

# The Mess Of Legal Immigration: Multi-Cultural Invasion – Environmental Consequences

## Part 1: Importing crime, drugs, diseases and cultural chaos

If you ask average Americans about legal immigration, you hear responses mostly in the positive. Except if you ask Americans from Chicago, Los Angeles, New York City, San Francisco, Miami and other immigration-overwhelmed cities. Most of our major cities, where welfare departments cater to legal and illegal immigration, find themselves flooded with immigrants from around the world.

So much so, that you, the American taxpayer, shell out \$330 billion a year in welfare funding across 15 federal agencies.

Recently, I talked to Mr. David Durham, director of [CarryingCapacityNetwork.com](http://CarryingCapacityNetwork.com) and [Balance.org](http://Balance.org). His websites expose the stunning amount of money you pay for legal and illegal immigration.

Durham states, “Yet another Multi-National Caravan is headed North to our Southern Border and the overwhelming Evidence is that Illegal Migrants/Asylum Seekers come from Scores of Different Countries and Cultures with Values which reflect little or no Regard for the Environment.”

Consider the following Environmental Threats:

“Gypsies Threatening America, Defecating Everywhere and Beheading Chickens” via Pittsburg Post-Gazette & Tucker Carlson re Roma Asylum Seekers Invasion of Pennsylvania Town.”

“Lima River in Peru and Ganges in India and Yangtze in China are ‘Running Sewers’ and People in those Countries have absolutely no regard for Environment whatsoever.” International Trekker, F. Wooldridge Personal Observations

### **Disease Threats**

“‘Crisis’ of Seriously ill Migrants Slams Border Patrol – TB, Pneumonia, Influenza, Parasites’ Federal agents are referring 50 illegal immigrants a day for urgent medical care’ The MSM never reports this and open border advocates vehemently deny this fact. Look what these alone are costing U.S. taxpayers.

“Weeks after mainstream media outlets reported that illegal immigrants don’t bring disease into the United States, the Border Patrol reveals that it is getting slammed daily with

dozens of illegal immigrants carrying 'serious illnesses.' This includes tuberculosis, influenza, and pneumonia. In fact, a Guatemalan migrant who died in U.S. custody on Christmas Eve, had Influenza B, a virus that causes respiratory infections.

"Federal agents are referring 50 illegal immigrants a day for urgent medical care, according to figures obtained by Washington D.C.'s conservative newspaper. Authorities say, 'it's unlike anything they've ever seen before.' Many of the migrants have tuberculosis, parasites or the flu, the feds confirm.

"There are also lots of pregnant women about to give birth.

"Judicial Watch has interviewed medical experts that confirm illegal immigrants do indeed pose a serious public health threat to the U.S. by bringing dangerous diseases into the country. This includes tuberculosis, dengue and Chikungunya.

"After returning from covering the Central American caravan along the Guatemala-Honduras border, Judicial Watch spoke with a prominent physician in a border state who warned that the migrants will undoubtedly bring infectious diseases into the U.S. Among them are extremely drug resistant strands of tuberculosis and mosquito-borne diseases such as dengue and chikungunya that are widespread in the region."

**Cultural Environment Threats – Child-Bride Approvals – Thousands!**

Washington—Thousands of requests by men to bring in child and adolescent brides to live in the United States were approved over the past decade, according to government data obtained by The Associated Press. In one case, a 49-year-old man applied for admission for a 15-year-old girl.

“The approvals are legal. ... U.S. Citizenship and Immigration Services goes by whether the marriage is legal in the home country.”

“There were more than 5,000 cases of adults petitioning on behalf of minors and nearly 3,000 examples of minors seeking to bring in older spouses or fiancés.”

“Some victims of forced marriage say the lure of a U.S. passport combined with lax U.S. marriage laws are partly fueling the petitions.”

“‘My passport ruined my life,’ said Naila Amin, a dual citizen from Pakistan who grew up in New York City.”

“She was forcibly married at 13 in Pakistan and applied for papers for her 26-year-old husband to come to the country.”

“‘People die to come to America,’ she said. ‘I was a passport to him. They all wanted him here, and that was the way to do it.’”

“Amin, now 29, said she was betrothed to her first cousin, Tariq, when she was just 8 and he was 21.”

“Overall, there were 3.5 million petitions received from budget years 2007 through 2017.

“Over that period, there were 5,556 approvals for those seeking to bring minor spouses or fiancées and 2,926 approvals by minors seeking to bring in older spouses according to the data.”

Fraidy Reiss, who campaigns against coerced marriage as head of a group called Unchained at Last, researched data from her home state of New Jersey. She determined that nearly 4,000 minors, mostly girls, were married in the state from 1995 to 2012, including 178 who were under 15.”

What am I finding in my research of legal immigration into the

USA? Answer: our own 535 Congressional representatives undermine the foundation of our culture, our marital laws and our Western democracy. Your two senators and your House member approve this travesty of ethics, morality and our laws.

You're urged to visit [CarryingCapacityNetwork.com](http://CarryingCapacityNetwork.com) and [Balance.org](http://Balance.org) to find out for yourself how Congress sends our country into a spiraling third world future of entrenched poverty, generational welfare and complete destruction of America's culture and way of life.
