

This Is What The Great Replacement Looks Like

Very few Americans realize that Biden, and your elected Congressional representatives, continue their dogged determination to replace the majority of Americans with an endless and growing line of refugees from 160 countries around the world. In April, the U.S. Border Patrol processed 200,000 of them...and sent them to all points of our country. They live in motels, hotels, U.S. military bases, school gyms, train stations, police stations, abandon buildings with instant Porta-Potties, and private homes. Soberingly, your tax dollars pay for all of it to the tune of \$150,000,000,000.00 (billion) annually. Not only that, but Congress imports 1,000,000 (million) legal immigrants annually. They add themselves to our welfare rolls with SSI.

Do you realize if this invasion continues under Biden, you're going to have third world welfare adults, babies and chain-migrated relatives into the 10's of millions within 25 years? In other words, you, your city, and your state are being replaced with the poor of the world. Why isn't anyone speaking up? Why are the NGO's, Catholic Charities, and Lutheran Charities begging for more illegal and legal migrants? Are they that stupid? Or, are they THAT money hungry?

Worse than that, most Americans remain clueless as to the long-term consequences.

Speaking with Todd Bensman of the Center for Immigration Studies, www.cis.org, I learned a great deal. What's going on Mr. Bensman? He said, "In recent days, large crowds of immigrants have formed on the Mexican side of the Rio Grande fully prepared to swim over well-worn crossing spots to Brownsville – but seemingly held back by unarmed Mexican immigration officials.

"Over the course of several recent days in this northeastern Mexican city when perhaps 3,000 immigrants a day swam over to Brownsville with no opposition on either side, a curious pattern became evident. At some sort of signal from the Mexican immigration officers, a group of about 100-150 from the crowd would suddenly stand in unison and rush down the riverbank, past the immigration officers, and swim over to America.

"It turns out that this pattern was far from happenstance. The Center for Immigration Studies asked several of the Mexican immigration officers what was going on and learned that.. Biden's Department of Homeland Security has been coordinating these mass swims with Mexico's immigration service, INM, at high levels on an encrypted Whatsapp channel..

"The Americans on the other side would ask the Mexicans to hold back the migrants – not because such crossings are illegal and should be blocked and obstructed, but only until the Americans had finished processing the last batch into the country through Brownsville..

"Controlled-flow by the Biden administration's DHS with Mexico also constitutes a highly unusual U.S. policy that demonstrates formal acquiescence to illegal immigration and an official willingness to accommodate mass illegal immigration rather than stopping, blocking, or deterring it, as required by law."

That's what Joe Biden and his accomplices are doing to you,

your tax dollars and to your community. Eventually, with another 10 or 20 million alien migrants, every community in America will be replaced with third world poverty, illiteracy and welfare recipients.

After spending three weeks on the border, I saw the tons of trash they left in the desert, gullies, riverbeds, riverbanks, and camping areas. They will bring that same “cultural proclivity” into America. They will trash America because they’ve trashed their own countries.

Thousands of tons of junk that buries the natural landscape in trash and filth—destroys the natural habitat. Here is a 2.0-minute video of what I personally witnessed. Trashing America:

“Texas National Guardsmen who patrol the area call it “the mattress because the layers of discarded clothing and personal belongings here [are] so thick and rubbery,” Bensman reported.

“The garbage will, of course, “kill everything beneath it” and destroy the area for wildlife.”

“And you better not fall down: There are syringes, diapers, animal droppings, food, personal sanitation products full of chemicals, non-biodegradable trash of every kind, and human waste. And personal documents, and identification all get tossed before being processed.

Do you know what grinds this American citizen? Answer: I'll tell you point blank. Our country is getting screwed, choked, and destroyed by a senile president and/or his handlers...along with a majority of 535 useless U.S. Senators and House members. These people are working on the total destruction of our society, our laws, our culture, our way of life.

If you think what's going on in America today is off the charts "crazy", just hang around for another 10 years to see our country coming off the rails like in East Palestine, Ohio. China or Russia won't have to conquer us. We're being conquered by our own president and Congressional critters.

We're not going to survive this invasion. We're being replaced by a third world horde. It's going to play out in multiple, ugly and destructive ways across our once great country. I feel sorry for our children.
