

# The Stunning Sham Impeachment of Donald Trump

By: Amil Imani

From day one, when Donald Trump became the president of the United States, the entire leftist media, law enforcement establishment, former President Obama, and minions of former President Obama, to include Hillary Clinton, Hollywood celebrities, and the Democratic Party had one mission: To force President Trump out of office. They drove investigation after investigation, and after three years, along with tens of millions of dollars spent at taxpayers' expense, they found nothing on him to force him out. ZERO.

The Russian hoax turned out to be a hoax. Trump said “[Special counsel Robert] Mueller showed the Democrats not only have nothing, now they have less than nothing.”

But that did not please the appetite of hungry leftist wolves who were after blood. Since the House of Representatives is controlled by the Democrats, they contrived a fake excuse to impeach Trump.

“House Democrats have long wanted to overturn the votes of 63 million Americans. They have determined that they must impeach President Trump because they cannot legitimately defeat him at the ballot box. The Democrats' use of a phone call with the president of Ukraine – with a transcript the president himself released – served as their excuse for this

partisan, gratuitous, and pathetic attempt to overthrow the Trump administration and reverse the results of the 2016 election.”

It was 100% sham.

Even the Democrats’ witnesses stories were based on hearsay and what they had heard and what they had been told, but no one seemed to be able to offer direct “I heard it directly from the president himself” testimony – except, of course, Ambassador Gordon Sondland, who testified that the president had [told him directly that he wanted no quid pro quo](#).

Nevertheless, the House – on a purely partisan basis, – voted to impeach President Trump.

So, what would be “fair” in the Senate? Democrats’ demand for witnesses who did not testify in the House is absurd. A Democrat majority of the House impeached the president based on the evidence that they presented. That’s the evidence that should be presented to the Senate – no more, no less.

After the impeachment, Nancy Pelosi did something that had never been done before. She refused to send the articles of impeachment to the Senate for a month. When a reporter asked about the possibility of her not forwarding the articles of impeachment, she quickly shut him down, and in so doing, also proved the impeachment fiasco had less to do with “protecting democracy” and more to do with partisan political motivation and the November 2020 general election.

President Trump, during three years in office has done more for this country than any other in our lifetime.

We have the best economy in decades. Highest stock market numbers ever. Lowest unemployment amongst Blacks, Hispanics and Asians, ever. Trade victories with Japan and China, now coming into view.

More equity in NATO cost-sharing. Massive reduction of regulations and bureaucratic red tape. Conservative judicial court appointees that will stop activist overreach. All without drawing a salary, and while putting up with non-stop harassment.

The Democrats, instead of letting American voters decide if President Trump stays or goes in November, went ahead with a sham impeachment based on rumors and hearsay – and now it likely will cost them their electoral viability in many other races.

Trump's impeachment had absolutely nothing to do with a Russian hoax or Ukrainian fiasco. It was about Trump winning the 2016 election against Hillary Clinton. Hillary simply could not accept the loss. Then she mobilized her radical army to take Trump out by hook or crook. These Democrats wanted to impeach [President Trump](#) in the worst possible way. Literally.

They wanted to impeach him even before he took the oath of office. They've called for impeachment every day he's been on the job. Democrats have asserted they can impeach him multiple times. Hard to believe we live in America! Democrats are desperate and at their wits' end.

Since the Democrats tragically failed in their Constitutional obligation to provide clear evidence of treason, bribery, or high crimes and misdemeanors, bearing true faith and upholding allegiance can only bring about one ethical vote.

“No.”
