

# Unseen Money Is the Key To Our Disappearing Freedom

By Kat Stansell

May 26, 2025

## Shining The Light On Dark Money

Unless we can fix the dark money that controls all, we have lost our freedom.

Dark Money by the billions flows from big donors to dozens of Political Action Committees to OTHER Political Committees, back and forth, and it spent for things that the Party wants. Forget the people.

Dark Money came to US politics with a SCOTUS decision in 1976, *Buckley v. Valeo* when the Justices laid out “Eight Magic Words” which defined the difference between electioneering and issue advocacy – exempting the latter from election finance laws.

Dark campaign spending increased from less than \$5.2 million nationwide in 2006 to well over \$300 million in the 2012 presidential cycle, more than \$174 million in the 2014 midterms,[3] \$216 million in the 2014 midterm elections,[5] and more than \$1 billion in all 2020 federal elections. Many RINOS like Thom Tillis, NC, were the ones to benefit, as they were purchased to join the Globalists.

“Dark Money” refers to funds raised for the purpose of influencing elections, public policy and public discourse, by

nonprofits and organizations which are not required to disclose the identities of their donors. The nation is awash in it, with an estimated \$3+ billion of it in circulation in the year 2024.

Dark Money controls elections, taxation, insurance and power regulation, the air we breathe and the food we eat. It controls where and how we work, and our children, learn. It controls the cleanliness of our environment, our health and our freedom of choice in every way. Soon, if left unchanged, dark money will be deciding where and how we live; stack and pack small apartment units in UN Agenda communities that allow only bicycles for personal transportation. and availability of food as provided.

Venezuela suffers that today; only three or fewer hours of power every three or four days, little clean water or decent food. Those in Florida, with family in that country, can attest to that and more.

No, I am NOT exaggerating. It's all in the plan, the UNAgenda plans, which have been slowly wrapping their freedom-destroying tentacles around our lives for decades. Only in the early 1990's did they get a name.

Florida is signed on to this.

Tallahassee, being of the leftist, or Globalist/totalitarian bent under DeSantis, has long ago forgotten the people, and is living comfortably in the thought that the web they have woven, with the use of of dark-money trading, is sufficient to keep the people on the plantation, and out of the way of the desires of the political class. Tallahassee is fed and watered – and elected – by large corporate interests, and big private monies. Although it all began long before DeGov, we are here with him and his, NOW. We recognize the damage done by previous administrations, both R and D.

Interestingly enough, much of the diatribe I find against

“dark money” is from the LEFT, which whined that the US Senate “Republicans” blocked a bill which would have required disclosure, in 2022, during the illegitimate B/O regime. It never once occurred to any of them that, without dark money in the election fraud machinery, Barry and Joe would never have been at 1600 from 2020 – 2024! lol...even though the subject is far from funny...

The left blames the right and vice versa... . Were it not for finger-pointing there would be little activity in Congress most days. In truth, citizens on BOTH SIDES want and need to shine the light on things.

“Left” and “right” refers to the Constitutionalists and the Communists, of course.

Remember that the use of party labels only confuses us today. It is the Communists/Globalists/Marxists who don’t care about the people. The opposition party to the Communists is the Constitutionalists. We DO CARE and are working hard to shine the light where it needs to go. You get it, I know. Just start using and thinking in those terms.

I think, frankly, that breaking up the dark money syndicate will go a long way to showing Americans just how much we have in common. Party labels have been used to divide us for decades.

We The People are a powerful force against darkness. Get thee behind us, Satan.

In this series, I will be looking at Florida’s dark money; its sources and uses, and the players who ply the people with lies upon lies.

With all of Florida’s vaunted sunshine, the state is awash in dark money being used for elections and priorities of the ruling class. More and more unwanted development, “affordable housing”, solar energy (which is very high-cost/low

efficiency), less and less agriculture, with higher and higher taxes to bankrupt the homeowner.

Please consult an excellent website, which has been fighting the dark money takeover of the peoples' rights in Florida.  
<https://comecleanflorida.org/history>

I will leave you to think about a few realities in the dark Sunshine State:

Newly elected members of the State Legislature, who have come to Tallahassee with promises to their constituents to fix something or fight against what is going on, are taken aside and told to shut up and sit down. Literally!! Their opinions and those of their constituents are unwelcome and immediately shelved or trashed.

Ah, yes, "the Free State of Florida".

The preaching and cajoling of the dark legislators is plied among Florida constituents to cajole and confuse them. Tallahassee begins to act as "emotional vampires", draining away the citizens' confidence in just what really IS good for them.

Do NOT be misled. Strap on your running shoes, and boxing gloves, grab your readers and computer, and join in the fight for Light vs. Dark. Now that you begin to sense the depths of their depravity, go enlist some good pro-American recruits and join us.

We are out to shine real light on the dark spots in Florida, and the bigger and stronger the group, the more Tallahassee will pay heed. Our light will not be hidden under any bushel basket.

Stay tuned. There will be more zoom meetings to join; the next is scheduled for July 26, as it stands. I will give you updates, new things to do, share and think about every few

days. Be there, or be content to live in the dark, with no AC, clean water and little food. That's coming if we don't. For now, read, learn and ENLIST those who want freedom.
