

Time to Take a Side and Make a Stand

I'm always amazed to watch people debate "who's the perfect candidate" when there's no such thing as a perfect person. How do you expect to get a "perfect candidate" from a pool of imperfect people? No such thing exists... The over-popular term "lesser evil" strategically used to divide the patriotic electorate, has a natural synonym... "better choice." The term "lesser evil" implies that there is a "greater evil," an option even less attractive.

People who want to only vote for a "perfect candidate" overlooked the reality that there is no such thing! They live in a fantasy world.

But one thing is very clear at this moment in history...our government is currently full of the most criminally imperfect people in our country, and that must change! Right now, a growing majority of Americans across the political spectrum see Trump as that agent of change...and the more the corrupt government tries to prevent him from running, the more patriotic Americans rush to his side in a growing revolt against that maniacal anti-American corruption.

The simple truth is, Americans see themselves in Trump, someone under massive assault by our corrupt weaponized government, fighting for his life against an all-powerful cabal of international criminals and global Marxist misfits.

They know that whatever our government can do to a high-profile billionaire, they can do even worse to any opponent, and they will. The left has made it personal now, and they have no rules of engagement, no conscience, and no shame!

What did you really expect from a society who thinks killing innocent defenseless babies in the womb is some insane protected right?

The Democrat Party made a critical strategic error when their lawfare turned a high-profile powerful billionaire into a “victim” of government abuses of power. They made Trump an “underdog” and Americans of all political stripes, always fight for an underdog, especially when they watch the government try to destroy a political opponent and all of his supporters!

The leftist lawfare assaults on Trump are a totally partisan politically motivated farce! Only a totally rigged trial could ever end in a conviction.

Never in American history has any political figure been so obviously targeted for destruction, by their political opponents. Never before have we witnessed an entire Justice System turned on its head, manipulated into an injustice system, all designed to defeat an otherwise undefeatable political foe. The people were awakened by what they have watched the criminal Biden regime do to Trump.

But at the same time, I’m also amazed at how easy it is to con millions of Americans, Pavlov training them to hate people they’ve never even met, regurgitate programmed lies as if they have some personal knowledge, willingly lie without conscience, and all because they were told to, by Trump’s political opponents, without a single individual thought of their own.

Despite it all, Trump is positioned to become the next President of the United States, so long as he picks the right

running mate, and escapes assassination attempts. Maybe he's sure to win because of everything democrats have pulled in the past nine-years against Trump, in broad daylight. Many who voted for Biden in 2020 have watched the democrats weaponize the entire federal government to "get Trump!" That's something that cannot be allowed in the USA, no matter one's politics!

Many years ago, I spoke of this historical moment in a few radio interviews, when the American people would finally realize the fact that our problems are not just republican vs. democrat... no, instead, our greatest problem is "the governed" vs "the corrupt government." The people are here now...

Who actually "divided America" ... How, and Why?

Of course, the people who actually divided America, blame the division on the people who didn't...the same people working to unite patriotic Americans for the sake of good over evil today. Accusing your enemies of doing exactly what you are doing is an ancient left-wing tactic of evildoers, often referred to as "projection." Nobody was better at it than Hitler and Mao, until Obama.

WHO?

In reality, those trying to turn our Constitutional Representative Republic into a socialist "democracy" are the people who "divided America."

"Marx and Engels believed that democracy is a means to achieve socialism, not an end in itself."

They set out to destroy everything in the Declaration of Independence, U.S. Constitution and Bill of Rights, and "fundamentally transform America" into something most Americans don't want. That's who "divided America," between Americans who love America and its foundations of freedom, and those who seek to destroy it.

Those trying to turn the USA in to some insane Marxist member of a global commune under the WEF, UN and WHO, divided the USA between freedom loving patriots, and everyone Pavlov trained to hate America, and even march for the likes of Hamas, chanting "DEATH TO AMERICA."

That's who caused the deep divisions in America, no one else. The fact that patriotic Americans are finally starting to fight back, in self-defense and preservation of national sovereignty and security, freedom and liberty, means the divisions created by the left are finally feeling a counter-push. They don't like it!

Before this 2024 election season is over, every American will be forced to take a side and make a stand, like it or not.

Why? ...is always the same!

This isn't about Trump...it's about the future of freedom and liberty the world over, because as America goes, so goes the world. If America is no longer free, no place on earth will be. There's nowhere to run, nowhere to hide. Only the political elites benefit from societal divisions, no one else. They divide in order to conquer, plain and simple.

HOW?

In 2008, Obama promised everyone he would "fundamentally transform America" and he sure has. He has made our country the sickest and most vulnerable it has ever been in 248 years. It was done by a "soft-coup," through "community organizing" by the best community organizer since Hitler.

The current so-called Biden administration is actually Obama's 3rd term, with Obama administration officials running the White House again since January 20, 2021. It's a fact, just research it for yourself.

There's no such thing as a "blue state" in the USA. There are

only “blue cities,” most of them “sanctuary cities” in direct violation of US Immigration and Naturalization laws, engaged in harboring millions of fugitives from countless foreign 3rd world lands. All of them, imported by Obama with specific purpose.

Both the 2020 and 2022 elections were rotten with fraud. The people simply cannot afford to allow that to happen again in 2024. No one can “sit this out” on the sidelines. Everyone must take a side, make a stand, hope, and pray for the best, but prepare for the worst our country has ever seen.

STOPPING THE STEAL in 2024 will not be easy. It will be a fight to the finish.

The outcome of this election cycle will either shore up our Constitutional Republic for another hundred years, or the USA will cease to exist. The stakes couldn't possibly be greater!

Now, some on the wrong side of this fight will attack everything I just said, using only the standardized broken-record talking points they were Pavlov trained by global Marxists. That's fine, I couldn't care less.

But the rest of you had best take heed... The time for talking is over. The time for action has arrived.

Doubt this message at the risk of your own peril...and that of all posterity!
