

United States Morphing Into A Lawless Country

Without laws to create civil societies—no city, no state, no nation, no people and no civilization can long endure the vagaries of lawlessness.

In the early hours of 2018, California Governor Jerry Brown defied Federal Laws by making our most populated and most overrun state a “Sanctuary State” for all illegal aliens to live, work and utilize all welfare services paid for by American taxpayers. California’s 2.5 to 3.5 million illegal aliens enjoy immunity from laws that prohibit illegal migration, murder, rape and non-payment income taxes. Brown invited them to hide from the law in California.

Last year, Chicago Mayor Rahm Emanuel, by mayoral decree, created a “Sanctuary City” for all illegal aliens to work, play, live and operate with immunity from deportation. Chicago’s 511,000 illegal aliens enjoy immunity from state and federal laws. Additionally, Chicago tops the list as the deadliest city in America for annual murder rates. Of great consequence, its social services, schools, food stamps, housing, hospitals and police forces suffer from rampant criminal activities ranging from drug running and shoplifting—to murders, burglaries and rapes.

In Chicago, domestic abuse and brutality run #1 for police officer calls. Nearly 800 gun deaths in 2017. Over 3,000 shootouts within Chicago in 2016. So much crime, police cannot begin to stop it.

Quick note: merchants across America lose \$136 million daily, \$50 billion annually, in shoplifting from legal and illegal immigrants and the growing class of poor people and gang members in the United States.

New York Mayor DE Blasio invites illegal aliens into his self-proclaimed "Sanctuary City." Nearly 1 million illegals utilize New York's schools, hospitals for their babies, food stamps and housing while being paid minimum wages in cash to create a totally rampant underground economy. American taxpayers shell out in excess of \$296 billion annually across 15 federal agencies to pay for 15 to 20 million illegal aliens residing in America. (Source: www.NumbersUSA.org)

In Los Angeles, California, illegal aliens overwhelm city services, so much so, Americans flee by the tens of thousands away from a quickly developing 'third world' scenario.

You may see the same 'crime morphing' of America's once thriving cities in Atlanta, Miami, Houston, Dallas, Denver, Cleveland, Detroit, Cincinnati and dozens more.

At the same time, an illegal alien Mexican, deported five times, a man named Zarate, killed Kate Steinle with a handgun, admitted it, and then, the jury found him not guilty.

Four African-Americans in Chicago tortured a disabled white boy for five hours, shot video of their treachery, showed it on Facebook—but all of them got off Scott free. One faced community service, but laughed on the way out of court.

Across America, illegal aliens drive with no driver's license, no insurance, run from accidents, never pay fines, rape American citizens, drive drunk, shoplift and steal cars. They form MS 13 drug gang networks that addict our kids.

During his term in office, Barack Hussein Obama broke federal laws by issuing an illegal executive order allowing 800,000 illegal alien children a free pass to remain in our country without deportations. The cost of his lawlessness: \$26 billion dollars to you the American taxpayer, and the strong possibility that those kids will import as many as 10 million of their relatives via chain migration.

During his term in office, Obama issued catch and release of illegal aliens to U.S. Border Patrol agents. That created an opportunity for Mexico to export 65,000 of their unwanted children over our borders illegally—and you pay for it as they take up housing, food stamps and schooling in America.

Today, over 240 “Sanctuary Cities” invite and support lawlessness within America. Mayors and city councils commit felonies without prosecution.

Why? Because American citizens fail to take time to participate in their own Constitutional Republic. U.S. citizens sit back, watch TV and do absolutely nothing to vote for responsible senators, congressmen/women, mayors, city council members and governors.

Instead, they vote via their non-participation for a lawless society that will not survive accelerating lawlessness.

What you can expect for your children as a result of America morphing into a lawless society: in excess of 100,000,000 (million) more legal immigrants within the next 32 years. They arrive from 196 different countries with few skills and little ability to contribute to America. They arrive with 196 different world views, religions (not so compatible), cultures and languages. Do you think we will survive that level of multiculturalism, linguistic chaos and religious diversity?

Ask yourself: “What do I want to leave for my children?”
“What am I going to do to stop the eventuality of losing my country to endless and mass immigration from the third world?”

It's up to you! I've seen the writing on the wall, and it's ain't pretty!
