

This is it folks: America's last stand

This election is not about Trump or Hillary. It is about America.

Those who choose Trump are looking at this election to be a game changer. This election is about you deciding to be a free person in a free country having control, of your life and making America, a sovereign nation with all citizens having equality under the law. In other words "Making America great again."

Those who choose Hillary will become just another acceptor of a mediocre existence in a new world order with a one world government and a one world religion. Where regardless of your effort, everyone gets the same. A free America will be eroded into non existence.

Under Hillary, your sustainable controlled frugal living conditions (to save the planet to control your lifestyle), has laws dictated by an unelected United Nations; for in a world without borders, you have no country. You have leaders who will better themselves at your expense.

Regardless of Trumps shortcomings, like not being politically correct or doing stupid things when he was a private citizen, they pale in comparison to the liar, thief, murder committed by Hillary.

Here are a few of Hillary's acts that the media is hiding but not to worry we will report...

1. Hillary lies and covers up all of her immoral actions!
2. Hillary is for open borders for illegals, and terrorist to come into the u.s., and give them automatic citizenship!

3. Hillary puts illegals, and refugees before the American people, giving refugees housing, food, education, medical, and jobs, at the expense of the American people many of whom live in cars and tents) all designed to get Democratic votes while destroying our economy at the tax payers expense.

4. Hillary sells America, it's constitution, and it's people for a price to foreign countries!

5. Hillary uses pay to play!! You want something done, just donate to the Clinton Foundation or the Clinton initiative.

6. Hillary will appoint judges to the Supreme Court, and federal courts that do not rule by and protect the u.s. Constitution first. She is more interested in changing laws for her group of the month.

7. Hillary promotes violence with groups that have connections to George Soros, and the powerful elite, black lives matters, Muslim brotherhood, the radical La Raza group, etc. while making fun of minorities behind their backs.

8. Hillary promotes globalism, socialism, and one world order government with all; power to the unelected United Nations.

9. Hillary has done in 30 years, to protect our veterans and their families. Instead she favors illegals!

10. Hillary would destroy our religious liberties given to us by god !

We will never accept Hillary Clinton as president, as millions of other Americans will not. Trump's campaign has been about exposing the treason, and corruption in our government that will bring America down to a third world level. He has opened the eyes of millions, and he will not abandon them and the sovereignty of the United States of America! Trump has one message for all Americans. Hillary has 2 messages. One for the people (Public) and one for her donors (Private). The media

will get more vicious. There will be more Trump trash. The rest is up to we the people. Which America will you choose?

As for Neil and I, we are hiring a fighter for America not a scout leader. As for the trash, if America is no more "What difference at this time does it make?"

VOTE Nov 8 only we the people can help save America.
