

The Rabid Main Stream Media Hatred Of Trump Supporters

He that hideth hatred with lying lips, and he that uttereth a slander is a fool. –Proverbs 10:18 KJV

Hatred, in the course of time, kills the unhappy wretch who delights in nursing it in his bosom. –Giacomo Casanova

God's truth judges created things out of love, and Satan's truth judges them out of envy and hatred. –Dietrich Bonhoeffer

When I look at the Democratic Party and main stream media (MSM), all I see is control by demonic powers and a satanic hatred of truth. The party was started in January 1828 by Andrew Jackson, our 7th President, and Martin Van Buren, our 8th President. Less than 200 years later, the Democratic Party has become the party of Karl Marx.

Those presidents of the 19th Century would never believe media would promote a 29 year old socialist on [the cover of Time Magazine](#) as it has with Alexandria Ocasio-Cortez. Neither would they believe that anti-Semite Islamist, Ilhan Omar was [featured on the cover of Time](#) as the first congresswoman from Somalia. Our third President, Thomas Jefferson, fought the Muslim [Barbary pirates](#) and defeated them and then the United Kingdom again in the [War of 1812](#). But today the media is silenced.

In my [previous article](#), I discussed the [NYTs v. Sullivan](#) Supreme Court decision of 1964 which allows media to lie about public figures. As such, great advantage of this decision was used not only in trying to destroy our President with a [false narrative of Russian collusion](#) by the DNC, but also the destruction via Special Counsel Robert Mueller of the men who supported and worked for Donald Trump.

Several of the nation's largest and most influential news outlets had spread an explosive but completely false news story to millions of people about our President and his supporters. The lies told by media have ruined a number of good men, and the majority of those lies were fundamentally false. [Link](#) As Diane West says in her book, [The Red Thread](#), look for the "Reds" responsible for this coup against our President and his supporters.

"Repeat a lie often enough and it becomes the truth," was the law of propaganda often attributed to the virulent anti-Semitic Nazi, Joseph Goebbels. Media learned well.

**Lieutenant General
Michael T. Flynn**

The Flynn brothers in 2011 with their now late mother Helen.

General Flynn, a 33-year dedicated military veteran and former director of the Defense Intelligence Agency during the Obama administration was one of the first to endorse Donald Trump's presidential campaign. He was named during the transition to head up the national security apparatus in the White House. The General was President Trump's wisest choice. He knows more about military intelligence, China, Iran, Islam, and the

corrupt Department of Justice and the FBI than anyone in President Trump's administration. In 2010 he co-authored [Fixing Intel: A Blueprint for Making Intelligence Relevant in Afghanistan](#).

In a recent [PJ Media article](#), Michael Ledeen explains that General Flynn changed the way we did intelligence against the likes of Zarqawi, bin Laden, the Taliban, and their allies. He saw that our battlefield intelligence was too slow and made it light years faster. Ledeen said, "This earned him a following among some who worked for or with him, but it also gained him the enmity of those who had been cut out of 'the chain of command.'"

A Marine buddy's brother served under General Flynn and he said, "Mike Flynn walks on water, and he doesn't even get his shoes wet." That's how much they loved him.

The Obama/Clinton cabal knew they had to stop General Flynn. They knew he was dangerous to their corrupt apparatus, so they set him up. Obama's National Security Advisor, Susan Rice, organized the surveillance apparatus. [Dr. Evelyn Farkas](#), former Obama deputy assistant secretary of defense for Russia and Ukraine, before she left in 2015, urged her former colleagues to, "get as much information as you can...get as much intelligence as you can before President Obama leaves the administration." [Link](#)

General Flynn long ago became the target and the truth is, he never lied to anyone. Mike Pence, Reince Priebus, Sally Yates, the FBI and Obama were responsible for eliminating him from the Trump administration. The establishment and Deep State joined together to destroy the man who endangered their corrupt cabal. Unfortunately, our President did not have the foresight and political discernment to comprehend why they wanted Flynn gone. He should never have allowed it.

The General was the only person in the administration who was

capable of dismantling and destroying the corrupt and weaponized intelligence community, and they all knew it.

The standard modus operandi was used. Exculpatory Russia evidence about the General was kept secret by the intel community. [Link](#) Both FBI agents, Strzok and Pientka who did the sneak attack interview on the General said he didn't lie about anything. Yet, Devin Nunes told Maria Bartiromo that they were never allowed to interview Joe Pientka. Congressman Nunes believes the General plead guilty because he was out of money and Bartiromo mentioned that Mueller's modus operandi was to threaten the General's son. [Link](#)

And now, Russian historian Svetlana Lokhova is [speaking out](#). Watch the latest video at [Fox News with Tucker Carlson](#). Svetlana is exposing the Obama Deep State apparatus and the accompanying involvement of [Stefan Halper, a well-known CIA operative](#) and the FBI informant who monitored the Trump campaign. The DOJ and FBI's highly inflammatory and, at best, [misleading claims](#) that they made to try to prevent Halper's identity from being reported are extremely troubling.

Bring Back Flynn!

There are many Mueller and Obama agents still in the FBI and FBI Director Christopher Wray is promoting the cabal again. David P. Goldman says, "[To Stop the Deep State, Bring Back Mike Flynn](#)."

General Flynn was head of the Defense Intelligence Agency in 2012 when the DIA blew the whistle on CIA backing for Sunni Islamists fighting the Assad regime during the then-raging Syrian civil war. Trump was right when he said the Obama administration created ISIS.

Goldman wrote, "President Trump should pardon Gen. Flynn right now and summon him back to Washington. Mueller forced Flynn to plead guilty to an invented charge of lying to FBI agents, even though the FBI agents who interviewed him about Russian

contacts said that they [thought he was telling the truth](#). Now that the Mueller investigation has come up with nothing, the frame-up of Gen. Flynn appears all the more heinous. The Deep State feared Mike Flynn, with good reason. Trump should reappoint him to a top job, and really terrify his opponents.”

Please help the General defray millions in legal costs by donating to his [legal defense fund](#), and ask President Trump to immediately dismiss these false charges against Mike Flynn.

Paul Manafort

Mr. Manafort worked only a short time for candidate Trump as his campaign chairman. He has paid a high price for the few months he advised Donald Trump, including nearly nine months in solitary confinement, a draconian punishment which did not fit the crime. He has plead guilty to charges.

Ten years ago, Manafort was allegedly investigated for the same crimes and there was a decision not to move forward. Allegedly, [according to Judge Napolitano](#), the man who exonerated and dropped the charges was Rod Rosenstein.

Former U.S. Attorney Andy McCarthy [writes in National Review](#) that there are no guarantees it won't or can't be revisited:

“...the closing of an investigation does not come with a guarantee that the investigation will never be reopened.

Nothing prevented the Justice Department itself from reviving the Ukrainian case against Manafort.

If Manafort's tie to the Trump campaign convinced Rosenstein that the Trump Justice Department would have a conflict of interest in any criminal investigation involving Manafort, Rosenstein could properly have assigned the reopened Ukrainian case to a special counsel in the first instance – i.e., as part of Mueller's original jurisdiction.

The unredacted part of Rosenstein's August 2nd, 2017 memo authorizes Mueller to investigate allegations that Paul Manafort, as Trump's Campaign Manager, "committed a crime or crimes by colluding with Russian government officials" and "committed a crime or crimes arising out of payments he received from the Ukrainian government before and during the tenure of President Viktor Yanukovich."

Much of the August 2nd memo is redacted, until the end, where Rosenstein tells Mueller, "You therefore have authority to continue and complete the investigation of those matters..."

As Fox News noted, Rosenstein's August 2nd memorandum specifically authorizing Mueller to investigate Paul Manafort's financial dealings came one week after the FBI's July 26, 2019 predawn raid on Manafort's home, where the FBI reportedly seized Manafort's bank records and tax documents.

Paul Manafort will probably die in prison for having worked for Donald Trump, whether or not he's guilty of charges that would not have been revisited had he not been a Trump employee. In January of 2018, [Mueller said](#) that Manafort should not get credit for cooperating.

The MSM has condemned this man as a white-collar criminal and has lied about him while extoling the virtues of Rick Gates who has fully "cooperated with Mueller" and is also charged with financial fraud and lying to the FBI. Manafort did do

things improperly and illegally, but had he never worked for Donald Trump, it is highly unlikely he would be paying this exorbitant price.

Of course, the [Podesta brothers](#) have done much the same, but have never been charged. Manafort worked for John and Tony Podesta, while Hillary Clinton was Secretary of State, and assisted in gaining Russian benefits via influence over State Department policy. But [Bob Mueller is also connected to Manafort's business partners in the Ukraine](#) – the Podesta Brothers – who are connected to Hillary Clinton – and a Russian “foundation” in the Ukraine labeled the [Party of Regions](#).

Why isn't Robert Mueller investigated?

Roger Stone is a 40-year friend of Donald Trump and one who early on in the campaign advised him. Now he's being charged with obstruction, lying to Congress and witness tampering. Instead of the Mueller investigation requesting Stone's lawyer to have Stone turn himself in, they made a public display with a group of heavily armed FBI agents storming Roger Stone's

Florida home on a January morning in 2019, as seen in a dramatic [CNN video](#).

Twenty-nine FBI agents in bullet proof protective gear and armed with submachine guns showed up pre-dawn at Roger Stone's home. There were seventeen vehicles, two of which were armored, two boats behind Roger's home and one helicopter was

circling overhead. [Link](#) Only twelve Navy Seals were dispatched to eliminate Osama bin Laden.

Law enforcement vehicles with flashing lights, but without sirens, are seen parked nearby Stone's Fort Lauderdale home shortly after 6 a.m. ET, [CNN reports](#). The network has [aired the footage multiple times](#). Stone was accused by a federal grand jury of [lying about the investigation of Russian meddling](#) in the 2016 election, according to Robert Mueller.

FBI raids are not broadcast to the media, but this one was by one of Mueller's boys. Beirut-born Assyrian-American George Piro, Special Agent in Charge Miami, most likely authorized the raid and leaked the information to CNN.

Roger Stone also has a [legal defense fund](#) for donations. Please help.

Papadopoulos and Cohen

Ex-Donald Trump campaign aide [George Papadopoulos](#) was released from prison after serving 12 days for lying. As part of his sentence, Papadopoulos will serve 12 months of probation.

Former Trump attorney, [Michael Cohen](#) even plead to charges [that are not crimes](#) and will serve three years in jail for charges of financial fraud and campaign finance violations. Department of Housing and Urban Development official, Lynne Patton, a long time Trump family associate and Cohen friend, appeared when Cohen gave his rehearsed testimony to Congress. She claimed there was another reason for Cohen's betrayal—that his wife was being threatened with jail time unless he “turned on” Trump. Do I believe this? Absolutely, it's the Mueller gang modus operandi.

Conclusion

The Rule of Law is the principle that all people and institutions are subject to and accountable to law that is fairly applied and enforced. It has become only too obvious those connected to the Democrat Party never suffer for their crimes. Enemies of the establishment will suffer for any perceived crime or for no crime at all, but their friends like Jussie Smollett go free, despite being charged with 16 felony counts.

It's time for truth to be restored to the public discourse, the 1964 *NYTs v. Sullivan* Supreme Court decision needs to be overturned. Actual truth regarding the whole fraudulent Russia collusion has never been seen on MSM. They continue to spew their poisonous lies.
