

This Leftist Gave Me A Piece Of His Mind

Last week we discussed a group of women serving in Congress labeled "The Squad" who support various anti-American socialist concepts and policies.

In response to my column, I received a long, exhaustive email in support of The Squad while excoriating my supposed hateful, narrow-mindedness.

This week I want to take you into the mind of a leftist as I share his Un-American view. His philosophy of government is a direct contradiction to the America our Founders fought to establish:

Everything you are saying about the four congresswomen is absolutely false. The things they advocate are not only good for America, but absolutely necessary to preserve this country...There is absolutely nothing "socialist" about the policies of the Democratic Party...

- 1. It is absolutely essential for Americans to be able to earn a living wage. Laws against this are totally Un-American and totally unconstitutional.*
- 3. K-16 public education? This is absolutely necessary for America if we are to remain competitive in the global economy. A college education is simply too expensive for most young Americans. To deny them the financial help they need to do this can only be shooting America in the foot.*
- 4. If Americans cannot earn a good living and have good benefits and there is no help for them, this will cause mass poverty; unemployment and chaos in America and our entire economy would collapse. You know and understand*

absolutely nothing about our constitution... The constitution is whatever YOU and those with the same views say it is, not what it really is.

- 5. It is absolutely imperative for America to have good sources of energy other than coal, etc... A "Green New Deal " is not only essential, but entirely feasible. The U.S. government has been criminally negligent in failing to address the disaster situation in Flint, Michigan and other American cities. The U.S. government MUST protect the American people from such disasters, or it has absolutely no right to exist.*
- 6. The Trump administration's immigration policies are absolutely criminal, and Trump is guilty of crimes against humanity...Yes, we DO have concentration camps at our southern border...The Democrats and the squad do NOT advocate "open borders." All they are asking for is a humane treatment of people coming across our border...*
- 7. No one in the Democratic Party advocates allowing infants who survive botched abortions, to die!... No one in the Democratic party advocates women and doctors allowing born infants to die merely because they do not want them to live...*

Anti-choicers like you...couldn't care less if poor women who give birth to children starve and die in the streets along with their children. This is not only totally Un-Christian but also monstrously hypocritical...

7. Condemn Antifa? Antifa never attacks innocent people. Who are the real "terrorists?" They are neither evil nor dangerous. Right-wing extremist groups ARE evil and dangerous.

I for one would not want to live in the kind of America right-wing extremist evangelical Christians advocate. There would be no freedom at all.

If this leftist fears the loss of freedom, he would do well to

consider the warning of Founding Father James Madison:

“If Congress can employ money indefinitely, for the general welfare, and are the sole and supreme judges of the general welfare, they may take the care of religion into their own hands...they may take into their own hands the education of children, the establishing in like manner schools throughout the union; they may assume the provision of the poor... Were the power of Congress to be established in the latitude contended for, it would subvert the very foundations, and transmute the very nature of the limited government established by the people of America.”

I prefer the liberty established by the brilliance of our far-sighted Founders to the disastrous, short-sighted ignorance of Socialism.
