

The next Orlando: Americans will still be unprepared

I have wondered how the 'home grown terrorist' managed to get his weapons in that nightclub in Orlando? Contrary to the ignorance abounding out there, Mateen did not use an AR-15 assault rifle. He used a Sig Sauer MCX carbine.

Killer Mateen also used a Glock 17. Both purchased legally after background checks. One has to wonder how that was possible considering his prior interaction with the FBI? Many have made a big deal that waste of human skin was a Democrat who supported Hillary the Hun. Doesn't matter. He did it for Satan's Soldiers aka ISIS, not the Hildebeast.

From eyewitness accounts, Mateen walked in the door and turned to the right. Apparently the layout of that nightclub has two separate sides. Anyone who has been out and about in this country knows that just about all nightclubs have a bouncer and ID check person at the door. I was in Miami and some other cities up the coast many years ago. Nightclubs in Florida can and do stay open until 5:00 am.

I can tell you the clubs I visited in my youth, just like in other cities across this country all had bouncers at the front door and ID's were checked; liquor licenses are at stake. Was there someone checking IDs or a bouncer who did both at that nightclub? If so, how in the hell could Mateen have gotten by him?

How was it Mateen was able to walk right through the front door with a gun that has a 16" barrel? It's summer time in Florida and no one walks around in a heavy long coat unless you're trying to hide something. There's also the credible eyewitness accounts of victims who are certain there was more than one shooter. This from Janiel Gonzalez:

"He said he heard another gun from a different direction, so he wonders if there were two gunmen...<>"In a moment of desperation we were all crawling on the floor trying to find a place to exit. I looked to my right and I could see people going through some curtains. We were digging through the curtains and found a door. " But he said the door was blocked by a man. He wasn't sure if it was a club security person or an accomplice to the gunmen.

"Fifty people were trying to jump over each other trying to exit the place. There was a guy holding the door and not letting us exit. He's like 'Stay inside, stay inside.' As he is saying that, the shooter keeps getting closer and closer and the sound of the bullets is getting closer. Everyone starts to panic. People are getting trampled. Let us out, let us out!" Gonzalez' first thought was that it was a hate crime. "This guy is trying to prevent us from leaving. Maybe they're working together," he said. "I'm pretty sure it was more than one person. I heard two guns going at the same time. It was very, very crazy."

Gonzalez was sober and his account is very close to other victim eyewitness accounts. So far the FBI says Mateen was a lone shooter. His wife has been a target of investigation and in my opinion, just like San Bernadino, knew exactly what was going to happen since they had previously 'cased' Disney World. Much to the humiliation of that foul piece of baggage, AG Loretta Lynch, somehow Noor Salman, the wife, has up and disappeared. Yep. My guess is she had multiple, forged documents and likely is no longer in the U.S. , but we'll see.

4 Pieces of the Orlando Shooting Narrative that Don't Add Up

"It has also been documented that the FBI introduced Mateen to FBI 'informants' while the FBI was investigating him for almost a year: "FBI investigators investigated Mateen, who was born in New York, for 10 months. They introduced him to confidential informants, spied on his communications and

followed him. They also interviewed him twice.” [Source] And, still he passed a background check? Who was he working for? One has to ask if it’s the same as the James Wesley Howell below is claiming he was recruited by.

I believe Orlando was directly tied to another massacre, San Bernadino. read: Philip Haney: Orlando Shooting ‘Remarkably Similar’ to San Bernadino, ‘There’s a Lot of Overlap in the Two Networks’

Networks – key word. As I cited in my column last week, there’s more. G. Edward Griffin: This Story Could Be the Smoking Gun For All False-Flag Ops

“Santa Monica: Two police officers who wish to remain anonymous for fear of retaliation say that James Wesley Howell, an Indiana man who was found with a car full of explosives and weapons on Sunday morning, told police he was part of a team that planned shooting attacks on gay communities in Florida and California.

“Howell told police he was turning himself in because he wanted protection. His story was that he had been assured by his recruiters that he would not be harmed in the shooting but, when he heard on the news that Omar Mateen, the lead gunman in the Orlando group, had been killed by sniper fire, he realized he was being set up as a patsy and would be killed.”

I had the pleasure of meeting G. Edward Griffin many years ago in the DC area. His credentials are impeccable and he knows that he’s talking about.

Now this one shocked me and that’s not easy to do. It also contradicts what victims said about the people around them dying. The video clip of Judge Andrew Napolitano appears to be genuine. If someone can find the official FBI transcript Napolitano was reading from I’d sure like to see a copy of it.

Judge Napolitano: "Nobody died until 05:13 in the morning"

FBI team from Quantico to reconstruct Orlando shooting scene:
"In Monday's news conference, Orlando Police Chief John Mina said the investigation will determine whether any inside the club were killed by "friendly fire."

Americans need to understand one thing: Muslims do not assimilate they infiltrate to achieve their goal of a world caliphate. And, Griffin is right. If you type in the name James Wesley Howell into a search engine all sources from 'mainstream' media like USA Today and others makes no mention of the above. I did find one other source:

Howell and Four Other Suspects Involved in Planned Sunday Massacres

"According to the LA Times, Santa Monica Police Chief Jacqueline Seabrooks initially said on Twitter that the 20-year-old Indiana man (James Howell) told one of her officers after he was arrested that he wanted "to harm the Gay Pride event."

"However, after the FBI quickly took over the case, a Santa Monica police spokesman Saul Rodriguez indicated that Seabrooks was mistaken and offered that the Santa Monica detectives who were working the case are "not aware of what the suspect's intentions were at this point."...

"The real truth of the story was released to a former Los Angeles County prosecutor who works for Get Off the BS by two Santa Monica police officers that have been issued gag orders under threat of Federal prosecution for talking further talking about the incident. According to two department sources, Howell called the Santa Monica police on Sunday morning claiming that he needed protection from the CIA. Howell further elaborated to the dispatcher stating that he "had been set up by the CIA – they are going to kill me."

“According to Howell, he was in LA to meet with another person in a collaborated attack on the gay communities in both Florida and Los Angeles. Howell additionally stated that, “everything has gone south. Dan was gone when I got here. They killed the leader of the Florida attack this morning. They are going to kill me. I need protection.”

“According to sources within the police department’s investigation Howell indicated to officers who first made contact with him that Howell claimed he was one of five people involved in a planned Sunday attack on both the east and west coasts.” Do take the time to read the rest of that piece above, it’s important.

Next question: Who are the recruiters Howell refers to? My money is on a wall of silence by the Santa Monica Police Department and for sure the Feds. The only way to pry open that can is either a Freedom of Information Act request (and eventual lawsuit) or under California’s Records Act and even then it will take a heavy like Judicial Watch to make it happen.

After Orlando we witnessed one of the most asinine displays to foolery I’ve seen in my life. A so-called sit-in by members of the Democratic/Communist Party USA on the floor of the U.S. House of Representatives. Led by Rep. John Lewis, they all sang ‘We shall overcome’, popular during the early days of the civil rights movement. That song has nothing to do with a Muslim terrorist slaughtering innocent people. 170 of those ignorant fools, male and female, sat on the floor for hours eating donuts to pad their blubber bellies. Had the Founding Fathers been alive at this time I believe a few of them would have bitch-slapped those morons and told them to man up and stop making fools of themselves.

The purpose of that circus was to force a vote to ban assault weapons. Since Republicans hold power in the House those useful fools knew it wouldn’t happen. Those despicable

congress vermin used Orlando to raise money for campaign coffers.

Since Orlando, sales of AR-15's have blasted through the roof. Homosexuals are flocking to gun stores; hopefully they are also going to take some firearms safety training. But, a few thousand individuals running around with guns isn't going to stop the next Orlando and it will happen.

Since Orlando, the NRA has been running non stop ads about owning a firearm for personal safety. Last week Dr. Edwin Vieira wrote a two-part series regarding the NRA and their refusal to recognize the true meaning of the Second Amendment. On March 8, 2005, Edwin wrote a column titled, "Homeland Security" – For What and For Whom? Over a decade later here we are no closer to ending the constant assault on the Second Amendment and an organization like the NRA with millions of members are still chasing their tails around in a circle. The NRA still refuses to recognize or even understand 13 very important words in the Second Amendment. See bold below.

Homeland Security and the Second Amendment are married. It is illogical to think millions of gun owners are going to be effective without organization and authority as "A well regulated militia, being necessary to the security of a free state, the right of the people to keep and bear arms, shall not be infringed. "

One thing Edwin wrote in one of his very early columns on this web site on the Second Amendment went something like this: If your state legislature passed a bill (as did Arizona several years ago, but it's weak) which gets signed into law reconstituting the constitutional militia, tens of millions of Americans would become part of that body and most important – they would all have to attend constitutional classes to get a full understanding of the founding of this country, the meaning of the Constitution and a republican form of government. They would become educated on the historical role

of the constitutional militia and why their participation IS homeland security. Yes!

As I wrote in my new book long before Orlando, the day is coming when there will be multiple hits at the same time possibly on opposite coasts which I believe is the case in the Santa Monica piece above. A parade is just another gun free zone just like the Orlando night club.

Now more than ever the constitutional militia as defined in the Second Amendment must get reconstituted in as many states as possible. We've got militant, America hating Mexican organizations just waiting for the right time (the re-claim OUR four border states traitors), THOUSANDS of illegals flooding across the border EVERY DAY and anyone who thinks terrorists aren't among them is just plain stupid. And now this self-made problem with Muslims in this country determined through violence if necessary to become the majority and force Sharia Law down our throats.

You and your family, your friends – we are all at risk right now. There's no time for fun or weekend activities out in the sun shine. I know because I gave it all up 26 years ago when I began my research that was so scary I gave up my career and a paycheck. We are living in the most dangerous time since the Revolutionary War. I know time is an issue which is why I attempt to bring you the best sources to learn what we must do – NOW.

One final piece that is a must read because the author is 100% on the money: Orlando and the Vegas Donald Trump Assassination Attempt Connection. (BTW: that web site is one I read on a daily basis and so should you)

Neither the Secret Service, the FBI nor Homeland Security is going to save your life. The author of the piece above lays it out there for all to read. The ONLY real solution is what I have written above.

COMING JULY 16: Devvy's New Book, "Taking Politics Out of Solutions": Accepting Pre-Orders

Read:

- 1 – Who Regulates "A Well Regulated Militia"?
- 2 – Donald Trump and The Militia
- 3 – Muslims Don't Assimilate, They Infiltrate by Lawrence Sellin, Ph.D., a retired colonel with 29 years of service in the US Army Reserve and a veteran of Afghanistan and Iraq.
- 4 – Thirteen Words by Dr. Edwin Vieira – give a copy to your sheriff and state rep.

- 2 – Obama Designates Gay Bar As Latest National Monument

[Just a short note about 9/11 and Smart Electric Meters. The cost of America's undeclared "war" (invasion) in Afghanistan has now reached \$1 trillion borrowed dollars – massive debt heaped on us all based on what happened on 9/11. Regular readers of my column know I continue to press for the truth about the events of 9/11. Military grade nanothermite is not a conspiracy theory. It was found and tested from the rubble at the twin towers. A new, powerful film has been released: The Anatomy of a Great Deception. Just released: New Expanded Global Edition. For full disclosure I receive no compensation, but I want you to get a copy (or a few) and share it with others or give a copy as a present. I've purchased half a dozen copies and given them to individuals I believe seek the truth. It's very powerful simply because it's one 'ordinary' man's story who ask a simple question that led him to a not so simple journey. There is factual information in this film that many have never heard about but everyone should. Just a suggestion, order more than one and give one to a friend. Also, must see video on the dangers of Smart Meters on your

home, titled: Take Back Your Power.]
