

The Road to Marxism is Paved with Lies, Deception, Suffering and Death

Over the years as we become familiar with the true goals of the Globalists/World Economic Forum(WEF)/ United Nations (UN)/ United Nations Education Scientific and Cultural Organization (UNESCO) and multiple NGO's in partnership with Microsoft to destroy western culture. As we learn about their sinister plans they change their name. Depopulation by any means is the method.

The master plan is always Agenda21, the plan to own and control every aspect of human activity. This plan was created in the 1930's by the introduction of communism to America. The Rockefeller, Unfinished Agenda, was the outline. By the late 1980's, with technology in place, the implementation for world domination was ready. The schools were tackled first as individualism was replaced with collectivism, facts were replaced with emotion and education was replaced with training. George Bush 41 and Nancy Pelosi signed onto Agenda 21 and introduced "A New World Order" to the nation through congress. Bush signed EO 12803 enabling foreign entities to "buy" a piece of America. He had no right to sell what he didn't own. Open borders promoting illegal immigration without assimilation ensured the demise of America.

The main goal of the Globalists Agenda21 is always

depopulation using any means possible. They realize it is to hard to control 8 Billion people. Jobs will be handled by robots and fewer humans will be needed. What better way to eliminate people by blaming the very thing necessary to sustain their lives CO2. Wars, famine, disease, nature, lies of man all help to reach the goal. The climate hoax blaming fossil fuel, CO2, and now nitrogen, all necessary to improve human existence, became the focus for elimination. No CO2 = No plants or oxygen. No plants or oxygen no food. No Food no people. No people no problems. Their plan was to start the propaganda early in school. By lowering standards for Affirmative Action, using race to turn people on each other in the name of equity, and they have created the perfect formula for low information voters who will do as they are told. [These Affirmative Action graduates will gladly give up their rights for make believe security.](#)

Through the years a variety of sub plans were created to “fool the populace” for the good of the planet, for common good. Smart Cities, Resilient Cities, Sustainable Cities, Agenda 2030, Green New Deal, Build Back Better, 2 weeks to flatten the curve, masks, SDG (Sustainable Development Goals) Gun legislation follow the same Marxist ideology. You will comply or die. These programs have been developed for control of the populace. Today we are being dictated to by Affirmative Action graduates who believe our rights come from the government and the United Nations should control the world through unelected bureaucrats running NGOs with taxpayer money. No need for borders or law and order. So what if the people die from war, drugs or abortion or crime, less mouths to feed. As long as there are slaves to work, Globalists could care less.

The last nail is the affluent middle class. Can't let them own anything because other countries might want the same. *“Current lifestyles and consumption patterns of the affluent middle class – involving high meat intake, use of fossil fuels, appliances, air-conditioning, and suburban housing –*

are not sustainable.” – Maurice Strong, Rio Earth Summit. 1992
Bush 41 signed Agenda 21 before it was written.

According to Agenda 21 all policies must be tied to the environment making humans responsible for climate change. They intertwine the 3E's implementing Agenda 21. Everything is connected. Nothing is random. Everything has a plan and all plans are lies. Their 3 E's:

Environment – Climate touches everyone so make that the issue. Blame Fossil fuel destroying the planet making the climate change – a lie. No energy no power. Blame CO2 and Nitrogen both necessary to sustain plant and human life. By calling them greenhouse gas (a minuscule amount) both provide the perfect culprit to force a food shortage. CO2 is needed for plants for photosynthesis to occur. Photosynthesis provides food for plants and oxygen for people/animal life. Nitrogen provides fertilizer for soil to feed plants (food) and animals (Meat) which become food protein (strength) for humans. Weak hungry people will not fight their government they will beg for food. They stopped teaching science in school today. Instead they teach environmental science. Great documentary <https://nofarmersnofood.com/>

Equity – According to the Globalists everyone on the planet is entitled to the same things. Therefore the government must own everything to make it fair. Blame the victim for enticing the criminal. Control healthcare and push termination on “individuals who are inferior.” *“Global Sustainability requires the deliberate quest of poverty, reduced resource consumption and set levels of mortality control.”* – **Professor Maurice King**

Eliminate police for being abusive and racist. Take guns from citizens so criminals can be free. The latest in Florida is the push to combine judicial districts which will increase crime in rural areas. The load on attorney's and judges will increase and lesser crime will be ignored.

Economy – Dictators from countries who sign the Agenda are forced to take massive loans to make their countries “sustainable”. Since sustainability is based on lies, solutions will never work but will require more and more loans. Since the loans can never be repaid, the dictators partner with the loan company or country giving away their country’s sovereignty and resources. The country is forced into massive debt causing massive inflation and destruction to the country economy. It is imperative that Globalists control every aspect of humanity so technology is used for surveillance. 15 Minute Cities will ensure that humans will be kept in a 15 Minute walking distance perimeter of their residence.

Through the use of Grants, Conservation Easements, Eminent Domain, destruction of farming, water restrictions, land will become impossible to maintain and will be sold to Globalists who will keep it fallow. [No Meat or Dairy for you. Bugs will provide your protein.](#) *“My three main goals would be to reduce human population to about 100 million worldwide, destroy the industrial infrastructure and see wilderness, with it’s full complement of species, returning throughout the world.”* –**Dave Foreman**, co-founder of Earth First!

Money must also be controlled by the Globalists. Dirty, disease ridden paper money must be replace with a Central Bank Digital Currency (CBDC) based on a carbon allowance. Since all living things contain carbon, credits will be assigned to everything you want to purchase and depending on your compliance with the government, your actions towards the environment you will be granted your allowance called social credits. If you or your family or acquaintance misbehaves, no travel, food, clothing for you.

I have a 4th E **Education** So how did the Globalists get so many people to believe their Marxists ideas? Why education of course. By dumbing down the world they got a huge boost. Then grant money got the scientists and media to spew propaganda

which reinforced what kids learned in school. Their ideas and solutions are not discovered through the scientific method they are outcome based. Today 70% of school children are afraid that their actions will ruin the planet. They have no problem doing more for less and believe that owning nothing will make them happy. 47% can't read, write and do simple math. They rely totally on a device to tell them what to do. The average IQ in America is below 100. They are incapable of reasoning out a problem and have no understanding of logic and critical thinking. Common Core made sure that they are 2 years behind. After all Lenin said dumb people require less from their government. " Give me four years to teach the children and the seed I have sown will never be uprooted." We are being governed, controlled and managed by Affirmative Action graduates with low standards not the best and brightest. [\[YouTube Video\]](#)

The Globalists are not playing. However, [they are getting worldwide push back as the people are realizing that losing their freedom](#) and starving for them is the endgame.

Globalists are perverted, evil and many of their policies are written under the influence of something. They must Destroy the Middle Class by any means possible. Wealth is not fair. They despise America and Americans and are laser focused on Money, Power and Control. They want us dead. They will lie, cheat and steal. Once in power they will weaponize everything against their enemy and will tear down any and all standing in their way. They have no depth and if challenged they have no answers. Is America worth saving. Only you can make that decision. Will you fight back with the truth?
