

# Trump – the only one that can save America from invasion

After the massacres in San Bernardino, Boston Marathon, Chattanooga and Fort Hood along with dozens of foiled attempts in 2015, our U.S. Congress continues importing Islamic refugee terrorists monthly by the thousands.

Would you invite a known murder into your house? Would you pay for him with your tax dollars? Would you allow him to travel throughout your house knowing that he could harm your wife and children?

Hundreds of thousands and now into the millions of Muslims slipped into America without any intention of becoming Americans. Total take-overs in Miami, Detroit and Minneapolis. Mexican illegal aliens march in the streets of America demanding their 'rights'. That's like a band of bank robbers demanding not to be arrested and allowed to keep robbing more banks by bringing in their buddies to help them.

What you're seeing is a complete breakdown of the rule of law in America. What you're witnessing: the colonization of America by other countries. Further, you're watching Obama and your senators and House members aid, abet and assist this assault on the United States.

Congress imported over 4,000,000 (million) Muslims who stand with one of their leaders, "Islam isn't in America to be equal to any faith, but to become dominant. The Qur'an should be the highest authority in America, and Islam the only accepted religion on Earth." Omar Ahmed, director of Council on American Islamic Relations."

Islam possesses no work ethic. Islam's philosophy remains: conquest. Islam's economic system means the conquerors live off the bounty of the conquered and look for new people to

loot. You see it in Europe today, but Canada, America and Australia grow large in their cross-hairs. You may forget that the Middle East remains a desert, however oil makes its leaders rich, but its people remain illiterate and poverty stricken. Their oil gives the illusion of functioning economies, but foreign interests run their management of the oil fields. Importing millions of Muslims creates welfare and conflict within a host country.

Obama's top aide Valerie Jarrett said this in 1977 in the yearbook at Stanford University: "I'm an Iranian by birth and my Islamic faith. I am also an American citizen and I seek to help change America to be a more Islamic country. My faith guides me and I feel like it is going well in the transition of using freedom of religion in America against itself."

If you travel to Dearborn, Michigan, you see a complete and total takeover by Muslims known as a "caliphate" or nation within our nation. They practice de facto "Sharia Law" which subjugates women to the Islamic practice of female genital mutilation, honor killings and arranged marriages. They use our tax dollars to support their four wives, which they call "extended family." In Detroit, Muslims fly the Islamic black flag and never fly American flags. They won't sing our National Anthem or Pledge of Allegiance. They cannot and never will become Americans, but they will degrade America into Sharia Law with their growing numbers brought to you by Congress and Obama.

The latest report shows that 500,000 Muslim women in America suffered female genital mutilation, a barbaric practice of cutting a woman against her will into total loss of her sexual being. This 6th century barbarity in our 1st world country? How insane can we be to allow it?

"Immigrants devoted to their own cultures and religions are not influenced by the secular politically correct facade that dominates academia, news-media, entertainment, education,

religious and political thinking today,” said James Walsh, former Associate General Counsel of the United States Immigration and Naturalization Service. “They claim the right not to assimilate, and the day is coming when the question will be how can the United States regulate the defiantly unassimilated cultures, religions and mores of foreign lands? Such immigrants say their traditions trump the U.S. legal system. Balkanization of the United States has begun.”

Meanwhile in Arizona, “Illegal aliens cost taxpayers \$69 billion annually (just in social services) in federal programs in 2014. Studies estimate that amnesty would increase that three fold. Perhaps as high as 80 percent of the violent crime in Phoenix area involves illegal aliens (according to Phoenix Chief Hurt and Mesa police violent crimes response team). Over 4000 homicide warrants issued by the Border States to suspects who are believed to have fled south of the border into Mexico.”

Citizen Robert Tecau said, “I am compelled to contact you regarding the ongoing invasion, occupation and colonization of the United States of America, by hostile enemies from Mexico and points south...an invasion that is being facilitated, aided, abetted by many U.S. politicians.

“Since when does a mob of hostile, foreign criminals, in this country illegally, have any say whatsoever in how our nation is to be governed, much less demand that they be extended the same rights and privileges as legitimate, law-abiding, U.S. citizens?

“Is it not yet obvious that we have reached critical mass with this terrible situation? What’s it going to take, another bloody Civil War, culminating in the deaths of countless Americans, before our federal government finally comes to a realization as to just how far down this dangerous rabbit hole they have taken us?”

One look at Paris, France or Berlin, Germany or London, England shows you the final ending of the immigrant invasion. You either vote in a president who will stop it, Donald Trump, or you watch your country being invaded by invitation of your own elected representatives.
