

Two Visions, Two Agendas, No Middle Ground

By Lex Greene

March 11, 2024

A war for the future of American freedom, liberty, sovereignty, security, and prosperity is already underway. Just because tanks aren't rolling in the streets yet, doesn't mean that our country isn't already at war within. Anyone the least bit awake, already knows.

There's been much talk about the unprecedented depth of political divisions in our country for years, and trust me when I tell you, it's no accident. Not one single American citizen benefits from these deep divisions. However, every corrupt politician and the corrupt anti-American global cabal they work for, benefits from their planned "divide and conquer" operations.

No Middle Ground

While some still asleep banter back and forth about "compromise" and some silly alleged "bipartisanship" that hasn't existed for decades, the reality is that compromise is not possible when there's no middle ground upon which to meet and agree.

Just as there's no middle ground between life and death, there's no middle ground between the two competing visions and agendas for America. There's no place where compromise is possible. Adherents to the two competing agendas are dug in, unable to even discuss issues peacefully, with neither side

seeking any form of compromise, more interested in cancelling their opponents than listening to them.

This means that one side will have to defeat the other, in order to set the future course for America, and all the marbles hang in the balance. With all the marbles in play, nothing can be left to chance.

Agenda One

1. America First
2. Freedom and Liberty for all legal citizens
3. A basic Right to Life guaranteed in our Declaration of Independence
4. A government that works for the citizens, not citizens who work for the government
5. Economic Freedom, free market economics with minimal government intrusions
6. Limited, lawful, and ethical government within Constitutional authority
7. Free, Fair, Lawful, and Transparent elections worthy of the people's confidence
8. Enforcement of the Bill of Rights for all legal citizens
9. Secure Borders and Legal Immigration in compliance with our Immigration Laws
10. Safe cities and neighborhoods
11. Real Education, not Marxist Indoctrination
12. A Moral Society capable of self-governance
13. A lawful and ethical Justice System, free from political corruption
14. Immediate accountability for anyone who violates their Oath of Office
15. Consequences for all who break and enter our country illegally

There's much more, but this should be enough for now.

Agenda Two

1. A global Marxist "One World" Commune where Americans funds the 3rd world
2. No distinction between legal citizens and illegal invaders, equal rights for both
3. A Right of mothers to Kill whole generations in the womb
4. A Government that controls all citizens for benefit of the elites in power
5. Socialism, wherein productive citizens are penalized for benefit of the non-productive
6. An all-powerful government involved in every facet of citizen's lives
7. Unlawful, hidden, fraudulent elections with a tightly controlled outcome
8. A total disregard for the Bill of Rights and all founding documents
9. Erased borders and an end to national sovereignty and security
10. Sanctuary cities where criminals are welcome and a protected class
11. Global Marxist Indoctrination and a continued dumbing down of America
12. Every immoral perversion and corruption known to mankind
13. A weaponized Justice System designed to persecute all political opponents
14. No accountability for violations of the Oath of Office
15. More rights and benefits for illegal aliens than any American citizen

Again, this should be enough and, in both cases, everything on these two lists is easily confirmed and verified to be FACT.

Now, **Agenda One is the "MAGA" agenda** and the MAGA movement has chosen President Trump to represent this agenda from the Oval Office. **Agenda Two is today's Democratic Socialist Party's agenda** and democrats have chosen Barack Obama and Joe Biden to represent their agenda.

The 2024 elections are not about two political figures, or two political parties. It's all about two very different opposite agendas for America, and as America goes, so goes the entire world.

For the next eight months, we will be flooded with an endless stream of outright lies, half-truths, and globalist propaganda. Mainstream Media, Social Media, Hollywood elites, talk shows, friends, family, education, lecture halls, you name it...we will be bombarded by the worst political garbage slinging we have ever seen in this country.

But remember, truth matters, and the truth is presented above. Every American will vote for either Agenda One or Agenda Two this year. If Agenda One emerges victorious, America may still have a future worth living and passing on to our children and grandchildren.

But if Agenda Two wins, no American citizen will ever know freedom, liberty, security, or prosperity ever again. One of these two competing agendas will emerge victorious. YOU get to decide which one!

"Those who expect to be both ignorant and free, expect what never was and never will be." –Thomas Jefferson
