

The Overwhelming Evil of the Global Slave Market

By Kelleigh Nelson

July 18, 2023

[UPDATE: By the way, I asked a friend of mine who has met with Tim Ballard if he is for chipping children, and Tim said “Absolutely not. We try to think of everything we can to protect them, but we don’t want the government involved.” More and more lies to discredit Tim Ballard’s work, and the truth of human trafficking and the global slave trade.]

Government, even in its best state, is but a necessary evil; in its worst state, an intolerable one. –Thomas Paine

Throughout history, it has been the inaction of those who could have acted; the indifference of those who should have known better; the silence of the voice of justice when it mattered most; that has made it possible for evil to triumph. –Haile Selassie

Silence in the face of evil is itself evil: God will not hold us guiltless. Not to speak is to speak. Not to act is to act. –Dietrich Bonhoeffer (1906–1945)

Over the centuries, mankind has tried many ways of combating the forces of evil... prayer, fasting, good works and so on. Up until Doom, no one seemed to have thought about the double-barrel shotgun. Eat leaden death, demon. –Terry Pratchett, author

Recent research has shown that traffickers are no longer just

kidnapping individuals off of the street, but they are now employing new tactics to find their potential victims. There is one absolute commonality amongst the victims of human trafficking; the loss of personal freedom. –Asa Don Brown, author

The latest Jim Caviezel movie, [Sound of Freedom](#), is absolutely riveting. Everyone should see it. Brilliantly done. Stay thru the credits as Jim then speaks to the audience. He tells us, once you know it is happening, you must work to stop the evil. Jim asks the audience, “Can we love God’s children more than we fear evil?”

The movie beat out Disney’s highly-anticipated “Indiana Jones and The Dial of Destiny,” among others, [Box Office Mojo](#) reported. Sound of Freedom, which exposes the horrors of human trafficking, scored \$14.2 million at the box office (\$11.5 million at the direct box office combined with another \$2.6 million from [PAY IT FORWARD](#) tickets sold), per a release from the studio. By July 10th, it had [raked in \\$40 million](#). The [Federalist Papers](#) are telling us the film is likely to break \$100 million in gross receipts.

“The Sound of Freedom brings this truth to light,” said Bob Unanue, President and CEO of Goya Foods, and Executive Producer of Sound of Freedom. [Goya Cares](#), inspired by the movie, is a global initiative dedicated to combating child trafficking and educating on child mental health.

Jim Caviezel and Mel Gibson filmed this movie in 2018; it has taken them five years to get it into theatres. Everyone fought against its theatre release.

Fox News [reported](#), “The Guardian and website Jezebel claimed that the film starring Jim Caviezel, which was based on the true story of a U.S. Homeland Security agent rescuing two young children from human traffickers in South America, was attached to QAnon, a right-wing community that has been accused of buying into fringe conspiracy theories.

“Although the film, produced by Angel Studios and released over the July 4 holiday, never engages in such conspiracy theories while exposing the underbelly of the real underground sex slave trade, both outlets linked the film to fringe right-wing extremists in an attempt to discredit it and its box-office success.”

Tim Ballard defends the movie against claims it's QAnon porn.

The reality is that Hollywood, mainstream media, CNN, Washington Post, Media Matters, Rolling Stone Magazine and every leftist outfit is attacking the true story of Tim Ballard's heroics, saving the lives of sex-trafficked children as portrayed in Sound of Freedom. They've coordinated their reporting with the lies and nonsense of QAnon.

Why is the left so desperate to shut down a film that exposes the child sex trafficking industry?

And who are they protecting?

Sound of Freedom is based upon the true story of former government agent Tim Ballard who quit his job to rescue a little girl from sex traffickers in the Colombian jungle. In the process, Tim ended up saving 123 people, 55 of which were children, from one mission alone.

Human trafficking is the intentional forcing of another into

slavery.

The [global estimates for 2022](#) are shocking. Worldwide, there are 24.7 million victims of human trafficking, 20.1 million labor trafficking victims, 4.8 million sex trafficking victims, and globally, 99% of victims were women and girls.

Chipping the Children

Media is claiming Tim Ballard is promoting chipping of children. I asked a friend of mine who has met with Tim if he is for chipping children, and Tim said, "Absolutely not. We try to think of everything we can to protect them, but we don't want the government involved." More and more lies to discredit Tim Ballard's work, and the truth of human trafficking and the global slave trade.

However, Georgia has a [Child Identification Program](#). I would never agree with chipping and neither would I agree with fingerprinting my child. Data bases are not kept confidential. Government "protection" is just another way to invade your privacy and collect data on you and your children.

Chipping our pets has caused a rise in cancers around the chip sight. Why would we risk our children?

We no longer live in the 1950s. Today's America is far more dangerous than yesteryear. Adults must be with their children at all times.

Tim Ballard was the CEO and founder of [Operation Underground Railroad](#). He recently told Fox News [he had been forced out](#), just as was James O'Keefe of Project Veritas.

DOJ Removed Three Areas of Trafficking Concern

[Pedophile](#) Biden's latest ploy was to have the Department of Justice remove "International Sex Trafficking of Minors" from areas of concern. One America News Network [reported](#) three sections were removed from the "Child Sex Trafficking" webpage

– “International Sex Trafficking of Minors,” “Domestic Sex Trafficking of Minors,” and “Child Victims of Prostitution.” The timing is questionable with the success of Sound of Freedom.

The section was originally added by the Trump administration and used to highlight how international sex trafficking is a major problem in the United States.

As of [July 5th, 2023](#) Health and Human Services (HHS) said they had at least 6,127 unaccompanied children in its care. In FY 2022 the Department of Homeland Security (DHS) referred 128,904 unaccompanied children to the Office of Refugee Resettlement.

The move also came not long after HHS whistleblower, Tara Lee Roda, accused the U.S. government of being the “middleman” in a child trafficking operation. She testified before the House Judiciary Subcommittee on Immigration Integrity, Security, and Enforcement in April.

The State Department helped fund a film festival in September that [featured](#) movies depicting drag queens, incest, and pedophilia, the [Washington Free Beacon](#) has learned.

Our government promotes this evil with our tax dollars.

Biden’s Southern Border

Our southern border is wide open. There are more than 365,000 missing children in our country each year. Thirty percent of those missing are being trafficked (approximately 109,000 children).

As long as Biden incentivizes foreigners to illegally immigrate...Mexican drug cartels will continue to have a river of prey to rob, rape, abuse and exploit. A study predicts nearly [sixty percent](#) of unaccompanied minors crossing the border have been caught by cartels and are being forced into

child pornography and drug trafficking.

[Texas Public Policy Foundation](#) states, “Sophisticated transnational syndicates are notorious for using children to get single, adult males not just across the border, but through Border Patrol processing. Once these men are granted a stay, they smuggle the children back across the border where they will continue to be trafficked.

“In 2019, the Department of Homeland Security, under the Trump Administration, launched a pilot program that allowed for ICE to DNA test families that were deemed suspicious of fraudulent activity. This program was designed to help prevent minors from being trafficked or recycled, and it resulted in criminal charges for the adults exploiting them. Yet this program was met with great disdain by activist groups and lawmakers and is not being used by the current administration.”

Rep. Kat Cammack, who serves Florida’s Third Congressional District, tells us, “Over my five trips to the border, I have seen children as young as two months old being smuggled by coyotes across the Rio Grande. On my first trip to McAllen, Texas in 2021, I met a little girl who couldn’t speak because her vocal cords had been severely damaged by gang members who sexually abused her.”

On July 11, [Yahoo reported](#) that a headless child of two or three years old, washed up on a Spanish beach. These atrocities are reported every day throughout the world.

While traditional agencies focus on rescuing victims, [DeliverFund](#) equips the only people with the power to arrest traffickers—law enforcement.

“Our breakthrough tech tracks down human traffickers and unites law enforcement in the fight.

“While it’s generally believed that children are the prime targets for human trafficking, they make up 25 percent of the

40 million victims across the globe. That leaves 75 percent to adult human trafficking. According to the [2020 Federal Human Trafficking Report](#) published by the Human Trafficking Institute, child victims in active sex trafficking cases in the United States rose to 55% compared to 2019, and 45% for adults.

“These people are lured in using manipulation. Many times, traffickers will make false promises of upward economic mobility, job opportunities, and repayment of debt to make the offer seem enticing. All the while, the individual has no idea what they’re getting themselves into.

“In some cases, sheer force and threats are used to traffic victims, giving them no choice but to give into the demands of the trafficker.

“One of the biggest misconceptions about human trafficking is that it always has to involve sex, and that is far from the truth. In fact, one of the major contributors to [adult human trafficking](#) is migration and relocation. 2,364 victims of human trafficking reported that they were trafficked as a result of migration to the

United States. This is the type of demographic that traffickers target.”

It is common to think of human trafficking only in terms of sexual exploitation, but from the numbers reported, this is not entirely true. In fact, while the United States tends to have higher awareness numbers toward sex trafficking, there is

belief among human trafficking experts that forced labor takes a larger percentage of the global slave market.

Traffickers don't need to worry about location when hunting for victims, the internet is an invaluable source for them. They prey on the vulnerable, and have methods of coercion that seem attractive or promising to a potential victim. This is how they "recruit" their victims.

There are millions of victims of labor slavery and sexual exploitation. First, we must all be aware of it, and keep our eyes and ears open, not just for our own children, but those around us. **The average trafficked female is 15 years old.**

Secondly, we must join the fight to prosecute the traffickers and buyers.

This demonic modern-day slavery must be stopped.

In this six-minute video DeliverFund tells how they are helping to end human trafficking.

Big Money in Resettling Refugees

James Simpson's article, [Resettling Refugees](#), Part One, written in late 2018, exposes the organizations who are making vast amounts of money via refugees. In Part Two, [Who's Coming to America](#), he relates us shocking statistics. In Simpson's [Conclusion](#), he tells us the costs.

The current domestic refugee resettlement program, formally called the U.S. Refugee Admissions Program (USRAP), was created with passage of now-deceased Senator Ted Kennedy's [Refugee Act of 1980](#).

Refugee resettlement originally started with oppressed people coming to America after the Vietnam War, but the United Nations had other ideas. Being entirely socialist in intention and design, the U.N. envisioned redistributing not

only wealth, but also populations, across the globe. As stated in the document, "Human settlement policies can be powerful tools for the more equitable distribution of income and opportunities."

A vast network of non-governmental organizations, foundations, and non-profits, i.e., churches, rake in huge amounts of money with the resettlement of refugees. Thus, their reasoning for supporting politicians who vote to keep them afloat. These organizations need to be audited and the current network of public/private immigrant advocacy and resettlement programs overhauled.

Simpson writes, "These nonprofits siphon millions of dollars from the federal government, spreading the gospel of immigration as they line their own pockets and perpetuate an agenda that advantages the Left as it dismisses justifiable concerns from communities strained by the needs of these newcomers."

Health and Human Services (HHS) oversees the [Office of Refugee Resettlement](#) (ORR). Their list of benefits to refugees is astonishing. We are being bilked for billions upon billions with our wide-open Southern Border!

America is Driving the Demand

Remember the missing children on milk cartons? It was started in 1979 with six-year-old Etan Patz who disappeared in the Soho neighborhood of Manhattan, New York. In late 1984, the nonprofit [National Child Safety Council](#) began a nationwide program called the **Missing Children Milk Carton Program** in the United States. Photos of missing children were put on milk cartons. That sparked the program, "[Stranger Danger](#)." Forty years ago, our nation noticed that children were missing...now it's an avalanche of loss.

The United States is ranked as one of the worst countries in the world for human trafficking. According to a recent

released report by the State Department, the top three nations of origin for victims of human trafficking in 2018 were the United States, Mexico and the Philippines. America's dirty little secret is the United States is the number one consumer of paid sex worldwide. America is driving the demand as a society.

From the [Bureau of Justice Statistics](#):

- Of the 1,169 defendants charged in U.S. district court with human trafficking offenses in fiscal year 2020—
 - 92% were male
 - 63% were white
 - 18% were black
 - 17% were Hispanic
 - 95% were U.S. citizens
 - 66% had no prior convictions.
- At year end 2020, for the 47 states that reported data, 1,564 persons were in the custody of a state prison serving a sentence for a human trafficking offense

That's not enough!

Conclusion

Most of us who went to see this movie are God fearing American patriots. We are now responsible for seeing justice is done, that children are saved and the perpetrators and buyers see a fitting end.

In a recent article by Ray DiLorenzo entitled, [The Root of the Problem](#), I agreed with DiLorenzo except for one point...the Republican Party has long been in bed with the left. They won't save America unless we force them to.

They are not Constitutional conservatives.

World Economic Forum member, Kevin McCarthy is House Speaker. McConnell is a leftist, with a Chinese wife and has gained

monetarily through his wife's family who own a Chinese shipping company.

Only a handful of Republicans do not belong to the left. Republicans are not Stalinists like the Democrats, but they're not far behind. They're measured Marxists, like Leon Trotsky who wanted people to accept Marxism via slower implementation. Of course, Trotsky ended up with an axe in his head in Mexico.

Do you see any republicans fighting the leftist machine? They vote for leftist judges, even that lunatic Ketanji Brown Jackson who says she can't define a woman. Huh? High school Biology 101 taught chromosomes. She's not stupid, she's a Marxist.

What about the January 6th prisoners? Who cares?

Biden administration appointees are put in power with the assent of the right.

How many unconstitutional laws did the right vote for? Nearly all of them.

Stalinists on the left, Trotskyites on the right. This is the core we're fighting because every one of them thinks they will be chumming with China when America is overtaken. The New World Order is nearly complete, now represented by the World Economic Forum, the United Nations and the World Health Organization.

This is why it is up to those of us who watched Sound of Freedom. Get off your backsides! Don't just complain!

I remember the days when we shut down the DC phone system because we ravaged the federal reps with our calls. Do it again!

Emails that aren't answered need to be followed up with calls.

Harass the bastards!

Close the damned southern border!

Stop the slavery!

Save the children!

Save America!

And remember all this the next time a Democrat says border security would be “insensitive.”
