“Ever since the religion of Islam appeared in the world, the espousers of it...have been as wolves and tigers to all other nations, rending and tearing all that fell into their merciless paws, and grinding them with their iron teeth; that numberless cities are raised from the foundation, and only their name remaining; that many countries, which were once as the garden of God, are now a desolate wilderness; and that so many once numerous and powerful nations are vanished from the earth! Such was, and is at this day, the rage, the fury, the revenge, of these destroyers of humankind. – John Wesley

Back in 2021, the ministry took the time to gather some of the top experts concerning the topic of Islam and their attempts at taking over the country (Deuteronomy 28:43).

In doing so, we put together a documentary that received little traction after its release. This, no thanks to the illegal censorship and shadow banning taking place by Big Tech companies and the United States government. Everyone knows this is a clear violation of the First Amendment of the Bill of Rights.

This will all make perfect sense when the people of this country take the time to observe that it has been the federal and state governments that have been treasonously alluring

these illegals into America in the first place. Read Article III, Section 3 of the US Constitution. They are creating the problem and, in turn, playing the problem solvers. There's nothing new here (Ecclesiastes 1:9).

Knowing that every country deserves the government that it has, it is then self-evident that the government in this country is a reflection of the people. What we find is that rather than the people righting themselves of the wrongs in preventing such issues as Islam flooding into their country, the people wait until they suffer the abuse before they act (Psalm 19:1; Amos 6:3).

So, without further ado, here is the video.
