

The Web of Dystopian Tyranny, Part 3 – Medical and Societal Perversion

By Kelleigh Nelson

May 2, 2023

Science is but a perversion of itself unless it has as its ultimate goal the betterment of humanity. –[Nikola Tesla](#)

We must not lie to ourselves that loving our neighbor means waving a Pride flag, putting pronouns in our bios, and doing nothing while children are psychologically traumatized, medically altered, physically mutilated, and rendered infertile and damaged for life. –Reagan Scott

Satan cannot create anything new, cannot create anything at all. He must steal what God has created. Thus, he twists love and God's wonderful gift of sex into lust and sadism and myriad perversions. He disfigures the heart's deep desire to worship God and persuades us to bow before lesser gods of lust or money or power. –Catherine Marshall

Schools serve the same social functions as prisons and mental institutions- to define, classify, control, and regulate people. –Michel Foucault

What happened to Biology 101? It was taught in high school in the early 1960s. It is so simple, yet the latest Supreme Court Justice, Ketanji Brown Jackson, doesn't know the simple definition of a female.

A man has an X and a Y chromosome. A woman has two X chromosomes. Chromosomes cannot be changed no matter what you cut off, add on, or how many hormones you take. You are forever either male or female.

“So, God created man in his own image, in the image of God created he him; male and female created he them.” (Genesis 1:27) There are only two genders, not 40 as the [National Institutes of Health claim](#).

The promotion of this perversion is not only part of the WOKE insanities, but it is also steeped in Marxism and the hatred of our Creator.

Remember the mantra from the media, “It’s for the children.”

How could this be “for the children?” Perversion is being taught in America’s schools as early as kindergarten. America’s children are encouraged by their teachers to have themselves butchered in gender clinics.

Both the Old and New Testaments agree regarding how God’s people are to behave concerning sexual relationships.

Torah’s Book of Leviticus Chapters 18 to 20 tells us the standards of God’s people were not to be dictated by the practices of Egypt or Canaan, but by the Lord Himself. The New Testament’s Romans 1:25-31 echoes Leviticus. Verse 28 states that the Lord gives them up to a reprobate mind.

Origins of Sex Ed

In 1930, the first sex reassignment surgery was performed in Germany by gynecologist Kurt Warnekros. The patient died from complications of the fifth surgery. ([Timeline](#))

It was [Alfred Charles Kinsey](#), an American sexologist, biologist, and professor of entomology and zoology who, in 1947, founded the Institute for Sex Research at Indiana University, now known as the [Kinsey Institute for Research in](#)

[Sex, Gender, and Reproduction](#). Kinsey [conducted](#) more than 17,000 face-to-face interviews with a broad set of people, college students, prostitutes, and prison inmates, to understand their sexual experiences. His most infamous research subject was the 1944 interview of a sexual omnivore, who had a history of having sexual encounters with men, women, boys, girls, animals and family members, and which took about 17 hours to be recorded.

While some hailed Kinsey's research, others considered Kinsey a pedophile, a pornographic film maker and an addict whose sole objective was to "normalize and legitimize his many illegal fetishes."

In the 1960s, "Gender identity" and "sexual orientation" terms were coined by a man named Dr. John Money, who was not a certified physician at all. Money's [experiments with a set of twin boys resulted in disfigurement, sexual torture and ultimately suicide](#). Dr. John Money Used Kinsey's model of human experimentation to develop his concept of transgenderism and sex "re-assignment."

Money was a renowned psychologist and sexologist at Johns Hopkins Hospital who built off of the work of Dr. Kinsey whose theories on the sexual lives of prepubescent children, it turned out, were actually based on the [diaries](#) of a prolific pedophile who had molested hundreds of children.

His "conclusions" later formed much of the sexual education curriculum that was implemented at public schools and continues to this day.

Judith Reisman held a Ph.D. in communications from [Case Western Reserve University](#), and was a visiting professor of law at [Liberty University](#). She was a conservative author who set the record straight on Alfred Kinsey in her highly researched book, [Sexual Sabotage: How One Mad Scientist Unleashed a Plague of Corruption and Contagion on America](#). The

graphic content will disturb you, but it tells the story of how we arrived at where we are today. In Dr. Reisman's book, [Kinsey: Crimes and Consequences](#), she revealed that Kinsey conducted human experiments in a soundproof laboratory built to his specifications at Indiana University, and that the sexual abuse of at least 317 infants and young boys was a scientific protocol for Kinsey's 1948 report.

Kinsey and Money appear as two appendages of the same perverse and cruel creature.

Kinsey partnered with Planned Parenthood Medical Director Mary Calderone to create sex education curricula. [Link](#)

The Claremont Institute's [report](#) shows that Planned Parenthood carefully controls and coordinates the entire policymaking process to promote its goal of sexual revolution. In Congress, it seeks riders and findings to make the funding of abstinence-only sex education more difficult; it has spearheaded the effort to favor programs that reduce sexual risk as opposed to avoiding sexual risk.

This process results from concerted action at the highest levels of government, led by an iron triangle of activist pressure groups, legislative allies, and aligned administrative activists. We know who they are. Planned Parenthood is grooming children to be the vanguard of sexual perversity and degeneracy in a new, sexually liberated America.

Not only does the influence of Planned Parenthood spearhead the sexual revolution in America's schools and beyond, but its activity also illustrates how Big Government funds and supports leftist political activity. The left depends on funneling national tax dollars toward its favored causes and so-called conservatives have all but abandoned the field to such efforts. In fact, the majority of Republicans, including [Charlie Kirk's Turning Point USA](#), disdain speaking about

social and moral issues.

Gender Clinics

Don't let people tell you Big Pharma isn't raking in the dough on puberty blockers, hormone therapy medications and sexual surgeries.

Puberty blockers and sex hormones do not have U.S. Food and Drug Administration (FDA) approval for children's gender care. No clinical trials have established their safety for such off-label use. The drugs' long-term effects on fertility and sexual function remain unclear. In 2016, the FDA ordered makers of puberty blockers to add a warning about psychiatric problems to the drugs' label after the agency received several reports of suicidal thoughts in children who were taking them.

Across the United States, thousands of youths are lining up for gender-affirming care. But when families decide to take the medical route, they must make decisions about life-altering treatments that have little scientific evidence of their long-term safety and efficacy.

No large-scale studies have tracked people who received gender-related medical care as children to determine how many remained satisfied with their treatment as they aged and how many eventually regretted transitioning. The same lack of clarity holds true for the contentious issue of de-transitioning when a patient stops or reverses the transition process.

Dr. Chrystal Cole, founder of the Akron Children's Hospital's Center for gender affirming medicine [tells parents of her patients](#) that, "Suicide in young men and women who are wanting to transition is as high as 40%."

Not everyone agrees with Dr. Chrystal Cole.

An article on Cureus' website entitled, [Suicide-Related](#)

[Outcomes Following Gender-Affirming Treatment: A Review](#), tells us the odds of suicide were higher in transgenders who underwent surgery.

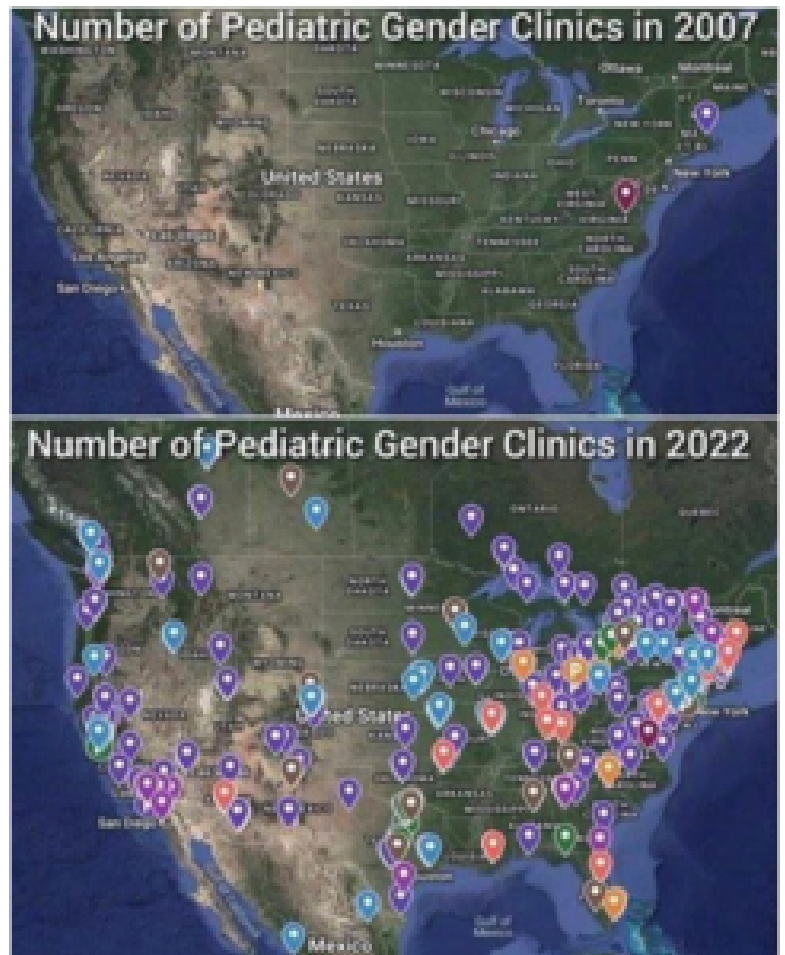

According to [journalist, Brandon Showalter](#), most people are unaware of just how insidious the transgender movement truly is or how much it is fueled by the greed of pharmaceutical companies. Terms like “gender-affirming” care and politically correct euphemisms popularized by many in the media, he said, are both dangerous and misleading. He slammed the idea that children experiencing gender dysphoria frequently die by suicide as “manipulative,” adding: “Suicide is a very complicated phenomenon. You cannot reduce it down to just one cause.”

Showalter detailed how, after a prepubescent child is diagnosed with gender dysphoria, they are prescribed puberty blockers such as Lupron, a drug that has been used to treat prostate cancer in men and endometriosis and women and has been used to chemically castrate sex offenders.

“There’s never been an FDA stamp of approval for that use,” he said. “Even the FDA just last year slapped a warning label that this drug causes vision loss and brain swelling. There are disastrous side effects. It impedes brain development. It basically freezes your endocrine system from allowing the pubertal signaling in the brain to happen.”

Even if a male has surgery to transition to a female, [he can still get prostate cancer](#), which just proves he was born a male and he’s still a male, but sadly has become a eunuch.

Gender Dysphoria Surgery

In 15 years, pediatric gender clinics have gone from two to over 100 across America.

Gender-affirming care, as defined by the World Health Organization, encompasses a range of social, psychological, behavioral, and medical interventions “designed to support and affirm an individual’s gender identity” when it conflicts with the gender they were assigned at birth.

Treatments for gender dysphoria, besides male or female hormones, may include surgery, such as feminizing surgery or masculinizing surgery to change the chest, external genitalia, internal genitalia, facial features and body contour. Medications are required throughout one’s life after transition.

Encouraging Gender Dysphoria

Today’s academic education is non-existent, but the promotion

of sexual activity and the encouragement of gender dysphoria is an absolutely despicable act occurring daily upon America's youngest school children. Every parent should realize that when their children enter public schools, they are put in a perilous and chilling position.

Propaganda has reached new heights which spreads throughout schools like a virus that chokes truth, mutilates, and kills our youngest generation.

Biden has stated that [parents give up control of children once they enter the classrooms](#), that they belong to the teachers and the administration inside the classroom.

Schools are in charge and if a child shows gender dysphoria tendencies, the parents end up in a battle with the government over their child's health care. California actually began paying for "gender transitions" for minors who are not in their parents' custody.

Daily Signal, a Heritage Foundation media organization, [wrote](#) about a child who ended up committing suicide because of mental health issues. The article stated that school officials told social services that Abigail's daughter would be "better off out of the house." She was put into foster care, and despite her mother's persistent attempts to get mental health treatment for her daughter, the system stonewalled her.

Promoting Perversion

One article I skimmed stated, "While leftists continue to deny ulterior motives in their mission to allow hyper-sexualized and pornographic materials in schools along with the promotion of Drag Queen Story Hour, evidence only further suggests a concerted effort toward normalizing pedophilia."

The infamous Bill and Melinda Gates organization [donated millions](#) into a radical nongovernmental organization (NGO)

promoting education of “commercial sex work” and “sexual rights, regardless of age.” The U.S. abortion advocacy nonprofit is listed as one of International Planned Parenthood Federation member associates. This insanity was originally created in the 1950s by a eugenicist, Margaret Sanger, who founded the pro-abortion [population-control](#) group, Planned Parenthood.

In Washington state, [a new bill was passed](#) which seeks to undermine parental rights by allowing “shelters” to provide gender transition medical services to minors without parental consent. Children can be legally taken from parents by the state if they don’t consent to gender transition.

The State of Texas has [continued their efforts to restrict the assaults on young bodies](#) in gender affirming care clinics. Biden has signed an executive order to protect transgender children. (Biden is making new laws through EOs without the consent of congress.)

An 18-year-old transgender “female” walked into a high school freshman locker room and showered with four 14-year-olds in Wisconsin. The biological male exposed his genitals to the shocked freshman girls. This is the idiocy promoted by our government, public education, media and even some religious denominations. These people are mentally ill, some of them are simply voyeurs who get their jollies looking at pubescent females.

An [LGBT activist](#) recently took to Tiktok to threaten anyone who would bar him or other male transvestites from entering women’s washrooms, daring concerned parents to try to protect their children.

Despite these and other threats made both [before](#) and after the Nashville massacre, when six Christians were murdered by transgender, Audrey Hale, [Thomas Jay White](#)’s account remains active on the platform.

Fox News reports that [the CDC is linked to pervasive curriculum sweeping public schools nationwide](#).

“Educators at over 120 districts across the country are [implementing a pervasive school curriculum](#) that has been denounced by opponents as an effort to manipulate children’s values and beliefs and replace parents as the primary moral authority in their child’s lives, with many critics specifically pointing to similarities with programs from the Centers for Disease Control and Prevention (CDC) as a major point of contention.

“Instead of academic education, the CDC’s [“Whole Child”](#) approach places its focus on psychological counseling and social services for students and teachers to further the “collaboration between education leaders and health sectors to improve each child’s cognitive, physical, social, and emotional development,” which is often referred to as [social emotional learning](#) (SEL).” It’s the central pillar of a nefarious attempt to remake and control society.

And where is the National Organization of Women (NOW) whose mouthpieces screamed about their equal rights for decades. Women’s sports and competition are now destroyed because of the foolishness of these directors who believe males can become females and dare not speak the truth. Men can wear dresses and clomp around in high heels, but if they are born with a penis, they are still biological men and they don’t belong competing in women’s sports.

Mental Illness

The [Tennessee Star](#) featured an article on Dr. Mark McDonald, a psychiatrist who treats both children and adults.

Dr. Mark McDonald wrote that the deaths at a Nashville Christian school at the hands of a transgender former student are a “logical end point of transgenderism,” since “the response to it reveals an embrace of the denial of reality and

inversion of morality that can produce only more of the same atrocities.”

“**Transgenderism is a mental illness,**” the Los Angeles-based psychiatrist observed in his [Dissident MD Substack column](#).

“It stems from a social contagion rampant in American urban centers, spread by social media and the support of corrupt schoolteachers and administrators who have chosen to pursue child sacrifice rather than the education and protection of young people,” he [explained](#). “It feeds on narcissism and victim culture, two toxic wells we have been digging for a number of years.”

Conclusion

This is child abuse that ends in mutilation and often times, suicide.
