

Trump: 60 Executive Orders and still going strong

By Karen Schoen

February 21, 2025

No Democrats, President Trump is not putting tariffs in place or shrinking the government waste so he can get rich. Actually Trump is one of the only presidents who lost money while in office.

What Trump will do is find the people that went after him unfairly, unconstitutionally and bring them to justice. He will give them a fair trial where they could mount a defense – which he was not allowed to do. He will present real evidence and not burn it after the presentation.

He will not lie like 51 Intelligence agents did to continue the Russia hoax. He will not tell our enemy not to worry, they will be alerted of any policy change affecting them. He will not leave our soldiers behind. He will not ignore victims of disasters and crimes.

President Trump is doing everything he can to eliminate the destructive, divisive DEI policy that has divided America and destroyed many great companies. As a former teacher, I can tell you that DEI never works. Skin color over merit is a loser from the beginning. If you don't teach people to read, they can't read no matter what their skin color is. Only 12% of the kids in Chicago can read. That means 88% of the kids CAN'T read. What future do they have? Why can't they read? Is it because they are minorities? NO it is because they are not

being taught to read. They may grow up to be wonderful people but if they can't read they will always be behind. Think of this: people who can't read are slaves to those who can. Putting illiterate people in a top positions won't change the fact they are illiterate. Putting illiterate people at top positions will make sure there are mistakes.

Getting rid of incompetent people is not vengeance, it is common sense. Downsizing a bloated overly expensive government is not vengeance . It is Common Sense. Yes Trump will reward his donors, We The People are his MAGA donors. Under Biden the IRS went after small businesses putting them out of business. President Trump knows that small businesses are the backbone of any successful endeavor in America. The country is already in massive debt. His goal is to increase small businesses not destroy them. Adding to the debt and continuing the funding of programs designed to launder money back to the democrat party and causes will not help anyone.

A good journalist would ask the Dems why support the programs and money spent from USAID like:

- ◆ \$10M in DEI Grants for colleges to study Transgender Lab Animals
- ◆ \$2.5 million to study the fertility of transgender mice.
- ◆ [WCW investigation Chinese lab torturing 300 cute beagles a week with our money](#)
- ◆ DOGE report found that the Biden Admin spent more than \$174 million tax dollars towards promoting gender ideology and trans indoctrination.

Do you think the people in East Palestine could have used that money? How about the thousands of people in North Carolina, Hawaii or LA?

Watch all the Dems and RINOs cry and waste money in court to keep the status quo instead of downsizing as they fight for programs that are designed to be wasteful, illogical,

fraudulent and abusive. As long as the programs are expensive and they can convince you to keep voting for them they win. But times are changing. This is one of the best explanations I have read thus far. <https://eko.substack.com/p/override>. It is critical that you keep in contact with your legislators and keep them from becoming squishy. They must support President Trump. Stop listening to talking points and listen to the press conferences to hear what Trump is actually saying and doing. He will tell you exactly what the deal is.

Take tariffs for example. While the left is moaning, Trudeau already said he will close the border. How many Americans and Canadians realize the trade imbalance we have with Canada. [Here are just some historic tariffs Canada hits America with.](#)

Milk: 270% Cheese: 245% Butter: 298% Chicken: 238% Sausages: 69.9% Barley seed: 57.8% Bovine/meat: 26.5% Cars: 25% HVAC: 45% Vacuums: 35% Cable boxes: 35% TVs: 45% Steel: 25% Aluminum: 45% Copper: 48%.

https://wits.worldbank.org/gptad/database_landing.aspx

Illegal immigration is a lie as well. According to author, JJ Carrell, 3% of illegals work in Agriculture, 13% work in construction, 7% work in food service hospitality. The idea that a world power, America, can only survive on the backs of illiterate foreign national illegals is a total lie. Quite absurd I say.

We must continually watch our state. President Trump can not do this alone. Look at Florida. The RINOS in the Florida congress underscore the lack of desire to follow any requests of constituents. Florida has over 1 million illegals costing taxpayers about \$2 billion but the donors are happy. RINOS have no commitment to their constituents. Governor DeSantis put out a strong immigration bill. The squishy RINOs watered it down. [Support Governor DeSantis, tell your RINO legislator not to vote to override the governor's veto.](#)

President Trump is moving fast. He looks at every day as the

last day. It is wonderful to get up in the morning and look for the next policy he will change which drives the left crazy. Nothing is off the table. From illegals, tariffs, fossil fuel or climate change. Whatever is a harmful regulation will be changed. The lies will be exposed. President Trump is a big picture guy. He believes that everything is connected. Join H Sterling Burnett and I as we discuss some history behind those executive orders and the affect of the orders on our future.
