

# Twelve Ways Biden's Handlers Are Hellbent On Destroying America, Part 1

**Part 1:** The incredible speed of our country being invaded, the devolving of our Constitution, our language being changed, our history be altered, we're guilty of being a free country.

Twenty years ago, I sat in the audience when historian Victor Davis Hanson spoke to an "Stop Mass Immigration" audience sponsored by [www.Fairus.org](http://www.Fairus.org) in Washington DC. I shook hands with him. He wrote an extremely prescient book: **Mexifornia**.

In that book, he exposed how Governor Jerry Brown of California back in 1975 to 1983, and 2011 to 2019, overwhelmed the state with illegal Mexican workers, drug pushers, rapists, shoplifters, welfare anchor babies, and job stealing. He noted how Mexicans moved into positions of power. Today, you're seeing California's ugly situation of being unable to function as a first world state. It features 200,000 homeless, shoplifting killing major stores and chains, regular murders on a grand scale, welfare off the charts for illegal aliens, hospitals and prisons overrun, and the Mexican flag flown more than Old Glory. You see schools taught in Spanish while gangs rob trains, carjack automobiles, cities destroyed by incompetent minority mayors. Governor Gavin Newsome is totally useless, and MS-13 distributes drugs up and down every city in

California.

We're talking about the largest state in the lower 48 turning into a corrupt, disgusting and un-American colony.

At that same conference, I heard Colorado Governor Richard Lamm give a brilliant speech on: **"The Eight Ways to Destroy America." I wrote a book about it: Immigration's Unarmed Invasion: Deadly Consequences.** I have been writing about our country being invaded for over 30 years. I've written three books on it. I've tried to warn the American people what's coming. I tried to interview on "60 Minutes, NPR, PBS" and another 30 major network programs. They didn't and they won't touch it. Some very powerful people want to keep the American people clueless and in the dark as to what's coming.

Last week, Hanson wrote a piece: **"11 Ways Biden's Handlers are Hellbent on Destroying America."** You can access it on the Internet or Fox News.

Notice Hanson's choice of words as to who runs our country. It's not the dementia-plagued Joe Biden. He's clueless, unintelligent, vacant minded and totally out of touch with what's happening to our country.

1. **We are no longer a sovereign country.** Biden's handlers have erased our borders. I talked about it in my first book. What astounds me stems from the speed of this invasion. We're talking in excess of 12 million illegal aliens in the past 40 months and over 30 million more already here since 1986.
2. **We are being hung out to death** with Congresses' \$34 trillion debt. President John Adams said there are two ways to defeat a country, "By the sword or by debt." We're in a hell of a mess with this gargantuan debt that WILL destroy our economic foundation.
3. **Biden's handlers have given Iran and China the keys, money and power to destroy us.** Whether it was his son

Hunter gaining millions by his father's VP status, or Biden's sheer corruption over the past 50 years in Congress, Iran and China have him by his gonads. That means we're all screwed.

4. **Our identity is now defined by dozens of opposing tribes.** We've got so many other tribes in our country, we're no longer Americans. Millions of us identify as something other than "American." Hanson said, "Ensure each identity group rivals the other for victimhood and the state spoils it confers. Reboot all political issues by race and sex oppressors and oppressed. Destroy all meritocratic standards of admission, retention, promotion and commendation."
5. **Change crime from a crime to social issue:** do not punish criminals. Reward them. Allow \$100 billion in shoplifting annually. Allow 100,000 drug overdoses annually by keeping the borders wide open. Allow American money to the tune of \$120 billion annually to fly out from our country to other countries as cash transfers. Invest in "no-bail", no jail, and it's okay to shoot and kill police officers. That's what's happening across America in 2024.
6. **Turn the Army, Navy, Marines, Air Force and Coast Guard** into a bunch of transgenders, gays, illegal aliens, mentally deficient and mentally unfit discontents who can't fight their way out of a paper bag. The fact today: our military is more worried about a transgender's choice of uniform such as a lady's skirt and high heels on a DNA male, rather than a MAN with a PAIR that's trained to defend America with his life.

**Hanson said,** "Deliberately impugn as racists and insurrectionists the largest demographic in the military who in recent wars died at twice their numbers in the population – so that they leave or never join the military. Encourage retired high officers to slander their commander-in-chief. Cut the defense budget. Stop producing sufficient weapons, but

leave billions of dollars' worth of arms to terrorists."

The fact is: somebody like General Milley left \$90 billion worth of military hardware in Afghanistan. That wasn't a mistake. It was Biden's handlers totally in control and out to kill America.

In Part 2, we're going to examine the last six items that show how Biden's handlers are hellbent on destroying America. When he brings in another 10 million Muslims, 5 million Chinese and 1-5 million Africans with chain-migration along with "asylum seekers", we won't know who we are or what the hell to do to save ourselves. Biden's handlers are effectively destroying our culture, our language, our identity and our way of life.
