

Top Issues Facing Americans In 2019

You, an American citizen, know me to be a straight shooter. I tell it like it is. I give the facts and support them with evidence. I don't sweat the small stuff, because it's all small stuff. With all that said, I love America, warts and all. I love our Constitution. Yes, when I stand up against illegal immigration, and when I call for a shutdown of all immigration for the next 20 years, I do it for common sense, rational action and a look toward future generations enjoying a thriving civilization.

Here's a few things we need to consider in 2019:

How Republicans deny people their right to vote: require voters to be U.S. citizens or legal immigrants who earned citizenship. Require identification so we know who you are and your validity to vote. Require that you vote only once in accordance with our laws. Finally, you must be a live person to vote in our elections, not from your pine box, i.e., like much of California, Chicago, Denver, Minneapolis, New York City and other metro areas where voter fraud sways elections.

Democrats in 1961 gave us John F. Kennedy, who said, "Ask not what your country can do for you; ask what you can do for your country." Today, Alexandria Ocasio Cortez (D-NY) tells her constituents, "Free stuff for all of you...we need socialism, so everyone is equal...and I don't know how we can achieve that without anyone working, but somehow, I'll figure it out..." Democrats also gave us in 2019, Muslims who wrap themselves in the Palestinian flag upon being elected to U.S. House of Representatives while they swear themselves into office with the Islamic Quran that mandates destruction of the United States of America by force or birthrates. Fancy that Democrats, and you're not even embarrassed!

Imagine if those 7,000 caravan people marched on their own government demanding change instead of marching 2,000 miles towards our country and demanding charity, food, housing, medical, schooling and welfare for life.

The “me” generation or “millennials” want to **start** a revolution because they need “safe spaces”, yet they lack the understanding because they haven’t read the U.S. Constitution, and most of them lack common sense and, hell, most of them don’t know the name of our first president and they couldn’t tell you the names of their two U.S. senators, and they don’t know how **start** a lawnmower to mow a lawn. House Member Cortez leads them with her knowledge that the three branches of government in Washington DC are: presidency, senate and house.

The joke of the year is when Abraham Lincoln said back in 1861, “The worst mistake I ever made was appointing Ruth Bader Ginsburg to the Supreme Court.” In other words, giving old people with cognitive decline the ability to remain on the highest court in the land stands as the prime reason for term limits and the same for all 535 congressional, career, criminal politicians.

Now that Miss Pocahontas Elizabeth Warren, (D-MA), wants to run for president, we have our first Indian maiden running for the White House. She named her Jeep “Elizabeth Warren”. It’s white but she says it’s a Cherokee. She might be a Lakota, Sioux, Chippewa, Blackfoot, Nez Perez, Ramadan, Apache, Seminole, Clatsop, or any of a dozen tribes—but she’ll get back with us after her DNA tests prove her minority status as an All-American Indian princess.

You might enjoy the X-ray that shows the difference between Obama and President Trump: a spine!

And for those who watch CNN, or Clinton News Network, where black man Don Lemon proclaimed that the biggest terrorists in America are ‘white men’ and that he needs to do something

about them, I don't watch CNN for the same reason I don't drink from a toilet. My dog does, but not me.

As to the TV national farce and the snowflake Christine Blasey Ford who got attacked at a college party by some mysterious man, I hope she enjoys the millions of dollars she garnered on "Go Fund Me" for her 15 seconds of vitriolic fiction on national television. What a flake of a woman and a disgrace to integrity.

And to the farce of the United Nations, what a joke! What a group of frauds that do nothing, but the American people pay and pay and pay.

Also, how to avoid being separated from your children at the U.S. border: First step—don't cross illegally. You are not a U.S. citizen, but if you want to come to America, do it legally. That way, you get to keep your children with you. Do it legally and we will welcome you and your children.

Did you see the "Yellow Jacket" rebellion in France? President Macron, who has lost his country to an Islamic invasion, crumbled like a biscuit when his countrymen stood their ground. At some point, all European men must grow a 'pair' and stop the invasion of their countries by Moslems.

And to you, dear fellow American citizen, let's try to save our country from this continuing immigration invasion both legal and illegal in 2019.
