

Unleash Mass Deportation: Due Process for Citizens, Not Illegal Aliens

By Frosty Wooldridge

April 24, 2025

We, the American people, all of us, voted for mass deportation of 25 to 30 million illegal alien fugitives. We're sick and tired of our own U.S. Senators and House Members flying down to El Salvador to re-import an illegal terrorist back into the United States. He would only be deported again because he is an illegal alien, MS-13 gang member as noted by two federal judges, wife beater, trafficker of illegal aliens, distributor of fentanyl, and not a positive contributor to our country.

How is it that an illegal alien who broke our laws seems to have lawful "due process" in our country when he's a foreign terrorist? He has no right to "due process." Even if he did, he would still be deported because he's a criminal alien.

A fellow American, Merlin said, "We're hearing from angry Americans coast to coast, outraged and frustrated by the Supreme Court's recent decision to handcuff President Trump's bold plan for mass deportation of millions of unvetted lawbreakers flooding our country. These illegal immigrants, exploiting our borders and falsifying asylum claims, are a direct threat to our safety, jobs, and sovereignty.

"The Left's law-fare, from district courts to SCOTUS, is abusing flimsy case precedents to grant illegals due process

they don't deserve. There's no constitutional basis for this—our laws, like the Immigration and Nationality Act, demand swift removal! Biden's open-border disaster let in 10+ million illegals, with at least 70% fake asylum claims, clogging our courts for a decade. But here's the truth: 80% of you, per Rasmussen polls, want these criminals deported NOW. We've got to act together to make it happen!"

Write this Open Letter to your senators and house member. Just go to their website, cut and paste, and give them a piece of your mind:

Dear President (Your senator and House member),

The American people are fed up. Our sovereignty is under siege by millions of illegal immigrants who exploit our borders, falsify asylum claims, and burden our communities with crime and economic strain. Rogue district judges, wielding baseless legal theories, grant these lawbreakers the same protections as U.S. citizens, defying the Constitution and the will of 80% of Americans who demand mass deportation, especially of violent criminals, per Rasmussen Reports. Under Biden, 10+ million illegal crossings since 2021, with 70% fraudulent asylum claims, have overwhelmed our courts, mocked our laws, and endangered our nation. It's time to act decisively, outsmart the Democrats' law-fare playbook, and restore America's borders.

THE LARGEST ILLEGAL IMMIGRATION INVASION IN HISTORY DEMANDS
THE LARGEST ILLEGAL ALIEN DEPORTATION PROGRAM IN HISTORY

We, the citizens of America stand with you, President Trump, Tom Homan, Kristi Noem, and ICE to execute the largest deportation operation in history. We urge you to implement the following actions to secure our nation and honor the citizen voice—expressed through millions of emails, petitions, calls, and social media posts:

Mass Deportation Hearings: Implement group hearings in

immigration courts for similar cases—criminal aliens, false asylum claims—to bypass Alien Enemies Act (AEA) legal hurdles and expedite deportations, clearing the 3 million-case backlog efficiently.

Expand Expedited Removal: Enforce the January 21, 2025, Federal Register notice under INA § 235(b), applying expedited removal to aliens within two years of entry nationwide, targeting millions of recent illegal entrants while avoiding constitutional challenges.

Enforce Executive Order 14159: Make non-compliance with EO 14159 (Jan. 20, 2025) a felony, mandating registration of unregistered aliens. Issue immediate notices and arrest warrants by a set deadline for non-reporters, addressing low compliance reported by USCIS to locate and detain millions.

Enhance the AEA: Amend the AEA to designate illegal entry—via borders, visa overstays at airports, or falsified asylum claims—as a “hostile act.” This empowers the President to detain and deport without standard due process, bypassing activist judges. Work with Congress to ensure due process compliance to withstand court challenges.

Narrow Asylum Criteria: Redefine “refugee” under INA § 101(a)(42) to limit asylum to a SHORT LIST of citizens of non-hostile nations with U.S.-recognized persecution (e.g., North Korea). Explicitly exclude migrants from Mexico, Central, and South America, forcing them to seek asylum in culturally and economically similar neighboring countries.

Focus on New Entrants: Apply the enhanced AEA prospectively, using military-controlled Roosevelt Reservation land for rapid CBP/ICE processing to deter future illegal entries, avoiding retroactive legal quagmires that courts would strike down.

The Supreme Court’s alarming trend of siding with due process for illegals, as seen in *Biden v. Texas* (2022), and lawsuits like *Espinoza Escalona v. Noem* (2025) blocking deportations,

reveal a judiciary out of touch with the Constitution as originally written and intended for the American people. The Immigration and Nationality Act empowers rapid removal, yet judges obstruct ICE's mission. We cannot tolerate this abuse of power. Your administration must leverage military logistics, expand detention facilities (e.g., Texas' 1,400-acre ranch), and fund this \$45 billion operation to execute deportations at lightning speed. The American taxpayer—workers, families, and patriots—demands a secure nation free from unvetted, job-threatening illegal immigration.

Today, we call on every citizen to flood Congress with our demands, amplify support on social media, and rally behind President Trump, Homan, Noem, and DHS. Let's back mass hearings, expedited removals, and a fortified AEA to deport illegals en masse, ignoring fake cries of "inhumanity." The citizen poll is clear: millions stand united. Act now, and let nothing—judges, lawsuits, or critics—stand in the way of America's future.

Sincerely,

Your Name

Dear fellow American citizen,

You need to speak up, write up, and stand up for your country. Cut, paste, and send this letter into your senators and House member. Thank you to Merlin for the bulk of this column. We either take action for preservation of our country...or consequences will visit us in greater tragedies, endless crime, homelessness, lack of American representation, schools trashed, growing loss of pride in America, and ultimately, an unsustainable civilization.
