

To Save the Planet We Must Eat the Babies?

Karen Schoen

Recently I traveled to central Florida to speak about the condition of education in Florida. We discussed what can be done to help support Gov Ron Desantis and Commissioner Corcoran in their mission to rid Florida of Common Core and its various identities. I met some wonderful concerned people. I found it curious that the same question kept popping up over and over. "Where are the parents?" they asked. So I did a deep dive into history and said, They/ we were taught to be the silent majority. Silent they are.

Let's take a look at history for a minute. In the 60's the transformation from "traditional education" to John Dewey's "modern education". Modern education was based on psychological manipulation not skills. Psychological manipulation provided the current acceptable "appropriate responses" to situations. Psychological manipulation promotes right brain dominance. Left brain focuses on learning skills which allows the individual to make informed choices. [With right brain focus emotion rules and NO opposition is allowed.](#)

Opposition is shamed, vilified or deemed as evil with the intent of extermination. Using psychological manipulation the choices that are made are from list of acceptable responses so there are no real individual choices.

Below is a current test which is a perfect example of

indoctrination. Notice the first 3 Presidents listed are GOP. The correct answer is “Trump is an idiot”. What will stick with the impressionable child? – Trump is an idiot

[Florida parents outraged after middle school quiz describes President Trump as an ‘idiot’](#)

In order to institute this modern education, more indoctrinated teachers were needed to fulfill the growing baby boomer population. The Vietnam War was used as a tool to recruit as it was a draft lottery. To increase the teacher pool, teaching became a draft exempt job. At this time America was in the top 10 worldwide of all education categories. Yet we were told America is doing terrible in the world and changes had to be made into modern education.

Baby Boomers were taught to be the silent majority – the school knows best. Parents took a back seat to the school and allowed the school to take over child rearing, after all we were told, the teachers are the experts. Following the words of Nikita Khrushchev in 1960, “We cannot expect Americans to jump from capitalism to Communism, but we can assist their elected leaders in giving Americans small doses of socialism until they suddenly awake to find they have Communism.” What better way than to follow their leaders: Stalin, Lenin, Hitler, Mao and Castro. They all chose the schools to begin the small doses of communism. Today America’s education is based on communism not capitalism. Funny how the left millionaires / billionaires made their money using capitalism. They have become the “Do as I say, not as I do” crowd?

“You can rule ignorance; you can manipulate the illiterate; you can do whatever you want when a people are uneducated, so that goes in line with corrupt business and corrupt politics. [\[Link\]](#)”.

The hidden goal of education: “to destroy successful American

capitalism. In order to take down America, its values and history must be destroyed. The American family was high on the hit parade. Welfare favored the single parent family, the feminism movement made sure that males were constantly under attack. 1963, as the silent majority remained silent as G-d was removed from schools. Morality was out the window.

UNESCO began its efforts to infiltrate global programs in schools creating global citizens who hate America. All school programs became "sustainable ...science, environment, math, literature". The message was the same. Humans are the enemy of the planet. What a burden for students to carry!

Our reading method changed from successful PHONICS – which uses the sounds of letters to learn to read, to unsuccessful and confusing Whole Word reading which uses the shapes and positions of letters read words. Successful traditional math was changed to unsuccessful and confusing Eureka math.

Modern Education focused on feelings and emotion, not on truth through facts. Lies became the acceptable way of life so the ends could justify the means. The Dewey method was simple: Follow teaching of Edward Bernays, father of modern advertising and message using emotion. The school created the message. The media and Hollywood reinforced the message. What better message than making humans the villain destroying the planet.

Using these failed Education programs insured the dumbing down of America as we watch our world standing slip to 47th. Massive social programs focused on psychological manipulation promoting LGBTQ as the new normal were brought to school leaving little time to actually learn. Why use LGBTQ?

The earth is overcrowded, too many people, we must control the population was the theme now found in all texts as sustainability became the calling. Does anyone know what sustainability means? Following the 1983 **World Commission on Environment and Development** (WCED), chaired by Gro Harlem

Brundtland, a 1987 report named 'Our Common Future' was published, defining Sustainable Development as: 'development that meets the needs of the present without compromising the ability of future generations to meet their own needs' FYI Hillary said Gro Harlem Brundtland is her best friend. [[Link](#)]

Basically you can not use any natural resources because they might get used up for the future. This is truly A NO GROWTH PLAN. A plan Obama escalated and the democrat candidates are pushing. Falsely claiming we were having fresh water shortages and food shortages, the unsuspecting children and teachers were led down a path of self destruction. Behind the scenes the thought process followed Josef **Stalin** – 'When there's a person, there's a **problem**. When there's no person, there's no **problem**.'

LGBTQ, abortion, suicide, war, pledging not to have children because of climate destruction all while destroying relationships were perfect tools to limit population. Today we learn that our western population is decreasing. Mission accomplished.

By conflating pollution – which people can control, with weather/climate which people can not control, enough people were indoctrinated into thinking that humans can control the weather. If you tried to tell the truth you are EVIL and want dirty air and water. Remember EVIL can be exterminated. How do you get million of people to follow you, YOU LIE TO THEM. You create a dumb society who can not read write and do simple math or science. You will never be questioned as you will become the experts. You create group think or cognitive dissidence whereby a truth is know but still not believed by the group. Non believers are EVIL.

“We need to get some broad based support, to capture the

public's imagination... So we have to offer up scary scenarios, make simplified, dramatic statements and make little mention of any doubts... Each of us has to decide what the right balance is between being effective and being honest." – Prof. Stephen Schneider, Stanford Professor of Climatology, lead author of many IPCC reports. Multiple times the Intergovernmental Panel on Climate Change (IPCC) had to retract [phony reports](#).

"No matter if the science of global warming is all phony... climate change provides the greatest opportunity to bring about justice and equality in the world." – Christine Stewart, former Canadian Minister of the Environment

The baby boomer generation was coerced and indoctrinated into allowing school to have the final word regarding the child. Students were constantly told their parent know nothing. School is their new family. They were fed superficial items, jealousy was promoted as people were one upping their neighbors. Following Edward Bernays, slogans and material objects became the measure of success. The Baby Boomer generation was gone.

"The only way to get our society to truly change is to frighten people with the possibility of a catastrophe." – emeritus professor Daniel Botkin

By eliminating traditional factual math and science schools presented the lie. The media and Hollywood reinforced what was learned. Programs like Father Know Best – showing family values, were replaced with All In the Family and later Married With Children – showing it's normal to be dysfunctional. Almost all series now contained the global warming message and an LGBTQ character. Although there are [only about 4.5% of the American adults who identify as LGBTQ](#) almost every program on TV has an LGBTQ personality. This gives the appearance to most that this group is much larger enabling laws to be passed that favor this tiny group at the expense of the majority (I thought a democracy was control by the majority not the

minority). This is the beauty of not knowing math.

This rise in the LGBTQ community is because of the massive promotion of LGBTQ ideology in schools. When porn becomes the norm, this is the result. When most behavioral problems are directed to gender problems, this is the result. When a person is told they can change genders as a solution to their troubles, this is the result. When biology is not taught in school, this is the result. When you want to screw with the minds of the youth, this is the result. I have nothing against the LGBTQ community. That is not my point. Any adult making a decision about their life is their business. I object to impressionable children being indoctrinated into making life changing decisions without knowing the consequences just to satisfy the elite in their desire to control the political arena.

Now that the Baby Boomers were silenced, what did their children learn?

What did your children and grandchildren learn?

While we were being called EVIL, this book appeared in school. What does it say?

Rescue Mission Planet: Earth a child's edition of Agenda 21 (1994)

I found pollution is mixed with climate. **Little mention of sun?, moon? evaporation?**

- P11 – Death By Smog – Problem: we are killing the ozone
Solution: **get rid of aerosol cans, AC, Refrigerators**
- P12-17 Vanishing Mountains, Expanding Deserts, Problem:
Soil degradation – Solution: **Ban CO2, ban deforestation**
- P22-27 Polluted Oceans, Problem: no fresh Water –
Solution: **Ban Plastic Straws, 40liter water limit**

- P32 Population too many people Problem: unsustainable consumption – Solution: **Tax those causing pollution, limit consumption of food, air, land, H2O,**
- P34 Children Problem: are economic drain – Solution: **abortion, sterilization, jobs, LGBTQ**
- P35 Men are the Problem: – **not burdened with childbirth, men exploit children** Solution: **Feminize, demonize men**
- P46 Energy – Problem: Dirty Air from Fossil fuels creates climate crisis Solution: **Reduce consumption, Ban, Tax**
- P60-73 Military – Problem: Spends too much Solution: **Take money from military to give to environment projects**
- P74 – Education – Problem: Not in school long enough Solution: **Cradle to grave- Environmental training, PPP, Sustainability**
- P78-89 Role of Children – Problem: Must become vocal to carry message Solution: **Learn all opposition is EVIL; become activists**

We have created an anything goes – no morality, no G-D society where instant gratification is demanded. This indoctrination causes hopeless. Life has no value. Relationships are minimal. It is no surprise that many turn to suicide, drugs, drink, murder or mass murder. It is not mental illness, it is programming. We are programming thousands to copy CIA programmed trained assassin, Jason Bourne? When the triggers are in place, they will kill.

Parents call police on adult daughter – [they discover pipe bombs that could have killed thousands](#)

Why did she do this? Her answer – to hurt people. Solution: **Gun Control**

Just recently we learned the solution of too much CO2. Bill Gates wants a world without CO2. We were told that COs (a gas

that comprises .03% of the atmosphere) is the major cause of pollution. This is mathematically impossible. The truth: humans expel CO₂ – plants need CO₂ to grow our food. By blaming CO₂, we can blame humans for expelling it. We can curtail CO₂ and destroy the plants ability to create food so we can say we have a food shortage and can not support all these humans. Therefore we have to eat babies. There are too many people, too much pollution. We need to eat the babies. In a world without G-d, anything goes.

A woman advocates eating babies to stop global warming

She is not alone. [A Liberal Professor Suggests Cannibalism To Fix Global Warming](#)

Bad enough this was suggested; worse is that no one objected. Look at their solutions. Their solutions can not and will not ever will work. They are not supposed to work for if they worked, the masses would not need government and the government could not demand more money to fix the problem. We would be a perfect society. Sadly this is the third generation lost to the communists and this way of thinking.

Is America Worth Saving?

I hope we all can agree that Eating the Babies IS NOT THE SOLUTION.

President Trump can not do this alone. The solution is in our schools. If we do not pay attention and demand a change to the curricula and texts in 4-6 years the 4th generation will be lost to communists, and American freedom will be gone. These new young communists who have no idea of liberty and freedom will vote for communism.
