fraud was just so massive and obvious that even the government and their controlled news media couldn't keep it all covered up.

Even today, millions of his deaf, dumb and blind useful idiots still think the man is the greatest President in U.S. history, despite all the damage we see everywhere today.

Despite all of their efforts to seize power and destroy our country from within, the vast majority of Americans are waking up to the reality of what has been done to them.

That's When The WAR Moves into the Streets

For years now, as the political LEFT was busy painting itself into a left-extremist corner and the final demise of the Democrat Party kicked into high-gear, I warned that when they were finally out of power to con the American people any longer, out of room to run, out of ideas for how to keep their train on the track, they were going to go "scorched earth" in cities all across the country.

*"A **scorched-earth policy** is a military strategy of destroying everything that allows an enemy military force to be able to fight a war, including the deprivation and destruction of water, food, humans, animals, plants and any kind of tools and infrastructure."*

Except in this case, it won't be the U.S. Military activating the "scorched earth" mission. It will be Obama's "citizen army."

The Democrats in the U.S. Senate shut down parts of the federal government to ignite the fuse. They have voted twelve

times now to keep it shut down, knowing that the funding bill they are voting against results in the defunding of “Social Welfare” programs like SNAP and EBT benefits for their own constituents.

Of course, the SNAP and EBT recipients are dog-whistle trained to blame Trump, and they are threatening to steal whatever they want once these benefits are not available in a few days, while they rush to stores to grab everything they can in advance.

However, the funding for those benefits and numerous other things are in the [clean continuing resolution](#) passed by the House 21 days ago. It’s primarily [Senate Democrats](#) holding up the funding needed for the continuation of these benefits, although one Republican, Rand Paul, and one Independent, Bernie Sanders, have been voting with 43 democrats to withhold this funding.

It takes 60 senate votes to fund it all. In typical democrat fashion, they are not actually voting against this funding. Instead, 43 democrats, 1 republican and 1 independent are voting to not allow the resolution to be brought to a vote at all.

[This is the Trigger](#)

Democrats at every level, voters and their political leaders, have been [inciting violence, riots, even murder and assassinations](#) for months now.

The minute their SNAP, Section 8 housing, and EBT cards stop working, blue cities across this country are going to burn. That’s been the leftist plan all along.

[Look no further than right here](#) to understand how these groups have been systematically brainwashed into the actions they are taking today.

Meanwhile, the interruptions in infrastructure services are being hacked and taken offline with increasing regularity.

I will be writing on this more as events unfold, so stay tuned and in the know. Below is the list of Financiers of Evil.

Who is funding the movement to Make America Great Again? If it isn't you, then it's nobody!
