

# Trump's Campaign Promises, Congress & the States, Part 3

By: Devvy

April 15, 2024

Part 1 of this series, [Can Trump Deliver on His Campaign Promises?](#) dealt with the issue of how do we stop the shadow government from stealing the election from Trump a second time? [Part 2:](#) How to stop the illegals invasion for good and Trump's number one promise – mass deportation.

[Art II, Section 2 & 3](#) of the U.S. Constitution: Presidential power clearly defined and limited. No where does that include submitting a budget to Congress. If a bill which becomes law is written properly by Congress there is no need for EO's.

In 1945, CONgress made EXIM an "independent" agency under the executive branch. No where in Art. 1, Sec. 8 of the U.S Constitution does it authorize CONgress to create banks (i.e., the unconstitutional Federal Reserve Banking Act of 1913) to aid anyone in financing – especially foreign countries.

Then president Trump signed an extension for the Export-Import Bank which was twisted up in the "Further Consolidated Appropriations Act in 2020 which allows that "independent" agency to operate until 31 Dec. 2026. Trump should have said no. Supposedly that bank was created to help small businesses. It's not the function of the U.S. government to help small businesses. **A true free market, capitalism, is what allows companies, big and small to become successful.** [And who funds that racket?](#) The people's purse now in debt to

the tune of nearly \$35 TRILLION bux.

Joseph Story, Associate Justice, U.S. Supreme Court, said in the 'Commentaries on the Constitution' (1833):

**“Another not unimportant consideration is that the powers of the general government will be, and indeed must be, principally employed upon external objects, such as war, peace, negotiations with foreign powers and foreign commerce. In its internal operations it can touch but few objects, except to introduce regulations beneficial to the commerce, intercourse and other relations, between the states, and to lay taxes for the common good. The powers of the states, on the other hand, extend to all objects, which, in the ordinary course of affairs, concern the lives, and liberties, and property of the people, and the internal order, improvement and prosperity of the state.”**

Too many presidential Executive Orders have and are being used to circumvent the Constitution or advance political agendas.

[“Joe Biden signed more than a dozen executive orders in his first hours as president](#) on Wednesday, the first salvos in a coming legislative and regulatory crusade to erase Donald Trump’s legacy from federal law and advance his own agenda.”

[Americans Shocked, Angered: Trump’s Latest GMO Executive Order](#), July 8, 2019 (Mine) – “As someone who tries very hard to stay healthy – which means eating ‘clean’ – once again I was shocked by a recent Executive Order signed by President Trump on June 11, 2019. In fact, I was sickened just like I was when he signed the first devastating one dealing with genetically modified food and animals back in 2017.

“Organic food growers and livestock ranchers were justifiably upset over the 2017 E0 as I was because I know how dangerous GMO foods and livestock pumped full of hormones and other dangerous chemicals can be to the human body. I buy 90% organic and what’s called free-range or grass fed only. I read

labels. I buy a particular brand of mayonnaise and right on the front label it says: GMO free. ANY GMO food, fish or animal stays on the shelf or in the refrigerated section...

“Due to the federal government operating outside the U.S. Constitution with unconstitutional cabinets (EPA, Federal Department of Education, HHS) and programs (foreign aid) who the heck can keep up with the zillion regulations? If you’re in a specific industry you have to or suffer the consequences...

[SHOCK as Trump signs executive order that will end most regulations and oversight on genetically engineered food](#), June 12, 2019

[What is an Executive Order?](#) (Emphasis mine)

“The U.S. Constitution does not directly define or give the president authority to issue presidential actions, *which include executive orders*, presidential memoranda and proclamations.

“Instead, this *implied and accepted power* derives from Article II of the Constitution, which states that as head of the executive branch and commander in chief of the armed forces, the president “shall take Care that the Laws be faithfully executed.”...

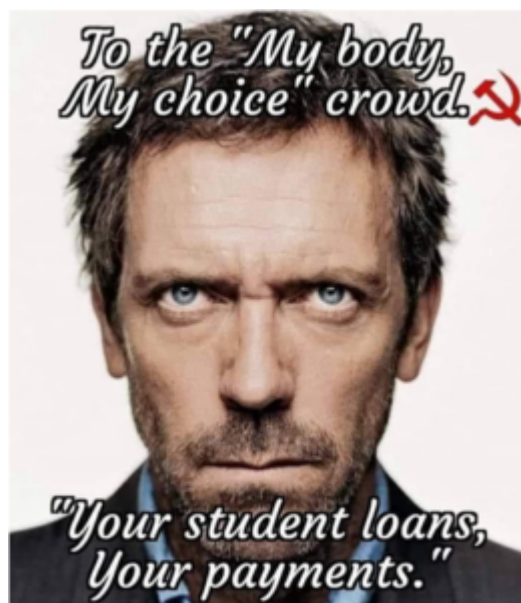

“With an executive order, the president instructs the government how to work within the parameters already set by Congress and the Constitution. **In effect, this allows the president to *push through policy changes without going through Congress.***

[Art. I, Section 8](#) specifically defines the ONLY powers Congress has, period. Both parties have just about completely ignored the restrictions placed on them by the U.S. Constitution along with a slew of presidents and usurpers like Hussein Obama and pedo Joe Biden.

## Missouri vs Biden: COMPLAINT FOR DECLARATORY AND INJUNCTIVE RELIEF

### INTRODUCTION

1. Yet again, the President is unilaterally trying to impose an extraordinarily expensive and controversial policy that he could not get through Congress. This latest attempt to sidestep the Constitution is only the most recent instance in a long but troubling pattern of the President relying on innocuous language from decades-old statutes to impose drastic, costly policy changes on the American people without their consent....
2. His student loans actions are no different. Just last year, the Supreme Court struck down an attempt by the

President to force teachers, truckers, and farmers to pay for the student loan debt of other Americans—to the enormous tune of \$430 billion. *Biden v. Nebraska*, 143 S. Ct. 2355, 2362 (2023). In striking down that attempt, the Court declared that the President cannot “unilaterally alter large sections of the American economy.” *Id.* at 2375

3. Shortly after the Supreme Court’s ruling in *Biden v. Nebraska*, Defendant Biden released a statement calling “the Court’s decision . . . wrong” and promising to “stop at nothing” to evade the ruling. Statement from

President Joe Biden on Supreme Court Decision on Student Loan Debt Relief, The White House (June 30, 2023).<sup>19</sup>

4. True to his word, the President's administration released the Final Rule just 10 days after *Biden v. Nebraska*, on July 10, 2023. See 88 Fed. Reg. 43,820.
5. Eager to evade the Supreme Court's ruling as quickly as possible, the President's administration released the Final Rule without bothering to update any analysis in light of *Biden v. Nebraska* or amend financial assumptions that were wholly reliant on the administration prevailing in that case. In fact, the Final Rule does not even cite that case."

## **Congress**

Americans paying attention have been watching the GOP controlled U.S. House eat their own; RINO's galore siding with the Democrat/Communist Party USA. A mess. The Senate has its fair share of RINO's, constitutionally illiterate bozos and racists. The Senate is also leashed by a nitwit (just like AOC) Legs-in-the-air, illegitimate VP, Kamala Harris.

If Trump isn't cheated again, he's going to have to work with mostly incumbents like mine whom I voted against in our primary last month. Jodie Arrington allegedly won and he'll go right back to DC to continue violating his oath of office and refusing to support critical bills.

America had better pray Republicans, as worthless as 90% of them are must keep the majority in the House and re-take the Senate. If the DemonRats control the House and/or the Senate, Trump will spend his time fighting cowardly, craven Republicans and liberals (socialists) and progressives (communists) 24/7 while America continues to implode from within.

[Outrageous! Speaker Johnson Bloviates on X About "founding principles" the Day After He Breaks Tie Vote to Support FISA](#)

[Spying on Americans w/o Warrants](#) – Gets Totally Ratioed!,  
April 13, 202:

“An amendment was proposed by Rep. Andy Biggs (R-AZ), which would have required a warrant for the FBI to conduct surveillance on Americans under FISA. The floor vote resulted in a tie vote of 212-212. Speaker Mike Johnson (R-LA) then

broke the deadlock by casting the tie-breaking vote against the amendment, a move criticized by grassroots supporters. Johnson betrayed Americans and defied the US Constitution.” Johnson and a slew of “Republicans” think it’s perfectly fine to spy on Americans.

### **States of the Union**

I don’t know why states like Texas are called ‘red’ states. The true “red” states in this country are California, NY, Oregon, Washington, Illinois, Michigan and a few others. They’re “red” because they’re drowning in Marxism; all their state flags should be the hammer & sickle.

Our state Attorney General, Ken Paxton, has been fearless in going after the America hating lunatics in the illegitimate Biden administration being run by another Marxist usurper behind the curtain, Hussein Obama. Even if Trump becomes president, GOP controlled state offices (Gov, AG, state legislature) need to keep fighting unconstitutional bills signed into law by Trump that directly impacts their state and citizens. I’m sorry, but Trump did sign spending bills that CONgress had no legislative authority to fund. Hopefully this time around, Trump will get some advisers who actually understand the limits placed on CONgress and uses the power of a veto.

Those massive 'omnibus' budget bills must become a thing of the past because too much unconstitutional spending and further killing our freedoms and liberty are buried in a 2,000-page bill thrown at members of CONgress at the last minute to "avoid a government shutdown". What a game they play with our lives.

Geoengineering – the aerosol spraying of our skies is not some conspiracy theory but this vomit by Dianna Leyva is the quintessential example of someone whose done zero research or writes such BS for a paycheck: [Tennessee legislature passes bill based on 'chemtrails' conspiracy theory: What to know](#)

"The bill claims it is "documented the federal government or other entities acting on the federal government's behalf or at the federal government's request may conduct geoengineering experiments by intentionally dispersing chemicals into the atmosphere, and those activities may occur within the State of Tennessee," according to the bill.

"The intentional injection, release, or dispersion, by any means, of chemicals, chemical compounds, substances, or apparatus within the borders of this state into the atmosphere with the express purpose of affecting temperature, weather, or the intensity of the sunlight is prohibited," the bill reads.

Of course, ignorance was on full display: "Rep. William Lamberth, R-Portland, proceeded to ask Clemmons if he believed in the existence of Bigfoot. "About as much as I believe in a conspiracy theory about contrails," replied Clemmons.'"

Clemmons apparently doesn't know the difference between a contrail and a chemtrail. Modifying our weather is just another tentacle on the big octopus and scam called climate change. The bill was passed by their House and Senate and [signed into law by Gov. Lee](#) last week. That success story would not have happened **without boots on the ground** and voters keeping the heat on their state legislators with factual

documentation.

### Overview:

“Pennsylvania Senator Doug Mastriano (R) recently [announced](#) plans to introduce similar legislation in his state.

“In June 2023, the White House Office of Science and Technology Policy (OSTP) [released](#) a congressionally mandated report suggesting that both global and regional geoengineering projects are being carried out “covertly,” without citizens’ knowledge.

“Page 43 of the [document](#) confirms the U.S. government “conducts or funds limited research into solar radiation modification” (SRM), which involves the use of airplanes or balloons to disperse potentially dangerous chemicals into the stratosphere to reflect sunlight away from Earth.”

I intend to get my state senator on this because contrary to the steaming manure printed up by *NBC*, *USA Today* and all the other prostitute media sources, the spraying of our skies has been going on for decades and the chemicals being released (which are not contrails) land in our reservoirs, on soil, grass consumed by livestock and so on. My state rep who allegedly won his primary should have been thrown out of office a long time ago; he’s been in the legislature since 2007. Makes me sick.

Tennessee was busy this year: [Tennessee Senate Passes Bill Prohibiting Vaccines in Food, Awaiting Governor’s Signature.](#)

As of April 8<sup>th</sup>, Lee was still sitting on the bill but its “anticipated” he will sign it into law. Of course, not everything is all roses in TN. Mixed in with good new laws is the treachery sauce: [Is Governor Bill Lee’s Examples For Tennesseans or the Globalists?](#), Feb. 3, 2023

Kathleen’s column is precisely why it’s imperative citizens in every state follow bills in their state legislature. I’ve

covered this before and how important it is to find sources that focus on bills in legislatures.

Trump stated in 2016 the unconstitutional Federal Department of Education needs to go and again in 2022 at an event calling for abolishing that unnecessary money pit. [Tennessee might reject all federal education funds.](#), Oct. 16, 2023 – “Republican Gov. Bill Lee has embraced the move, saying it will lead to more state and local control over schools.

“The federal government has had excessive overreach time and time again in the last few years, and that’s what prompts states like ours to look at any number of ways that we can more effectively make decisions for Tennesseans – out of the control of the federal government,” Lee said in an event in Nashville, The Tennessean reported.” Trump could address their full legislature on this issue. Imagine that instead of him having to spend his time fighting off the jackals in the Democrat/Communist Party USA all day long and probably more threats of impeachment.

Once again, states with GOP majority in the governor’s office and legislature MUST go rent a bucket of guts and simply nullify: [Two New State Nullification Bills – Will They Pass?](#) And, Rebuttal: [Nullification Is A Fake Solution](#). Neither bill passed (several sessions). Sen. Bob Hall, thank you for trying but millions of Texans pay no attention to bills to put the heat on gutless legislators.

Hell, millions here don’t even bother to vote – especially in my “red” county. In the 2022 midterm elections here in Texas, 45.7% of 17.7 million registered voters bothered to vote. **How shameful.** The battlefields ran red with precious blood to give We the People something the world envied – elect those who would represent us and the ability to throw them out of office. Today, the War for Independence means nothing. They’re all too busy to fight for their children’s future and all future generations as a free people.

The bottom line is Trump can use his power as leader of the Republican Party to work more closely with states as well as continue doing what he did his first term: Get rid of thousands of worthless and harmful rules and regulations choking businesses of every kind, farmers and ranchers.

State reps, senators, governors all need to learn the truth about nullification and what a powerful weapon it is against a tyrannical government. [The Tenth Amendment web site](#), see section on nullification.

Today is called income tax day. Our government has been lying to We the People for a long, long time. Cover-ups: KAL Flight 007, TWA Flight 800, WACO, OKC, 911, RussiaGate, Trump headed up an insurrection, Trump tried to “overturn” the 2020 election and COVID-19 just to name a few.

### **President’s Private Sector Survey On Cost Control – A Report to The President (Reagan)**

January 15, 1984. Available from the Congressional Research Service. The excerpt below can be found on page 12.

- Resistance to additional income taxes would be even more widespread if people were aware that:
- With two-thirds of everyone’s personal income taxes wasted or not collected, 100% of what is collected is absorbed solely by interest on the Federal Government contributions to transfer payments.
- In other words, all individual income tax revenues are gone before one nickel is spent on the services which taxpayers expect from their government.”

I urge you to watch the interview below because it’s one of *the* most important you’ll ever watch. Gutless cowards in CONgress have allowed this lie to put people in jail, confiscate their hard-earned paycheck and bankrupt so many to continue longer than I’ve been alive. All based on yet another monstrous lie.

I have always treasured my friendship with the guest. A man with a family to support who gave up his substantial salary and benefits to uphold the Oath of Office he took. The interview is two weeks old with more than 216,000 views. Let's make it a million.

[Fmr. IRS Agent REVEALS "I haven't PAID income taxes in 25 years" \(41:36\)](#)

For a thorough, comprehensive education on the Fed, the income tax, education, Medicare, SS, the critical, fraudulent ratification of the Seventeenth Amendment and more, be sure to order my book by calling 800-955-0116 or click the link, "[Taking Politics Out of Solutions](#)". 400 pages of facts and solutions.
