

To Be or Not To Be...American

By Lex Greene

January 1, 2024

The United States is a place on the map, a compact of fifty independent sovereign States who joined forces to form, fund and regulate a Federal Government with a very clear non-negotiable purpose as established by the US Constitution.

- *in Order to form a more perfect Union, (FAIL)*
- *establish Justice, (FAIL)*
- *insure domestic Tranquility, (FAIL)*
- *provide for the common defense, (FAIL)*
- *promote the general Welfare, (FAIL)*
- *and secure the Blessings of Liberty to ourselves and our Posterity, do ordain and establish this Constitution for the United States of America. (FAIL)*

It's all based upon the following foundational proclamations in the Declaration of Independence

- *to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them;*
- *We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty, and the pursuit of Happiness.*
- *That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed;*
- *That whenever any Form of Government becomes destructive*

of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to affect their Safety and Happiness.

These are the conditions established at our founding that govern everything in the USA, as “The Supreme Law of this Land.”

While the United States is a place, and the Federal government is a creation of the People under certain specific conditions listed in the Charters of Freedom, to be or not to be an American is something else.

Two things are required to be an American...

1. You must be a legally recognized member of our society, not an illegal invader from foreign enemy states with any foreign loyalties.
2. You must subscribe to all of the founding principles, values, and proclamations of the American culture.

You must speak the official American language, English. You must abide by all of the foundational Natural Rights of all American citizens, no matter race, creed, or color. You must pledge your undying pure allegiance to the same. You must be willing to uphold and defend the USA from all enemies, foreign and domestic. You must abide by all American constitutional laws and reject all unconstitutional acts by any governmental body or foreign entity like the UN, WEF, IMF, NATO, and WHO.

Not everyone who resides in the USA today is an American. In fact, millions reside in the USA who are wholly and blatantly anti-American. The enemies are inside the gates.

It's cut and dry, and very easy to identify who is an American and who is not an American.

- If you do not believe in a “republican form of government” guaranteed every citizen and every state in the US Constitution, you are *not* an American.
- If you do not believe in the most fundamental Right to Life for every innocent American, born and unborn, you are *not* an American.
- If you believe in some sick right to murder your own children in the womb for mere convenience sake, you are *not* an American.
- If you don’t believe that a strong traditional family is the foundation of any decent society, you are *not* an American.
- If you don’t fight for free fair elections above reproach, you are *not* an American.
- If you believe political opponents are guilty without being charged, tried or convicted of any crime, then you are *not* an American.
- If you believe that any form of fascism, Naziism, communism or socialism is better than freedom, you are *not* an American.
- If you support known Islamic terrorist organizations and terror sponsor states, you are *not* an American.
- If you oppose economic freedom in the form of legal and ethical capitalism, you are *not* an American.
- If you participate in acts of racism from either side, you are *not* an American.
- There’s more, but this should be good enough for now...

“American” is a belief system, not a place. If you subscribe to the American belief system and would risk your own life to protect and preserve freedom, liberty, and justice for all, then you are indeed a true American. But if not, then you are an enemy within the gates and a threat to all decent Americans and the American way of life.

“A nation can survive its fools, and even the ambitious. But it cannot survive treason from within. An enemy at the gates

is less formidable, for he is known and carries his banner openly. But the traitor moves amongst those within the gate freely, his sly whispers rustling through all the alleys, heard in the very halls of government itself."

Marcus Tullius Cicero

2024 will mark the moment in American history when Americans will decide their own future and fate.

The USA has literally millions of enemies within our gates, our government, our courts, our national security agencies, our states, and local communities. Millions more are invading our beloved country under Obama's Biden illegal migration operation, all paid for by American taxpayers, and recently given the right to purchase firearms by Biden's ATF, also paid for by American taxpayers.

Democrat politicians are making it "legal" for "illegal invaders" to be police, military personnel, even court judges, where they will have alleged (unconstitutional) authority over every American citizen. Democrats have corrupted every federal branch and agency and weaponized government against the American people. They have turned all major cities into sanctuaries for all criminal activities and democrat governors have turned whole States into illegal bastions for every evil known to mankind, in direct violation of federal laws, their State Constitutions and the US Constitution.

Make no mistake...foreign and domestic enemies are inside our gates, and they have been systematically transported and embedded in every American community, soon to be armed and empowered by our own government.

2024 will be the last chance Americans have to defend our way of life from the enemies within. If Americans fail to rise to this occasion, America will soon cease to exist.

The enemies abide by no laws and no rules of engagement.

Americans are normally peaceful, ethical, moral, law-abiding citizens. They won't break their basic foundations for peace without being forced to.

In 2024, they will be forced to...like it or not.

The Constitution and all its terms and conditions are the legal mechanisms by which the Federal government has any right to exist at all. When that government refuses to abide by the terms and conditions of the Constitution, and has become destructive of its sole purpose, it has no right to exist, much less rule over the people. The contract is null and void the moment the government breaches that contract and refuses to self-correct.

May God guide every American as we face the greatest threat to American freedom, liberty, and justice in 247 years.
