

The Truth About Vaccines, Part 3

The fact that vaccines do more harm than good seem to be ignored by too many people. It's not just the fact that they don't work and in too many cases cause worse problems than they are supposed to solve but now we are seeing people that are investigating the link between autism and vaccines being threatened. *A Jan. 6, 2019 news report produced by investigative journalist Sharyl Attkisson for Sinclair Broadcast Group revealed that retired congressmen Dan Burton (R-IN) and Dr. Dave Weldon (R-FL) and current Rep. Bill Posey (R-FL) were pressured by colleagues or threatened by PhRMA lobbyists to back away from examining vaccine safety issues, including the reported link between vaccines and autism.¹ The report also revealed that, in 2007, federal government officials suppressed and then misrepresented the expert opinion of pediatric neurologist Dr. Andrew Zimmerman that vaccines can cause autism during U.S. Federal Court of Claims hearings evaluating vaccine-related autism claims filed in the federal vaccine injury compensation program (VICP).[2]*

"You really need to... back off on this"

The "Vaccination Debate" report was featured on "Full Measure," Sinclair's investigative news show anchored by Attkisson, who said, "We spoke to 11 current and former members of Congress and staff who claim they faced pressure, bullying or threats when they raised vaccine safety questions." Physician and former Rep. Dave Weldon commented, "It would typically be in a hallway or the street and people would come up to you and say, "You know, you really need to, you know, back off on this. It could be, it could be bad for the community or bad for the country or bad for you."

Attkisson also interviewed Rolf Hazelhurst, whose now 18-year

old son, Yates, suffered severe vaccine reactions as a child and regressed into chronic poor health that was eventually diagnosed as autism.[1] Why are their colleges pressuring them to back off? Most of them have their campaigns financed by Big Pharma! Isn't it nice to know that our health is controlled by Big Pharma lobbyists and what is best for THEM is the direction our Congress leans?

Our government is even suppressing evidence that PROVES the connection between vaccines and autism denying children effected by the vaccine benefits. After Rolf Hazelhurst learned that Dr. Zimmerman's expert opinion was discounted and misrepresented by federal government officials for the purpose of denying federal vaccine injury compensation to his son and thousands of other children with vaccine related autism, Hazelhurst told congressional staffers at a 2013 briefing, "If I did to a criminal in a court of law what the United States Department of Justice did to vaccine injured children, I would be disbarred and I would be facing criminal charges." He and environmental activist attorney Robert F. Kennedy, Jr. have filed a fraud complaint with the Justice Department Inspector General about the withholding of Zimmerman's expert opinion on vaccine-induced autism in the U.S. Court of Federal Claims proceedings.

The "Vaccine Court" and the Class Action Omnibus Autism Proceeding

The Secretary of Health and Human Services is legally represented by Department of Justice (DOJ) attorneys in the U.S. Court of Federal Claims ("Vaccine Court") when federal health officials contest vaccine injury compensation claims filed under the National Childhood Vaccine Injury Act, a law that was passed by Congress in 1986 and substantively altered by congressional amendments between 1987 and 2016. The 1986 Act gave partial liability protection to vaccine manufacturers but protected a vaccine injured person's right to file a vaccine injury lawsuit in civil court if federal compensation

was denied or was inadequate to provide for lifetime needs or if it could be proven that the vaccine manufacturer could have made a vaccine safer (design defect). In a split decision in 2011, the U.S. Supreme Court effectively barred all vaccine injury lawsuits, including for manufacturer design defect.[2]

Can we really trust a government that acts in this manner? As a contractor, if I build a house that falls apart three months after I finish it, I can be sued for all damages. The way this is set up the pharmaceuticals are not liable at all for anything. Why does the government allow a company that has the ability to damage the lives of so many families and they do, be allowed to be completely free of all liability for the product they manufacture?

It goes way beyond this to even a point of anyone who is willing to expose the discrepancies is literally putting their life in danger. ***A number of holistic doctors in Florida, over 60 of them within one year, who have been found, killed or dead all have one common denominator.***

They had all found out that an enzyme protein was cancer causing and the protein with the name of Nagalase had been added to vaccines that had been given to humans and this is something that has been happening on a global scale.

Doctors Were Said To Be Getting Ready To Reveal Findings

Nagalase is said to be an enzyme that stops vitamin D from being produced in the body and so stops the natural ability of the body to kill off any cancer cells.

It is also a protein that is created by cancer cells and can be found in high concentrations in children with autism. It was revealed that it has been put into vaccines.

Nagalase affects the immune system as it disables it and it has also been known to be the cause behind Type 2 diabetes.

It was said that the doctors who discovered this were not being killed because they had found a cancer cure or were treating autism successfully, but they were killed because they had researched and found evidence that vaccines that had been injected into children had been causing cancer and autism crisis. [3]

The reality of the toxicity of vaccines is underscored by this tragic story: Dr. Martin Gore, a widely celebrated cancer doctor credited with “saving thousands of lives” died from “total organ failure” just minutes after receiving a vaccine shot yesterday. Dr. Gore was a professor of cancer medicine at the *Institute of Cancer Research* based in London. He “died suddenly yesterday after a routine inoculation for yellow fever,” [reports The Times \(UK\)](#).

“His death highlights the increased risks associated with the vaccine for the growing number of older travellers visiting exotic destinations,” the paper explains.

It also underscores the horrific price of believing in Big Pharma, chemotherapy and vaccines. Throughout his career, Dr. Gore oversaw the harming of tens of thousands of children who were subjected to toxic chemotherapy and radiation treatments. Ultimately, he was killed by his own false belief in the safety of vaccines. [4]

We are now seeing Big Pharma and UN officials trying to push back on anyone who attempts to deny the fake promises of vaccines: ***The World Health Organization, a criminal cartel front for the vaccine industry, has just declared war on the so-called “anti-vax” movement. The W.H.O. is the same group that [spiked vaccines given to women in Africa with abortion / infertility drugs](#). The W.H.O. is also the same fraudulent group that [falsely declared H5N1 bird flu to be a “stage 6 pandemic”](#) in order to create global panic that generated billions of dollars in vaccine sales to world government (which stockpiled the vaccines and then later spent a fortune***

having the unused vaccine destroyed).

Now, the W.H.O. says that anti-vaxxers are one of the greatest public health threats of 2019, ranking the “vaccine hesitancy” movement right alongside Ebola as a public health threat. “Vaccine hesitancy – the reluctance or refusal to vaccinate despite the availability of vaccines – threatens to reverse progress made in tackling vaccine-preventable diseases,” claims the W.H.O. in a [global health threat ranking document](#) that also claims global warming – a quack science hoax fabricated by globalists – is also going to destroy humanity if we don’t surrender world economies to Al Gore.[5]

The lies from the government are disgusting at best and treason at worst. A Center for Disease Control has admitted that vaccines do cause autism but destroyed the data.[6]

This is the America we have allowed to develop because we have not been engaged. It is time we take our country back.
