

Time to rescind 1965 immigration reform act

Much like the Titanic that sank on April 15, 1912, the United States stands at a critical juncture in the history of our nation. Few realize it, but, like the Titanic, this nation smashed into a piece of legislation in 1965 that was never asked for or approved by the American public.

In 1965, our 'Captain' Lyndon B. Johnson along with helmsman Senator Teddy Kennedy, Jacob Javitz and Howard Metzenbaum drove America into an iceberg of massive, unrestricted immigration that opened up the flood gates with the "Immigration Reform Act." At first, the flow of one million immigrants annually wasn't noticed. We were benevolent. We lived in a big country with only 194,000,000 (million) people. We enjoyed plenty of room and resources.

However, the massive flow of humanity from that legislation still pours into our country 51 years later and few seem to notice—much like the party-goers and dancing on the Titanic that kept up for hours after hitting the iceberg in the North Atlantic. However, even the invincible Titanic could not survive the onslaught from the constant flow of incoming water—slowly, methodically stealing its ability to stay afloat.

Today in the United States, 100 million immigrants later and pouring in at 1.5 million annually—both legal and illegal—our nation shudders from San Francisco to New York and from Chicago to Miami. We rose from 194 million to 326 million in five decades. What was once a benefit to our country is now a full-scale overpopulation, linguistic, sociological, religious, terrorist, cultural and societal crisis.

From stem to stern, our English language faces assault and our

schools drown in ethnic violence, rapes, drugs and gang warfare. In California, Texas, Florida and Arizona, our hospitals suffer bankruptcies from non-paid services for 350,000 annual 'anchor babies' annually. Fifteen to twenty million illegal immigrants displace jobs from America's working poor and depress wages for many others.

Leprosy, tuberculosis, Chagas Disease, hepatitis and other diseases pour into our country within the bodies of illegal immigrants who avoid health screening before coming on board the United States. The CDC reported 296 new cases of tuberculosis in Somali-immigrant- dominated Minneapolis, MN this past October, 2016. Even worse, clashing cultures with religions that celebrate 'female genital mutilation', honor killings and subjugation of women are growing in enclaves around our country. As Lincoln said, "A house divided against itself cannot stand."

On the environmental front, our nation explodes toward an added 200 million people that will approach half billion by mid-century. We create an 'irreversible crisis' with 'unsolvable problems'. California faces another 20 million in 30 years. Colorado will add five million by mid century. Arizona will add four million. They already don't have enough water. Florida expects to double from 18 million to 36 million by 2050.

Air pollution poisons what we breathe and massive sprawl devours our once lauded spaciousness. Species extinction accelerates as we add numbers. Much like the Titanic, our standard of living drops and our quality of life sinks with the influx of unrestricted immigration. Soon, we too, will become like the countries of Bangladesh, India and China.

On the employment front, our leaders outsource and offshore our jobs to Third World countries while they import the Third World into our country. America's middle class stands in unemployment lines. Our schools garble like dysfunctional

towers of Babel with over 140 languages. In my city of Denver, our schools feature 172 different languages. We cannot stay afloat with this kind of linguistic chaos.

Yes, we have compassion for immigrants, but it's our country and our children. Their leaders need to take care of them in their countries.

Unfortunately, Congress and leadership of this nation refuse to step below the water line to see how fast we are sinking. We suffer \$20 trillion in debt. California features 20 different languages on voting ballots. Whose country is this anyway? Our leaders stand in the wheelhouse totally insulated and isolated from those of us who shovel the coal, build houses, repair cars, teach our kids, drive school busses and plow roads.

At current immigration and chain-migration rates, we face a doubling of our population to 625,000,000 (million) in this century. Those numbers cannot be sustained.

We cannot save the world, but we can destroy our country if we fail to act.

Like the Titanic that cracked in half before plunging to the depths because no one stopped the incoming water, the United States like all great nations before us, could sink. You can see the signs all around our country. If you look around you, we're shuddering from bow to aft – from the stacks to the rudder.

Who is steering our nation and why are they heading toward more icebergs instead of changing course? What can you do? You are just as much an American patriot as Paul Revere, Betsy Ross, Thomas Jefferson, Teddy Roosevelt, Susan B. Anthony, Lincoln and the soldiers from Valley Forge to the Jungles of Vietnam and deserts of Iraq. It's time to start riding, stitching, writing, charging, demonstrating and fighting for our country within our country. We need to seal our borders

against this incursion.

Since our leaders won't stop this invasion of an 'unarmed army' of legal and illegal immigrants, it's up to you. Our children face a dangerous future if we fail to take action. It wasn't George Washington who beat the British army. It was every militiaman who shot from fence lines and trees. It wasn't Ike who won WWII. It was every GI who slung a rifle over his soldier. Susan B. Anthony marched and Dr. Martin Luther King demonstrated. They, in their time, paid the price for defending America so we could enjoy our freedom. This is your time.

Call for rescinding the 1965 Immigration Reform Act. How should we replace it? Answer: total shutdown of all immigration. We don't need any more immigrants. We cannot sustain any more immigrants. We won't survive any more immigrants. Create a national debate in every city council, every community and every state in the nation. Let's save our country before we won't be able to save it.

Call your senators and House rep: 1-202-224-3121. Demand a stop to all immigration and stop to any Syrian immigration.

Definition of slogan: "Immigration Shutdown Now means the American people want a total shutdown on all legal and illegal immigration. That means we want all illegal immigration stopped by arresting, prosecuting and jailing employers of illegal aliens. We deport all illegal aliens by taking their jobs away and as we catch them. We want English mandated as our national language. We demand a cessation of Muslim immigration in order to protect our culture, language and way of life. We can't save the world but we can destroy our civilization. We demand a stable population that allows everyone to live, work and thrive into the 21st century. Especially our children." FHW

That's why you need to take action. Send this series to

everyone in your network. Educate them. Urge them to take action by joining these websites to become faxers of prewritten letters and phone callers. We must force Congress into an "Immigration Shutdown Now!
