

# The World Freedom Declaration

By Sidney Secular

May 30, 2023

**[edited]** From: "The International Covid Summit"

We, the people of the world declare that we have both the power and the obligation to reject tyranny in all its forms and the duty to protect the rights granted to us by Almighty God and protected by those who preceded us by whatever means necessary to assure the successful acquisition of this declaration.

We, the people of the world, demand the immediate termination of all oppressive, segregative, dystopian and divisive mandates nationally and/or globally imposed under the premise that these are a legitimate response to a declared "emergency" whether that situation is labeled a pandemic or otherwise; that is, if they are imposed for what are identified as any "good reason" according to those imposing these same mandates.

We, the people of the world, demand that governments return all powers removed by decree or law from medical and other health professionals thus allowing them to treat their patients based on science, knowledge and experience rather than any government agenda designed to impose the use of chemical and other so-called "medicines" whose use is or may be intended for reasons other than the health of the patient and that any such "medicines" never become a part of any intended or imposed mandates.

We, the people of the world, demand that the physician-patient

relationship be restored to its previous protection under the law by allowing all medical professionals to practice without fear of legal or extra-legal punishment and that all medical knowledge be available on the internet or other means of research available to the general public.

We, the people of the world, demand freedom to choose our own medical treatments based on uncensored and transparent scientific data and research free from coercion, punishment, or threat of punishment.

We, the people of the world, demand the right to refuse any proffered "medical treatment," that refusal being based on beliefs concerning health, conscience and/or religion and we further demand that our presently infringed rights to bodily autonomy be restored immediately.

We, the people of the world, demand that all employment and/or other legal benefits terminated upon a refusal to take any drug or course of treatment whether or not considered "experimental" be reinstated immediately and that any loss of income be recompensed by either the employer if said employer was responsible for that termination or in the alternative, from those who have made billions of dollars from the sale of said drugs or courses of treatment that motivated the mandate in the first place.

We, the people of the world, demand the immediate cessation of mandates as well as any and all coercion that imposes or attempts to impose medical interventions on children without the explicit consent of the parents; this includes demands for any medical treatment and/or procedure not in the best interests of the health of the child as determined by a qualified physician and the child's parent or parents.

We, the people of the world, demand the immediate release of the medical and scientific data and statistics relating to all such drugs and medicines labeled vaccines as well as those

medications and therapies demanded by hospitals that have proven detrimental to the health of the patients receiving them and that have been mandated during this declared pandemic.

We, the people of the world, are enforcing Article 6, Section 3 of the Nuremberg Code that states: In no case should a collective community agreement or the consent of a community leader or other authority substitute for an individual's informed consent.

We, the people of the world, demand that all liability be imposed on drug manufacturers and that they be held responsible for all deaths and injuries caused by their products including the prosecution of those who knowingly participated in such activities that produced said deaths and injuries. We also demand that any person or persons acting in the public sphere whether elected officials or appointed members of government agencies be likewise held criminally responsible where the knowledge of said injuries and deaths were knowingly withheld from the public.

We, the people of the world, demand a thorough investigation of all corruption and conflicts of interest surrounding this declared pandemic and that each party found to be involved, be tried, convicted and subsequently punished for every death and/or injury – including suicides – caused by any governmental direction, mandate or other extra-legal effort to force compliance on the part of the public with said directions, mandates or extra-legal efforts.

We, the people of the world, declare that it is our inalienable right under such rights bestowed upon us not by government or commerce but by Almighty God, as well as our duty to demand the immediate return of our freedoms and liberties as well as the restoration of our right to the pursuit of happiness.

It is both our duty and right to restore the physical, mental and moral health of our world by removing from power any political and/or appointed leaders as well as their minions, placing said power back into the hands of the people. We have been called upon to fight for our liberties to keep our world from being overrun by selfish, corrupt and murderous persons who by virtue of deceit and other nefarious means have placed themselves into said positions of worldly power. Thanks to those before us who likewise demanded and obtained these liberties, we have been born free and it is our duty to protect our children and leave them a world where their freedoms and rights are intact and protected.

WE ACKNOWLEDGE THAT ALL RIGHTS WE VOLUNTARILY SURRENDER WILL BE LOST TO US FOREVER. WE CANNOT ALLOW THAT TO HAPPEN! LET THIS BE OUR LEGACY!

UNITED WE WILL WIN!
