

Trump Must Reverse His Support Of Dangerous 5G

Before I get to Trump's misguided support for 5G, I have to express my utter shock at what AG William Barr [said at his presser last week](#) prior to releasing the Mueller report:

"I would like to offer a few comments today on the report.

"But before I do that, I want to thank Deputy Attorney General Rod Rosenstein for joining me here today and for his assistance and counsel throughout this process. Rod has served the Department of Justice for many years with dedication and distinction, and it has been a great privilege and pleasure to work with him since my confirmation.

"He had well-deserved plans to step back from public service that I interrupted by asking him to help in my transition. Rod has been an invaluable partner, and I am grateful that he was willing to help me and has been able to see the Special Counsel's investigation to its conclusion. Thank you, Rod.

"I would also like to thank Special Counsel Mueller for his service and the thoroughness of his investigation, particularly his work exposing the nature of Russia's attempts to interfere in our electoral process."

Like Mueller (*prior* to the release of his 'get Trump' report), Barr has been praised as a man of complete integrity, honesty and a real justice warrior. Individuals I hold in the highest regard, i.e., Joseph DiGenova and Victoria Toensing, have publicly stated many times Barr will go after all the dirty players in the Russia hoax scheme.

If that's the case, how in God's name could Barr praise one of the dirtiest, slimiest players in the Russia collusion hoax, Rod Rosenstein, who looked very constipated during the

presser? How in God's name could Barr praise DIRTY cop, Robert Mueller?

I suppose he couldn't very well stand there in front of the world and say both of them belong in a federal prison. That would not have played well at all. Perhaps it was just the standard BS before he got to the report. Time will tell. Perhaps down the line he will be holding another presser announcing both of them are indicted for numerous crimes and how disappointed he is in them. That would certainly give the impression he was on their side only to, alas, have to be the one to indict them.

Think not? Carl W. sends out emails on a regular basis with pearls of wisdom. A few paragraphs from his recent one which I believe is spot on: Why Mueller is Worried

"When Robert Mueller was appointed by Deputy Attorney General Rod Rosenstein as Independent Counsel to investigate Russian collusion with the Trump Campaign, he set about to find any dirt on Trump himself by picking the most vile team of Trump Haters he could muster. He used every unethical method imaginable to force his victim witnesses like Paul Manafort and General Flynn to say Trump did something illegal or unethical, yet with all that, Trump came out vindicated.

"Let us not forget that Robert Mueller was FBI Director under President Obama, and that he served during the time the infamous Uranium One deal was made with Russia to secure 20% of all American Uranium. It was at that time that an informant had come forward to say that all kinds of illegal shenanigans had taken place to facilitate Uranium One. In response to his disclosure, the informant was forced to sign a non-disclosure agreement under threat of criminal prosecution.

"So, the information the informant made available to the FBI under Mueller's leadership never became public at the time, and the Clinton Foundation received \$145 million dollars in,

“donations”, from those, some Russian, who directly benefited from the Uranium One deal.

“So even though Mueller could find no evidence against President Trump or his campaign that could lead to an indictment involving collusion, Mueller and his team deliberately wrote their report to state the investigation did not exonerate President Trump on the issue of obstruction...The problem is that prosecutors do not look for exoneration. Prosecutors look for evidence of a crime, and if that evidence is insufficient, they simply do not bring charges.

“But Mueller’s report left the door wide open for Congress to deal with the issue of obstruction, mainly because it was Mueller’s last ditch effort to keep President Trump busy defending against a Democrat-planned multitude of frivolous investigations so that nobody will look at Mueller’s failure to act on the information the Uranium One informant produced when he was FBI Director.

“I believe it will be revealed that Mueller himself somehow benefited from the Uranium One Deal, and that is why Mueller is worried. I also believe evidence will be revealed that Rod Rosenstein also benefited from Uranium One, which is why he convinced Attorney General Jeff Sessions to recuse himself and allow Rosenstein to appoint Mueller in the first place.” End.

The Internet is drowning in commentary and attacks on Trump, Barr and Mueller over the release of his report. What a meltdown! At the bottom of this column are what I consider worthy of your time to read on this criminal enterprise to 'get Trump'. When you have time. A lot of important information in them. You'll also see the incredible bias from the Democratic/Communist Party USA's media.

As some who follows the circus nightmare day in and day out, it's obscene how utterly dishonest the MSM is regarding this manufactured hoax. It's unreal how they all say Mueller's report proves collusion, obstruction and the need to impeach Trump. Barr is now Trump's personal defense attorney, blah, blah, blah. I will celebrate the day they all go out of business because of their dishonesty and deceit.

Years ago, I wrote a column titled, [Pelosi & Her Brassiere Brigade](#). Those out to hang Trump I've decided to call the **Straightjacket Brigade** as they all have gone over the cliff.

In my lifetime I've never seen anything like what we're seeing now and *it is not going away*. These relentless attacks on Trump will continue. Impeachment very likely will happen as the U.S. House is infested with loons, professional prostitutes and power mad poltroons who to this day refuse to

accept the fact their favorite career criminal, Hildebeast Clinton, did not win the election in 2016. Only dementia addled Nancy Pelosi can stop an impeachment effort.

5G

Tens of millions of Americans are suffering from the effects of so-called 'smart' meters. Regular readers of my columns know the battle we fought here in Texas. It's still going on across the country.

Tragically, this deadlier volume of 'dirty' wireless communication is now being shoved down our throats – 5G:

A must watch. It's not just schools. I notice when I'm in big hotels I get terrible migraines. Why? I believe it's because of the massive amount of wireless in a 50+ rooms building.

Those of us following the destruction of our Republic know President Trump is getting really bad advice on so many issues it’s frightening. Yes, he is overloaded everyday as all presidents are but he must take more time to read research on issues like 5G.

[Trump signs order to set U.S. spectrum strategy as 5G race looms](#)

“White House officials said they do not support any effort to

nationalize the 5G network. A leaked document in January suggested the administration was considering the idea.

“We will prioritize efforts to accelerate the private sector’s development of 5G, so that the American people can reap the rewards of this incredible technology,” White House adviser Michael Kratsios told reporters on Thursday.

“Democratic Federal Communications Commissioner (FCC) Jessica Rosenworcel questioned the length of the time for the reports. “Other nations are moving ahead while we’re headed to study hall – and in the interim we’re slapping big tariffs on 5G networks. This doesn’t speed our 5G leadership – it slows us down,” she said.”

The ONLY reward is destroying our health and killing us slowly.

Make your voice heard to President Trump. If the WH comment line is busy, just call the damn switchboard and tell he or she you want President Trump to withdraw his support of 5G. [Phone numbers are here.](#)

All of us can reject this “service” from our Internet and wireless phone providers. Tell them no. At the sake of repeating myself: If you don’t buy a product, companies quit making them. Stop funding our own destruction by refusing to support incumbent politicians and corporations hell bent on killing us with their latest technology and lies – all for greed.
