

The Official Start of the Obama/Biden Coup

By Kat Stansell

December 31, 2025

Election day, 11/3/2020, and the Secret Government Meeting That Afternoon

“Those who have known freedom and then lost it, have never known it again” –Ronald Reagan

Honest elections are the sine qua non of our freedom. Without them, we are lost.

The meeting referenced in the title above was called by Homeland Security’s Cybersecurity and Infrastructure Security Agency, CISA, on the afternoon of the 2020 Presidential election. I have the list of attendees, by name and organization. Interestingly enough, GROM says it does not.

What I have learned will, I believe, convince you that this meeting was the official beginning of the Biden/Obama Coup against America. Bear with me. I’m going to jump around a bit...

One week later, after Election Day, on Nov. 11, 2020, “POTUS”-to-be Joe Biden warned of a dark winter and began the official Covid scam, costing millions of dollars and millions of lives; those deaths continue to this day, and the Coup was off to the races. The results did not become official until the electors from the states cast their ballots, of course, but Joe just had to bring people down faster, imho.

January 6, 2021, of course, was the purge that always follows a coup.

Then, for the remainder of the OBiden regime, Americans were treated differently than ever before – as if Lady Liberty's torch has been extinguished. Between Covid when you were not permitted even to go to church, the border invasion, the economy getting sicker and sicker, our food sources being destroyed, and the FBI treating freedom to say and do as a capital offense, Americans suffered. Thousands died from the flu that first year – AND FAMILIES WERE NOT EVEN ALLOWED TO BE AT THEIR BEDSIDES. Hospitals raked in "Covid money" for every patient, many of whom were mistreated or killed.

Before we get to the nationwide Zoom meeting, held on the election day afternoon 2020, I want to draw on history, which many have already forgotten. It always explains a lot.

Before George Bush 43 took office with the Florida hanging chad game in 2004, elections were the responsibility of the states.

The 2004 FL "hanging chads" (the tiny bits of punched ballot cards which stuck in place and were said to cause changes in voters' selections as the ballot was read by the machine) were used to bring national attention to election procedure. And to convince hoards of howling Democrats that elections could be stolen. Counties in Palm Beach had been experimenting with vote fraud twenty years before this; see the book, VOTE SCAM by the Collier Brothers. Florida has history.

The "chad election" of 2004 was the election after Bush had established the Department of Homeland Security, DHS, post 9/11, ostensibly to keep track of our foreign enemies. Hold that thought. There will be another article soon, on the Bushes.

In reality, the DHS was utilized to surveil and attack American citizens, as we now know. Much of this was to

frighten America into falling in line with the Globalists and “do as you’re told”, not what your freedom allowed you to do and be, before. During the OBiden regime, Grannies who prayed outside abortion centers were thrown in jail; fathers of religious families were captured by the FBI breaking into their homes and terrifying their children; associates of Trump45 were hauled away and jailed for trumped-up charges. Ask Roger Stone, Rudi Giuliani, Peter Navarro, Paul Manafort, Steve Bannon, George Papadapolous and others about the Marxist-style attacks.

See what the 2020 election was for, and why it was so important to effectuate the steal? All this was planned.

But, I’m jumping ahead. Sorry.

After the shock of Donald Trump’s election in Nov., 2016, the treasonous gang behind Obama, dried their tears, cleaned their pants, and set to work to control our future and lead us into serfdom. Hillary was supposed to have won and directed that effort! But, the gang bounced back very quickly, and moved ahead without her. She needed to drink for a while.

Two things of note, happened in early Jan., 2017:

FIRST, on the very day of Trump’s inauguration, a woman named Amanda Littman, Barrack and Hillary’s email writer, started “Run For Something” an organization which found, trained and financed young socialists to run for local offices around the country. Since launching in 2017, RFS has elected more than 1500 leaders across nearly all 50 states, mostly women and people of color. The young candidates lied when they had to in more conservative areas, but many were elected, even taking out older Democrats in the process.

RFS claims that after the election of Trump47, more than 5,000 have signed up to run for office; possibly, they say, even the Senate.

They are angry and they are funded. If you follow the Meow, you know I've written about this before. Please update yourself with this link. It's "need to know" stuff, for your local elections, today and forward.

SECOND, In January 2017, immediately after the election of Trump45, and days before his inauguration, Obama's outgoing DHS Chief, Jeh Johnson, officially designated election infrastructure as critical infrastructure, and created CISA, thereby making oversight of our elections a task of the US government. The reason, of course, was put forth as all those "cyberattacks" by foreign players like Russia, on state elections systems.

CISA's mission, from their website, is to protect the nation's critical infrastructure from physical and cyber threats, and it has since expanded its role in areas like AI and election security.

In essence, the Left federalized our elections, and has used that to get into every corner of our lives.

I share all this with you, at the risk of making this too long to absorb. But it is important that everyone understands. how we got to where we are. The Deep State keeps thinking that they have us securely in hand, then Donald Trump happens, and they go crazier each time he reappears. They have even tried to kill him twice, and God denied them. Brings whole new meaning to "Thank God!" But they know they have only one chance left, and that is steal the vote in 2026.

That is literally, all they have.. Their party is in shambles, and bleeding criminals from every pore. They are without leaders or platform – OR MONEY, which might beg the question as to why Kamala picked the dumpster fire MN Governor as her VP> Might she have been after those Somali funds to finance her campaign??

The Left desperately needs election fraud. Which brings me to

that Nov. 2020 meeting, when, it is my belief, they had the OBiden coup all planned, and were meeting to check on the progress of the 2020 steal.

Donald Trump, despite TWO ridiculous impeachments, and attacks against his inner White House team, had caught the attention of America. We could feel the fresh breeze beginning to blow, and intended to reelect him as "46". Let me correct that. We DID elect him as "46", but the Marxist Left could not have that. They had a plan.

I believe that elements of that plan were the subject of the 11/3/2020 CISA meeting.

The meeting was by Zoom, at 2 p.m. EST, on that day. There were approximately 200 on the call. I have the list of attendees, obtained by a FOIA request by an online news channel. There is no word that I can find about the agenda of the day.

The attendees were a rather odd lot.

The "business" attendees were: Amazon; AP; the FBI; Arikkan; ERIC (the Electronic Registration Information Center); Microsoft; Dominion Voting, Bluecrest (print and mail); Runbeck, VR Systems, Scytll, Voting-Works, Votem, Democracy.Works, Democracylive.com, Electioniq.com, DF Mass Associates, Diebolt, Essvote.com, Hartic, KH Print, Knowink, NTS Data, Provander, Smartmatic, Unisyn Voting, Tenex Solutions, Victor Envelope, Voatz, Votec, Lafayette Group, Crowwing, Praetz Consulting, the Canton Group. The only one I cannot find is "Crowwing", but I get the term as what they would be doing if they pulled it all off.

From Government, a dozen or more from CISA, EAC (Election Assistance Commission), and several dozen more from certain states election depts.: FL (Laurel Lee, Shelby Bishop and Jennifer Kennedy); MI (Jocelyn Benson); NM (Maggie Toliver + 2); Louisiana (Kyle Ardoin); VA (Chris Piper); IA (8 including

SOS Paul Pate); SC, WA State(Laurie Agino). Other states present were VT; IN: ME; NJ; OH; RI; CT; and TN.

There are one or two puzzles bout the attendees, though. For instance, a "Julie Jones, TN", was listed as an attendee, but I found that Julie Jones was not working for Mark Goins, the TN Supervisor of Elections in November, 2020, the only other person from the Volunteer state on the list. Rather, she was appointed as Deputy Chief Financial Officer of the Florida Department of Financial Services in December 2020. Interesting. Did she move from TN to Florida to work for another state election group? I could find no one named "Julie Jones" working in TN.

Mark Goins who is the State Elections Coordinator for Tennessee, was then chair of the EAC (Election Assistance Commission) Standards Board. Despite the TN brag, that they have the country's most secure elections, Goins is very defensive when questioned about things to do with voting. He has told me, personally, that some activists (whom I know personally but will not name) are just "pains in the ass," when they question any part of the procedure. In reality, they are very nice but committed patriots, but somehow make Goins uncomfortable.

The most important thing to note is that there were NOT representatives of every state at this Nov., 2020, meeting called by CISA.

That is one of the main facts that tells me the attendees were NOT a group overseeing the security of the national vote. The crowd of 200 on the Zoom call that day consisted of many notorious BLUE states, AND and some who have Secretaries of State which do not answer directly to the citizens of their state. Cord Byrd of FL, for example. But NOT reps from all 50 states at the election day meeting. Why?

The call list itself was a group of "odd bedfellows". What on

earth were Amazon, the AP, the FBI, Microsoft and ERIC (the voter fraud system that saves and shuffles addresses for future use) doing all together on the afternoon just before the 2020 results began to come in? Making sure that toilets backed up in Atlanta, and semi trucks had all the ballots they needed to drop off in Michigan? Yeah.

There is NO RECORD that I can find (without a FOIA) that tells anything about the agenda of the CISA meeting, or what was said during the call.

Just FYI, the states which have Secretaries of State that are not accountable to the citizens are: FL, NH, OK, TN, TX, VA, DE, ME, NJ, MD, NY. Check this website for your state, and your chance to control those who control our elections, which is as it should be.

Let me just say this: There IS an enemy within our nation, and it is NOT just Muslims or drugs, gender dysphoria or family disintegration. As if those weren't horrible enough. Our enemy is those who want to take down this Republic, and they live among us.

Any and all of Donald Trump's achievements, and the progress we have made in the last year, are useless without honest elections. Everyone knows it, but all must admit it, understand the incredible depth of the fraud, know the players, AND PLEDGE TO HELP SECURE MIDTERMS> 2026. We MUST WIN in 2026.

Here we all are at another "off the couch and out the door" moment. I believe that it is the most important one of our lives. Contact your election officials, AND the White House. Push hard for voting in person (VIP), with watermarked paper ballots without machines! Or some semblance thereof. The most important choices of our lives cannot be subject to manipulated machines.

One positive note, though, is that I hear that our President

has finally been able to break through the fog of treachery with he is surrounded at 1600, and is ready to act against election fraud.

When the New Year of 2026 dawns, make sure he knows that you demand it.
